

MALIN TO JOIN IN NATIONAL BOND CAMPAIGN

MALIN — In response to a telegram received some time ago from Benjamin H. Hamm, chairman of the retail advisory committee of the U. S. treasury department, the Malin chamber of commerce will sponsor a drive for the sale of war bonds and stamps on July 1. The project will be carried out through every business establishment in Malin.

While no further word has been received since the wire which requested that 15 minutes be set aside on one day for the sale of stamps and bonds, T. A. DeMerritt, president of the chamber, announced Wednesday that the chamber would take action voluntary on the all-day drive. When it is completed, a report of the result will be forwarded to Hamm.

According to the communication, all business houses in the United States have been asked to cooperate in the nationwide tribute to the war effort. Residents of the community are asked by the chamber to be prepared to do as much as possible in making the campaign a success, and to purchase stamps and bonds from local stores, pool halls, theatres, or wherever money is exchanged.

The chamber, which is recessing until September, is ready to cooperate with county plans for bloodtyping individuals. The plan was recently explained by Paul Lee, president of the Klamath county junior chamber of commerce and members will be ready whenever called upon, it was stated.

MEET TO DISCUSS FIRE PROTECTION

Fire protection in the thickly settled area south and east of Klamath Falls city limits will be the subject of discussion at a meeting to be held in the Alameda Junior high school music room on Monday at 8 p. m. All residents of the area were urged to attend and participate in the consideration of fire problems.

Venerable Disease Arrests May Be Made, Officials Say

An arrest made Wednesday of a man who refused to accept treatment for venerable disease prompted justice court officials to point out that such a statute exists and to warn that further arrests may be made. Wednesday's defendant pleaded guilty to the charge and was committed to the county jail pending a further report by county health authorities.

Army Says Debris May Be Burned

SALEM, June 25 (AP) — The state forestry department said Wednesday that the army has granted permission for the burning of small piles of debris and other accumulated debris as a means of removing hazardous materials on farms and in suburban areas. The army had banned all such burning as a means of preventing forest fires. Permission from the local fire warden must be obtained, however, before burning any debris.

Klamath Falls Is No New Experience for VFW Head

By LOIS STEWART
Stopping over in Klamath Falls is not a new experience for Louis E. Starr, Portland attorney and commander of the Department of Oregon, Veterans of Foreign Wars, who arrived early Wednesday morning for the annual state encampment.

Starr's father, George Starr, served as Southern Pacific agent at Midland back in 1910. Louis Starr studied at home and when he completed certain assignments would saddle his horse and go through the mud to Klamath Falls where Fred Peterson, school superintendent then and now, would give him examinations.

The family moved away in 1912 and for several years lived in Jackson county. In March, 1917, just one month before the United States plunged into the first World war, young Starr joined C company, 3rd Oregon National Guard, in Portland. In the fall of '17, Starr left for overseas duty. He held the rank of corporal. Two years to the month, Starr and members of his outfit returned to Oregon. While in France, Starr was advanced to the rank of sergeant. Most of his duty was handling of replacement divisions with "lots of convoy duty" between divisions. His big job, he stated, was training and preparing the boys who were to be moved to the front during the heaviest fighting days of the war.

In the meantime the old "Third Oregon" was broken up and the members sent to the various divisions. Starr was sent to Montdidier, where he was busy taking replacements to the First division. There were lots of "gas casualties" about that time, Starr remembered. At Severgne, Starr was on liaison duty with the Second division. He was in the Chateau-Thierry offensive and was hospitalized at St. Agnon until after the Armistice.

Returns to U. S.
Starr returned to the United States in March, 1919, resumed his studies and finished law at Northwestern. In 1920, Starr went back into the service and served with the national guard as commanding officer. Several years later he went into the reserve corps as assistant unit instructor for the 381st infantry with the rank of captain. He continued with the reserves and took his physical examination in January for active duty in the present conflict, but this week was advised that he could not be accepted due to World War disability and was duly discharged.

The Veterans of Foreign Wars was organized in 1898 for the benefit of the men in the Spanish-American war. Sixteen years ago, Starr became interested in VFW and seven years ago was named department judge advocate. Since that time he has gone through the various offices until his election at Bend last year to the highest station of department commander. Starr

CAN'T KEEP GRANDMA IN HER CHAIR

She's as lively as a Youngster— Now her Backache is better
Many sufferers relieve nagging backache quickly once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eye, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.
Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney trouble flush out poisonous waste from your blood. Get Doan's Pills.

ITINERANT SERVICE WILL BE CANCELLED

Because of increasing employment and war-time restrictions on travel, nearly all of the itinerant service of the unemployment compensation commission will be discontinued beginning July 1, it was announced today by Administrator Silas Gaiser and by L. C. Stoll, state director of the US employment service. Few or none of the 35 itinerant points will be able to just-

ify the expense of the monthly calls which have been made from 13 of the 22 local employment offices, officials believe. Only 208 initial claims and 1046 continued claims were taken in the state last week—a record low since establishment of unemployment insurance four and a half years ago.
Workers at distant places will be instructed in mailing in initial and continued claims—a procedure already in effect for those at still more remote points not now reached by unemployment representatives. Cooperation of employers, union representatives and others is being asked in the new economy move.
In the Klamath Falls district, present itinerant point is Lakeview.

SUGAR RELEASED

PORTLAND, June 25 (AP)— Home canning sugar has been released for the processing of frozen foods, State OPA Director Richard G. Montgomery announced Tuesday.
