ROTARIANS HEAR OF HART REFUGE

Hart mountain, the sweeping antelope refuge of eastern Lake county, was described in detail to Rotarians Friday by Jean Branson, manager of the federal refuge there.

Branson said that antelope herds are prospering on the mountain under the management program instituted there. He gave credit to weather conditions in assisting in bringing back the range.

He added that this year, the refuge management is fitting its policy into the war program to assist in greater production of beef, wool and mutton.

Branson stated that there are now about 4000 mule deer on the Hart mountain refuge. Several Lakeview Rotarians attended the luncheon and played golf at the Reames club course Friday afternoon.

Henry Semon, former "white tail" of the Order of the Antelope, was chairman of the day.

the change-over would be deferred until July 15.

The extra two weeks will be required to train registrars and ration boards under the more detailed regulations of the new program.
