

REDS BATTLE BIGGEST NAZI DRIVE OF YEAR

fodder" and 200 of these axis allies were killed in four futile "psychological" attacks by a Rumanian battalion yesterday, the soviet information bureau said.

Fifty nazi tanks were reported destroyed and 12 damaged before Sevastopol, besieged Crimean naval base now in the ninth day of a desperate stand against a German offensive.

"Ten artillery and mortar batteries were put out of action," the soviet information bureau said, "and three regiments of infantry and a squadron of cavalry (representing from 3500 to 7000 men) were annihilated."

Hear of Facts

MOSCOW, June 13 (AP)—Around the campfires of the eastern front Red army troops today were informed of Russia's new alliance with Britain and mutual aid agreement with the United States and pledged themselves to seal the pact with new blows at the Germans.

"We'll squeeze them in a steel nutcracker" said one tank driver, Volukko, as reported in the Moscow press.

He was one of the speakers at a meeting on the Kalinin front northwest of Moscow where tank drivers parked their machines in a forest and gathered to hear their political commissar announce the result of Foreign Commissar Vyacheslav Molotov's trip to London and Washington. Similar meetings were held all along the front, from the Black sea to the Arctic.

BERLIN (From German Broadcasts)—June 13 (AP)—Numerous dugouts and fortifications in the defense system of the besieged Russian naval base of Sevastopol in the Crimea have been captured by heavy attacks of German forces, the high command announced today.

Visits Daughter—Mrs. Charles Klug of Tigerton, Wis., has arrived here for a visit of several months with her daughter, Mrs. H. W. Litzke of Fairhaven heights.

"Spanks Me a Lot"

"Do any of you kiddies ever get a spanking?"

Young Four Year Old, the boy with the chubby face and eyes of mischief, started a titter that ran through the Bible School.

"My Daddy spans me a lot." We know that daddy and how his youngsters are being brought up to respect their elders and the rule from above. This is one of the families that is always in the lead in every good work—ready to spend and be spent. In the years to come those kiddies will rise up and call blessed, such a father and mother.

Spankings in the family circle have a meaning. Sonny is as full of life and self-will as any healthy youngster ought to be. So it follows that he now and again breaks out of bounds. And do they cast him off? NO-NO-NO. He is bone of their bone and flesh of their flesh and they have him close to their heart—naughty though he may be. He remains one of them, even though the rod must be used.

So it is in the family of God. The Father breathes himself into the soul of the sinful man who trusts Christ for clearance. By this new birth, that man is now and forever brought into the eternal family. But the man comes in among the redeemed, covered with the barnacles of sin. Of wrong habits, he has a whole page. Does God cast him off? Not for a minute. Hear the pledge—"I give unto thee eternal life; and they shall never perish." Now when he sins, it is as a son in the family. And does the Father wink at his sin? Not at all. First, the Holy Spirit reproves him; grieves over him; rebukes him.

In the end, the rod may fall—"My son, despise thou not the chastening of the Lord, nor faint when thou art rebuked of him; for whom the Lord loveth he chasteneth. . . if you endure chastening, God dealeth with you as with sons." See Hebrews 12:5-8. Out of it the erring son takes forgiveness and fellowship is restored.

ONE—The Bible for your marching orders. TWO—Press forward toward the high mark. THREE—Look to Christ for the power to carry on. FOUR—When you slip back, ask and receive forgiveness. Now the old sins drop off like dead leaves. And why?—"He who has begun a good work in you will go on completing it until the day of Jesus Christ." Phil 1:6. Hour by hour, He Saves—Keeps—Satisfies.

ROMMEL STRIKES WEST OF TOBRUK

disclosed that even in falling back the garrison forces hit hard at the enemy. They were said to have destroyed 70 German and Italian tanks and liberated more than 1000 British soldiers who had been captured.

By his thrust toward Acroma, authoritative commentators said, Rommel was putting his original plan for the campaign into effect, now that Bir Hacheim has been eliminated.

This plan, apparently, was to sever the coastal road west of Tobruk and east of Ain El Gazala, and then strike directly at Tobruk.

BERLIN (From German Broadcasts)—June 13 (AP)—The German high command said today that Field Marshal General Erwin Rommel's armored forces, pushing on from captured Bir Hacheim, "engaged in successful fighting with remnants of enemy forces west of El Adem" in the Libyan desert.

The high command also announced, according to DNB, that 12,000 prisoners, 600 tanks and armored cars and 300 guns had been captured to date in the current North African offensive.

BERLIN (From German Broadcasts), June 13 (AP)—Berlin political quarters said today that Free French soldiers captured at the Bir Hacheim outpost in Libya were subject to execution as irregulars under the German and Italian armistice terms with France, forbidding French subjects to serve in armies fighting the axis.

AIRMEN COMB SMALL ISLANDS FOR INVADERS

is considered secondary to the base at Kodiak, some 600 miles away on the Alaskan mainland. However, with Attu and Kiska in Japanese hands, both bases would be within range of Japanese reconnaissance and bombing operations.

Qualified army and navy sources said they regarded the Japanese activity at Attu and Kiska as nothing to arouse deep concern.

The temporary loss of such isolated islands was believed to figure among the "calculated risks" which Admiral Ernest J. King, fleet commander in chief, has said the high command had to assume.

The navy announcement of the landing, issued last night, said: "Information just received by the navy department is to the effect that the Japanese have made landings on a small scale on Attu island, at the extreme tip of the Aleutian archipelago, and Japanese ships have been reported in the harbor of Kiska, in the Rat group."

Operations in Progress "Japanese operations in the Aleutian area are still in progress, according to the information received, although continuing army and navy aircraft attacks have forced them to retire from the populated regions of the islands."

Bolsters Jap Morale Those who regarded the Aleutian adventure as a face-saving attempt pointed out that Japanese naval morale had had to meet severe shocks in the Midway and Coral sea battles, the first serious setbacks in Japanese naval history.

An American navy department spokesman suggested that Admiral Yamamoto might have to redeem his honor by hari-kiri since he had been praised by imperial rescript for a great Coral sea victory which failed to materialize, and had thus brought into question the infallibility of the emperor.

4 U. S. PLANES LAND IN TURKEY, REPORT

(Continued from Page One)

Consolidated, four-engined bombers at Ankara airport today after a bombing raid on axis bases along the Black sea. Ankara is the capital of Turkey.

According to this report, the planes were believed to have been used in attacks on Odessa and Nikolaev, Black sea Russian ports now held by the Germans. This first suggestion that United States air forces were operating in the eastern Mediterranean area said the bombers were believed to have flown to the attack from Egypt and apparently ran short of fuel on the return trip when forced from their course by the German fighters.

NEW YORK, June 13 (AP)—A forced landing in Turkey by allied planes, variously described as British or American, was declared by the German radio today to have disclosed a "severe offense against Turkish neutrality."

DNB, the official German news agency, said "three or four United States planes which made forced landings in Turkey on Friday are reported to have been only part of a number of American planes crossing Turkey. Government circles, it is stated from Ankara, are regarding the situation as extremely serious."

THE tempo of the war in Russia is rising.

Henry C. Cassidy, AP correspondent at Moscow, reports today that German tanks, planes and motorized infantry have been hurled in full force at the Russians below Kharkov in the GREATEST NAZI OFFENSIVE OF THE YEAR. Typical German tactics of heavy concentration on a narrow front are being used.

Russian dispatches assert that the red army is fighting back fiercely and appears to have the situation in hand.

IN Libya, events are taking a course that by now is pretty well charted.

In each of these numerous desert campaigns the British have started off pretty well but in the course of time have been hard pressed by the German General Rommel. That is happening again.

Cheers from the transports drowned out the band music every time members of the Wrens, ATS or WAAFs—Britain's auxiliary forces—sauntered past.

The fun ceased, however, when the men's turn came to go ashore.

U. S. army headquarters issued a statement saying: "Another contingent of United States army forces has arrived at a northern Ireland port. Included among the reinforcements was a small detachment of negro soldiers for services of supply and additional mechanized equipment."

The American negro soldiers are the first to arrive in Europe since the World war.
