## Make It a Big Parade

A PARADE very properly has a major place in the plans for Klamath's Victory Celebration to be held July 3 and 4. With fireworks banned, the parade will be the major traditional feature of the celebration of the nation's birthday. To make it successful there must be widespread public participation, giving it variety, color and size.

This, therefore, takes the form of an appeal to the communities, organizations and business firms of the Klamath basin to begin now to plan for taking part in the Fourth of July parade.

Klamath Falls is a great parade town. Each year there are parades on numerous occasions. Some of them, to speak frankly, haven't been too impressive. It takes careful preparation and planning to make a parade a success. That is what must be put into the forthcoming Fourth of July parade, because it must be a success as a contribution to a patriotic community celebration.

The Klamath county junior chamber of commerce has been assigned the important job of staging the parade. The junior chamber wants to make it a strictly basin-wide event, with all parts of the basin represented. It wants to make it a parade that will help make the Victory celebration long-remembered. With these objectives, we are sure, the citizens of the basin community will agree. The junior chamber can do it, with general participation and cooperation.

## School Board Changes

MONDAY'S county school elections were noteworthy for the fine calibre of all the candidates participating—Mrs. Burt E. Hawkins and Mrs. George Rogers in the city elementary district, and George Hagelstein and Arthur Blocklinger in the county district.

Returns from the city election show that Mrs. Rogers defeated Mrs. Hawkins by one vote. Mrs. Hawkins had served ably on the board since 1937, when she was appointed to fill an unexpired term, and in 1940 she was elected in her own right. Mrs. Rogers has been active in Parent-Teacher and other civic affairs, and is excellent school board material.

County returns are incomplete, but it appears that Mr. Blocklinger of Chiloquin defeated Mr. Hagelstein of Algoma by virtue of a big vote at Chiloquin. Mr. Hagelstein was also appointed to fill out an unexpired term. Mr. Blocklinger is a successful Chiloquin lumberman.

The defeated candidates deserve public appreciation for good service rendered. The winners have received an expression of public confidence. Well qualified, they both may be counted upon to do their jobs well.

## Why Names Were Omitted

"I GUESS it makes a difference who you are in this damn town," says a letter from an anonymous subscriber who wanted to see the names of the juvenile Nails bandits in print.

It makes no difference to this newspaper who the juveniles are who get in trouble—our policy for years has been to shield all delinquent children up to the middle teens from publicity in the hope they would still go straight and would not be marked as potential criminals through identification in press reports of their misdoings.

As for these boys, the staff of this newspaper never heard of them before, never heard of their parents, and certainly has no reason to treat them any better than anybody else.

Incidentally, it is noteworthy that the person who was so anxious to see the names of these boys in print, did not have the courage to place his or her own name on the letter addressed to this newspaper.

## WAAC Girls Will Have No Excuse for Bulgy Uniforms

By GEORGE S. MILLS  
FORT DES MOINES, Ia., June 16 (AP)—There will be little excuse for the uniforms of the women's army auxiliary corps bulging in the wrong places.

The quartermaster's department of the WAAC officers training school today disclosed the unmentionables miliary will receive when she and 339 other women report here in mid-July.

Each candidate on reporting will receive two girdles and thereafter one a year.

Besides uniforms and other surface clothing previously announced, the candidate will be given:

One cotton and one wool bathrobe, three brassieres, six rayon drawers, two exercise suits, five pairs of gloves, including one leather pair and another leather with wool lining, one muffler, two pairs of cotton and two pairs of flannellette pajamas, four pairs of stress shields, eight shirt-waists, one pair of barracks slippers.

Three slips, eight pairs of cotton and eight pairs of rayon hose, one sweater, one lotion bottle, one clothes brush, three tooth brushes, two shower caps, one comb, one soap holder, one "housewife" kit of needles,

thread and the like, one cream jar, one mirror.

A pair of sun glasses, four bath towels, one first aid packet, one meat can, cup, fork, knife and spoon.

The African cheetah is the only cat that cannot draw in its claws.

## NEWS BEHIND THE NEWS

By PAUL MALLON

WASHINGTON, June 16 — Labor has had a good chance during this war to learn how government ownership and operation works out.

Certain experiments in socialism have been thrust upon the government, some experience has been acquired in the kind of "nationalization" which the British labor leftists strangely are coming to advocate as a post-war system, and that some unthinking liberals in this country lean toward also.

The government took over and operated the Brewster Aviation company, turning it back about three weeks ago to private management. Before government operation and afterward, the union in that plant had a closed shop and a check-off.

But while the government was in control it had nothing, not even the right to strike. When the government took over the plant, labor became the servant of the public and lost all its rights, which could be restored only when those workers became private employees again.

Earlier in the Kearny Shipbuilding plant, striking workers wanted a union of maintenance shop (practically the same as closed) and foolish union leaders urged the government to take over the plant when they could not get their desires by negotiation with the management.

The government accepted their invitation, to their regret. The navy ran the plant, but without the union of maintenance or any other shop, and when the plant was turned back the union was still without its objective. It would have been against the law for the government to have done otherwise.

The workers finally got their union shop through the war labor board, after private management was resumed.

This is not a situation peculiar to war, but is the unbroken history of all government peace-time operation or ownership.

labor has made under private management, and deny it the right to strike or to demand pay increases as in Germany, Italy, Russia.

Could any more convincing proof be offered that labor was being misled again in this instance; that its real future depends upon maintenance of a private profits system, and that its real interests require it to work for profits for management as well as itself, because labor cannot milk a dry cow?

The political truths of this evidence are proved further by equally convincing economic truths.

PRODUCTION IS ALL

U. S. Steel, General Motors, and all other big or little manufacturing businesses have no wealth aside from their ability to produce and a little cash in the bank. If they cannot obtain employees to do the work or raw materials to make their products, or if for any other reason such as national depression their productivity is destroyed, their value evaporates. Their naked plants are worth only what some prospective purchaser may think he can produce from them.

Thus, as our great production victory in this war has shown us, the interests of labor are the same as the management—unity, productivity, profits. The interests of government and the public are served by precisely the same purposes.

You will never find a responsible labor leader who has not known this for a long time, and has not practised it, except at such odd moments when he was trying to squeeze some concessions out of his company.

PEACETIME EXPERIMENTS

Take the cases of the TVA and the Federal Barge Line. These government-owned business enterprises are typical peacetime experiments in the socialist theory. Both have unions of employees, but maintain an open shop, and the unions do not have the right to strike.

TVA has about 37,000 employees and a majority are members of some trade union, the largest being the electrical workers. But these trade workers for the government do not enjoy the same privileges as private workers in the same trade employed by private enterprise.

In government shipyards and arsenals, it is the same. There is not much reason for a union.

Working wages must equal the prevailing wages in private yards in the vicinity and, therefore, there can be no collective bargaining, no strikes, no closed shop.

Obviously then, labor should be assuming the leadership against socialism of the nazis, communist, proposed British or American varieties.

Such a good friend of labor as Mr. Roosevelt outlined the realities of the situation in a letter to federal employes August 16, 1937—A letter which could have been entitled:

"The case against socialism."

He wrote:

"The very nature and purposes of government make it impossible for administrative officials to bind the employer in mutual discussions with government employee organizations. . . . Upon employees in the federal service rests the obligation to serve the whole people, whose interests and welfare require this orderliness and continuity in the conduct of government activities. This obligation is paramount."

UNIONS VS. SOCIALISM

Any union man works for socialism then is working to nullify his union and destroy his existing rights. If you have been thinking that it would be a good post war policy for the government to own and operate, for instance, U. S. Steel or General Motors or North American Aviation, you are really proposing to wipe out all the gains

## SIDE GLANCES

"You advised my husband to take up some hobby to relax his nerves, Doctor—now please tell me what to do for mine!"

From the Evening Herald  
June 19, 1932

We are informed the hotel at Shovel creek (on Klamath river at the state line) is crowded with guests who have gone there for recreation. . . .

F. L. Camps, Ashland photographer, will be here this week to assist Miss Maude Baldwin in opening her studio.

Phil S. Loosley took a load of fine Fort Klamath cheese to Lakeview this week.

Courthouse Records

Glenn Martin Hicks. Four in front seat. Fined \$5.50.

Walter Lee Stringfellow. Void foreign license. Fined \$5.50, suspended if license secured.

Merlin Dale Durant. More than three in front seat. Fined \$5.50.

Merlin Dale Durant. Passing another motor vehicle on curve. Fined \$5.50.

CHRISTIAN SCIENCE

"God the Preserver of Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 14.

The Golden Text was, "The Lord is our defense; and the Holy One of Israel is our king" (Ps. 89:18).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Hear, O Israel: The Lord our God is one Lord: And thou shalt love the Lord thy God with all thine heart, and with all thy might" (Deut. 6:4,5).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The first demand of this Science is, 'Thou shalt have no other gods before me.' This is Me Spirit. Therefore the command means this: Thou shalt have no intelligence, no life, no substance, no truth, no love, but that which is spiritual. The second is like unto it, 'Thou shalt love thy neighbor as thyself.' It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love" (p.467).

Airway beacons first were used in 1930 and were employed on the airmail route between Chicago, Ill., and Cheyenne, Wyo.

## Klamath's Yesterdays

From the files — 40 years ago and 10 years ago.

From the Klamath Republican  
June 19, 1902

## Telling The Editor

Letters printed here must not be more than 500 words in length, must be written legibly on ONE SIDE of the paper only, and must be signed. Contributions following these rules, are warmly welcome.

### URGES CHARITABLE SPIRIT

KENO, Ore. (To the Editor)

I would like to say a few words in regard to the relief funds for needy people.

First I would like to know, is this free America or is it being run by a few political Hitler? Does a person have to live in a section of the country that is detrimental to his health and well being just because the people who are put into the public offices and are paid by the taxpayers' hard-earned money tells the needy poor they have to live in certain sections of the state before they can get help.

My reason for writing this letter is this: I have a neighbor who has been in our neighborhood for a year. Both father and mother have been sick two months, and have not been able to earn enough to feed themselves. They went to the relief for help and were turned down.

The mother went to two other so-called welfare associations and it was the same thing—we can't do anything for you, see so and so.

Just let something like an earthquake or a famine in some foreign place come up and these same so-called Christian associations will fall all over each other to get food to that place, and why? Just because it is printed in bold print, front page stuff, if you please, so and so organization gave such and such big sum of money or so many tons of foodstuff were sent.

But let a local family fall in to want through no fault of their own and they are met with the same old story: "We can't do anything for you, you will have to move to such and such a place." If this is such a free country, why such a report?

Now this is not just hearsay from some neighbor. I have good ears and heard it myself. Those words were spoken to my neighbor and my neighbor is one in my own neighborhood, not someone way off in India or Africa.

I'll say this much: those same organizations professing to be Christ-like had better read a few chapters in the Bible. When people were hungry Christ did not turn them away and tell them to go so and so. No, He fed them, both spiritually and physically. He did not say, "I'll have to send you over to Egypt or some other locality before I can help you." He helped them then and there.

Reports come out so often the relief has saved the taxpayers such and such a sum. If it's there, why isn't it spent at home, and there are plenty that need help right now. There is one thing sure, there are certain organizations that need not come to me for a donation for this or that charity. I have eyes and can see where help is needed and give it personally to the ones I know will get my donation in full, just whatever it is.

I am signing my name in full, also my address.

MARY E. ALLENBY,  
Box 74, Keno, Ore.

## Sky Heroes of Midway

Three naval sky heroes of the Midway battle were together in Honolulu. Left to right: Captain Richard Blain, marine corps pilot; Comdr. Murr E. Arnold, carrier air group commander, and Ensign Milton Tootle, navy fighter pilot. This official picture from the U. S. Pacific fleet was radiated from Honolulu to San Francisco.

## Medical Men Warned on Over-Use of Sulfo Drugs

By JOSEPH D. BARBER  
SALT LAKE CITY, June 16 (AP)—Medical men must be "made to realize that promiscuous and uncontrolled sulfonamide medication is extremely dangerous," Prof. Ernest C. McCulloch, Washington State college bacteriologist, declared today.

"All sulfonamide drugs are harmful to a greater or lesser degree," he asserted. "They are not the cure-all they have been built up to appear in the public mind, and they can—and sometimes do—kill."

By their "spectacular and dramatic results," he said in a paper prepared for delivery at the Pacific division meeting of the American Association for the Advancement of Science, they "have continued to dominate both clinical medicine and bacteriology" during the last year.

But sulfonamide is not the first drug to be accepted by both scientists and laymen as a panacea, McCulloch stated.

"Our psychology appears to demand that a new and useful therapeutic agent first be over-evaluated, then over-criticized, and finally by sheer merit in those conditions in which it is the drug of choice, to be saved from condemnation and discard by those who previously have misused it and who demanded a continuous performance of miracles."

## Clemens Sent to Training Center

Beauford H. Clemens, 4622 Homedale road, was among 91 aviation cadets to leave Portland Saturday for training centers where they will be assigned to active duty with the U. S. army air corps, according to word received here from Lieut.-Col. B. H. Hensley, district recruiting officer for this area.

The young cadets were honored at concluding war-bond sales ceremonies of the Portland Rose Festival held at the Victory center.

## Sprague River

Lawrence Rhea, well known grader at the Crater Lake Box and Lumber company, said goodbye to friends here this week to enter army life. Before he enlists he will visit friends and relatives in New Mexico.

Mr. and Mrs. Dwight Kircher and Mr. and Mrs. Roland Parks and daughter, Tammy, spent Sunday picnicking and fishing at Diamond lake.

Mr. Wiley, grader at the planing mill is back on the job after a month's layoff due to a severe case of pneumonia.

Bill Pool has been selected as millwright in the box factory to replace Steve Crough, who recently resigned.

Mrs. Bud Looper has been off work in the planing mill for the past week due to a case of flu.

Fred Peterson, county school superintendent, visited the school here Thursday and Friday and brought numerous supplies to be used in the summer clean-up work.

Mrs. Blanche Cowbrough has returned to her home here after visiting with her mother in Shafter, Calif. for a few days.

Anita Hecto and Nora Feaster are visiting in the San Francisco Bay area.

Mike and Jimmy Short and William Wolford visited with their parents in Sprague River last weekend. All of the boys are working out of town.

Mrs. Barbara Todd is visiting friends and relatives in Portland.

Mrs. John Hughes and Dolores Cody are visiting for a few days in Klamath Falls.

Mr. and Mrs. Eugene Merritt and daughter Kay, and Marshall Upp, all of Klamath Falls, visited friends and relatives in Sprague River last week. The Merritt's were formally in business here.

There are more than 1500 miles of coastal waterways and more than 3000 square miles of coastal sounds in North Carolina.

Florence Nightingale, ideal of the nursing profession, had a dog as her first patient. molasses annually.
