

STOCKS RECEIVE SUPPORT AFTER LEADERS DOWN

By VICTOR EUBANK
NEW YORK, June 12 (AP)—Stocks got a little support in today's market after leaders had been shaken down fractions to more than two points.

Transfers ran to around 280,000 shares.

Steels, rails, oils, coppers, mail orders and rubbers were narrow. Prominent on the off-side—several steadied at the last—were American Telephone, Allied Chemical, Westinghouse, Du Pont, U. S. Rubber preferred, J. I. Case and Chrysler.

Bonds and commodities were mixed.

BOSTON WOOL
BOSTON, June 12 (AP-USA)—Trading on the Boston wool market was spotty today with sales of domestic wools, mostly for filling in contracts, negotiated by official agencies. Bright three eighths blood and one quarter blood combing fleeces wools are quiet at about 50 cents, grease basis. Buying for civilian account was very quiet. The extension of allotments to the mills up to August 2 on substantially the same basis as the second quarter have steadied the market.

CHICAGO WHEAT
CHICAGO, June 12 (AP)—Wheat prices tried to rally again today and scored gains ranging from fractions to a cent at times, due to mill buying and short covering, but the market was weakened late in the session by declines of almost a cent in corn.

Feeding grains, of which corn is the most important, were depressed, traders said, partly by Washington reports indicating the administration would insist on congressional approval of its plans to sell surplus wheat for feed. Favorable crop reports from Iowa also attracted attention.

Wheat closed unchanged to 1c lower compared with yesterday, July \$1.18 1/2, September \$1.21 1/4; corn 1/4c lower, July 88-88 1/2, September 88 1/4; oats 1/4c off; soybeans unchanged to 1/4c off; rye unchanged to 1c down.

US PRODUCTION TOPS BRITISH

WASHINGTON, June 12 (AP)—The world had the word of Oliver Lyttelton, British minister of supply, today that Britain now produces a vast quantity of war materials but that the United States production rate recently overtook and "will soon be far ahead" of Britain's.

"A mounting flood of armament production in the United States, together with the production of Great Britain and the other United Nations," Lyttelton said in an address over the Columbia Broadcasting system, "is a stark fact which cannot be explained away by the lies which have been the diet of the German, Italian and Japanese people."
