

OPA DIRECTOR TO ASK FOR EXTRA FUNDS

By WILLIAM R. SPEAR
WASHINGTON, July 2 (AP)—Price Administrator Leon Henderson stocked his vest pocket with cigars today and prepared to head for Capitol Hill to ask the senate for the extra \$86,000,000 the house refused him—the difference, he said, between rationing and anarchy in distribution.

The session of the senate appropriations subcommittee considering the supply bill which carries this fiscal year's funds for the office of price administration was private but Henderson made his case public in advance with a statement that "price, rent and rationing controls are all placed in jeopardy" by the \$75,000,000 budget which was all the house would give him.

Henderson sought \$161,000,000 for operations through next June and said that this estimate "was built upon careful first-hand estimates of the requirements of the office." Unless the full amount is forthcoming, he said, the OPA may have to cancel rent control in 292 of the 367 projected areas and curtail other functions.

More Rationing
The staff "is already badly overworked," he added, but even existing personnel would have to be reduced. There is an inadequate staff to administer the universal price ceiling, he continued, and none at all to administer the ceiling on consumer services. Moreover the OPA "believes that it faces at least 10 additional rationing programs during the coming 12 months."

As he appeared for more funds, Henderson also spotlighted two other disputes with congress—the price concessions to farmers and the matter of subsidies to absorb losses under price ceilings.

He announced that he was "being compelled to take measures that will raise retail prices of the 1942 pack of canned and dried fruits by as much as 15 per cent and possibly more."

This represented the first departure permitted from the universal price ceiling. In an accompanying statement to housewives, Henderson explained that it was made necessary by the concessioners to growers which the farm bloc wrote into the price control act over the administration's opposition and by the refusal of congress to approve the subsidy plan by which the government could have absorbed business losses when necessary to make price controls stick.

The increased prices on canned and dried fruits will apply only to the 1942 pack, which has not yet reached the retail stores. The details remain to be worked out.

OREGONIANS URGED TO HELP FARMERS

SALEM, July 2 (AP)—Oregon residents were urged by Governor Charles A. Sprague today to spend their Fourth of July holidays by aiding hard-pressed farmers to harvest their cherries, strawberries, cane fruits and hay.

The governor outlined the following four-point program to aid the farmers:

- Women and children should step up their efforts as volunteer fruit pickers.
- Families should spend all holidays working in fields and orchards.
- Merchants should release as many of their employees as possible for harvest work.
- Business and professional workers should spend their spare time by working at harvest tasks.

Storekeepers Told To Post Prices

PORTLAND, July 2 (AP)—The Oregon OPA ordered storekeepers today to post maximum March prices at once. No further extension of deadlines will be granted, Richard G. Montgomery, director said. He also ordered merchants to file price lists with price and rationing boards.

Two rationing officials were appointed, William H. E. L. Cox to become temporary head of the sugar section, and Ed Dagner to become a tire section representative.

SHIPYARDS TO HIRE 107,000 WORKERS

PORTLAND, Ore., July 2 (AP)—Federal employment service officials said yesterday that Portland and Vancouver, Wash., shipyards will hire an additional 107,000 workers by the end of the year—if housing can be provided for them.

L. C. Stoll, Oregon employment service director, said he was not worried about finding the workers, half of whom he said could be hired locally.

The big problem is housing, he said, citing the case of the Vancouver shipyard, where 55,000 will be employed in a town which in the 1940 census had only 18,000 residents.

Stoll predicted that, besides dormitories for single men, 36,000 houses or apartments will be needed.
