SPRAGUE CLASSES HOLD PRIZE PICNIC

SPRAGUE RIVER—The freshmen and senior classes of the Sprague River school enjoyed time off from school last Thursday as a result of prize contests and senior activity day.

The freshmen class, which won a half holiday for collecting the most scrap metal in a recent school drive, found the weather so bad for a proposed picnic that the afternoon's activities had to be held under cover. A picnic lunch was served in the school kitchen at noon after which games were enjoyed in the gymnasium. After a session of this a few ventured up to Castle Rock for a hike.

The seniors enjoying their annual activity day, which included a trip to some scenic or historical place found their plans thwarted by a stormy day. The group under the direction of Class Advisor Roland Parks drove to Moore park in Klamath Falls. After a trip through the park the class drove toward the Lake of the Woods, where a steak fry was enjoyed in the forest. A show in the afternoon wound up the days activities.

VIOLATORS OF RATIONING TO GET PENALTIES

WASHINGTON, D. C., April 21—Violators of rationing regulations will be subjected to severe penalties if a precedent set yesterday by Judge Robert C. Baltzell of the Federal Court of Evansville, Indiana, is followed.

Charles L. Hart and Russell W. Baker, president and secretary-treasurer, respectively, of the La Salle motor sales corporation of Booneville, Ind., the defendants, are the first to be convicted and sentenced for violating OPA rationing regulations.

Hart, castigated by Judge Baltzell, as "an enemy of the war effort" and a man "lacking in essential patriotism," was sentenced to 18 months in jail and fined \$500. Baker, characterized as merely a dupe, was fined \$250 and sentenced to a year and a day in jail. His sentence was immediately suspended, and he was placed on three years probation. The La Salle motor sales corporation was fined \$1000.

Hart and Baker admitted concealing and storing large quantities of new tires and tubes from the stock of La Salle corporation, falsifying the dates on a promissory note covering tires removed to the Booneville mills, on January 15, and filing a false inventory of floor stocks with the Bureau of Internal Revenue.

As a result of exhaustive investigations of tire and motor dealers conducted by the Regional Office of OPA, a number of indictments involving criminal violations of the act in widely separated areas have already been secured.

Price Administrator Leon Henderson, in commenting on the case, said: "This is the first of a series of prosecutions which have already been instituted against violators of the act. The OPA will continue to prosecute persons who disregard the needs of the country and act in their own selfish interests."

DESCHUTES FIXES LAVA CAST AREA

The Lava Cast geological area on the Deschutes national forest, Ore., has just been established, according to Lyle F. Watts, Regional Forester, U. S. Department of Agriculture, for a test service. The area is about 22 miles south of Bend and can be reached easily by road.

Lava casts of trees, formed when lava flowed over the ancient forest and cooled, are the chief interest on this area. The casts are in all positions. Some still are standing; some are on the ground, singly or in log jams formed when the lava streams carried them together. Lava cat-acts where the molten rock flowed over cliffs, miniature craters, small masses of fluid lava that were thrown high in the air and hardened in odd shapes before landing and now are known as volcanic bombs, are among the attractions. Petrified tree trunks showing the grain of the wood or with embedded charcoal, lava cones of all sizes, and spatter cones, which are inverted cones formed by gas pockets in the liquid rock, are found.

The geological area contains 5118 acres of national forest land. It will be administered for its scientific and recreational value, and to protect it from despoliation by souvenir hunters.

YANK DOUGHBOYS HOLD ANZAC RODEO

AN ALLIED BASE IN NORTHERN AUSTRALIA, April 21 (AP)—American and Australian soldiers, many of them former cow-punchers, staged a rodeo Monday in an improvised log corral in the bush country and the Australians, outnumbering their allies, won most of the events.

The contestants practiced on wild burros which were caught in considerable numbers near the camps, broken and trained for riding. Rodeo stock was limited to steers.

American competitors included Private James Morris of 27 Penn Ave., Collingwood, N. J., and Private Sam Nussdorf of Rockwell, Conn. Nussdorf said: "I never saw a rodeo before except in the movies. Now I've got to write my girl back home that Gary Cooper's got nothing on me."

The Americans discovered that the Australians call cowboys "jackeroos" and ranches are "stations."

Voluntary pay deductions for defense bonds have been instituted in plants throughout the nation raising millions of dollars to pay for war production.

DRAFT ALLOWANCES EYED BY CONGRESS

WASHINGTON, April 21 (AP) Congress Monday received a bill designed to clear the way for drafting of men in 3-A classifications by providing government allowances for dependents of men in the armed services.

Sen. Ed C. Johnson, D., Colo., who introduced the measure in behalf of himself and Sen. Josh Lee, D., Okla., said it had the approval of the war department and the budget bureau.

The bill would set up the following scale of monthly benefits to "Class A" dependents:

To a wife, \$20; to a wife and one child, \$30, with \$10 per month for each additional child; if there be no wife, \$15 for one child, \$25 for two and \$10 a month for each additional one; to a divorced wife to whom alimony has been awarded, \$20 a month.

Allowances to "Class B" dependents would be:

One parent, \$15; two parents, \$25; for each grandchild, brother, sister and additional parent, \$5.

The allowance would be paid by the government upon written application of any enlisted man having a dependent. In addition to the government allotment, the bill provides for deduction of \$20 monthly from the pay of the four lowest grades of enlisted men—private, private first class, corporal, sergeant and corresponding ranks in the navy, coast guard and marine corps—who apply for the benefits. A deduction of \$25 a month would be made if they have dependents in both classes.
