

U. S. STRIKES HARD IN BIG WEEKEND PUSH

(Continued from Page One)

Japanese efforts to trap large Chinese forces in central Kiangsi, and declared that the invaders were still unable to bridge the last 25-mile gap between their columns driving along the strategic Kiangsi-Chekiang railway.

Resistance Stiffens
On the eve of the sixth year since the bloody "China incident" broke out July 7, 1937, Gen. Chiang's armies appeared to be stiffening against the invaders, encouraged anew by Prime Minister Churchill's promise that Britain would give China "every material, moral and spiritual help" possible.

Meanwhile the situation in India, threatened by Japanese invasion from next door Burma, appeared to be improving as Mohandas K. Gandhi, the powerful little nationalist leader, declared that "India is as much interested as her allies in warding off attack."

Gandhi had previously urged India's 390,000,000 to follow his policy of "passive resistance" toward any Japanese invasion. Now, somewhat changing his position, Gandhi urged that United Nations troops be allowed to remain to defend India but only under a treaty with a free India and at the expense of the United Nations.

Nelson Protests Plan to Produce Rubber From Grain

(Continued from Page One)

drew an emphatic denial from Nelson.

"That's a very unfair statement," the production chief retorted.

"Why?" inquired Norris.

"Because we are doing something about it and when I appear before the committee again I will make a statement about that situation," Nelson declared. Nelson said that a program had been approved requiring production of 700,000 tons of synthetic rubber, which he believed sufficient to cover essential needs.

"But this bill," he protested, "goes far beyond that. You may provide for production of much more rubber by use of critical materials needed in the war effort and for non-essential driving, if you please."

"We believe that production of more than 800,000 tons of synthetic rubber, for instance, would be taking away needed materials."

TOO LATE TO CLASSIFY

WANTED TO RENT—Trailer house. Call Apt. 5, 303 So. 8th. 7-8

WANTED—Used scythe. Phone 5031 after 5:30 p. m., or call at 4349 Winter ave. 7-8

WANTED—Experienced, capable housekeeper between ages 20 and 35. Top wages. Go home nights. Walking distance Pacific Terrace. News-Herald Box 3316. 7-8

FOR SALE—Holstein cow giving 6 gallons daily of 4.53 test milk. Call Agnes Geddes, phone 5175. 7-8

YOU MAY ENROLL anytime this week in day or night classes at Interstate Business College, 432 Main. 7-6

1930 MODEL A FORD SEDAN, 5 wheels and tires, good engine. Owner in service. \$85. 2121 Halley. 7-8

WANTED—Equity 3-bedroom house for cash. Give location, full details first letter. Herald-News Box 3068. 7-8

FOR SALE OR LEASE—2-bedroom home. Lloyd W. Rusk, 1621 Arthur. 7-11

FOR SALE—Water-type air conditioner. Phone Merrill 1811. 7-11

4-ROOM HOUSE, 1/2 acre. Cheap for cash. 1736 Etna. 7-11

MCCORMICK-DEERING Combines, 12 ft. cut, good condition, \$150. J. H. Phipps, Midland. 7-11

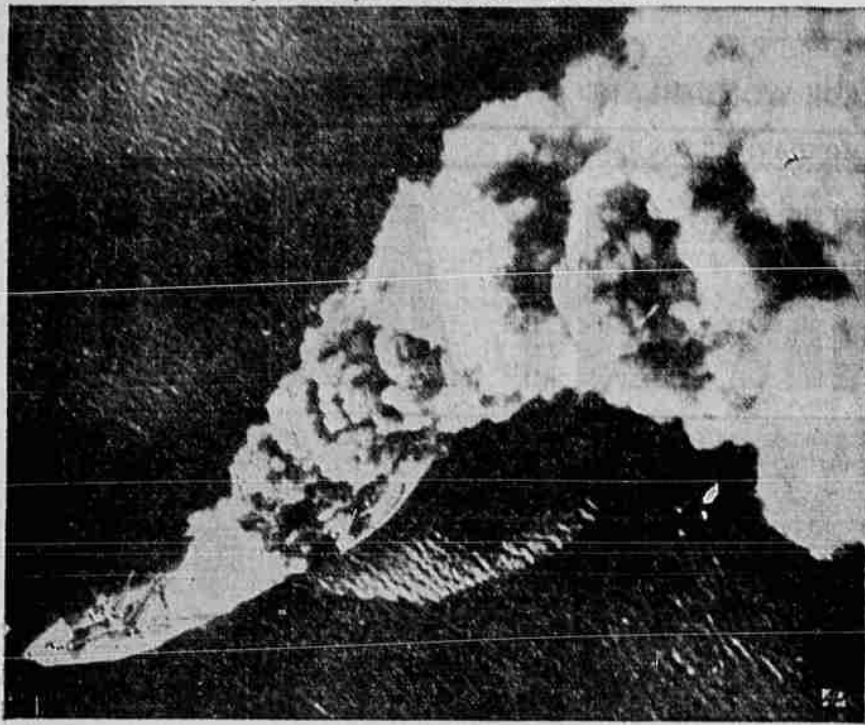

FOR RENT—4-room modern, furnished house, \$30. Inquire 211 Nevada. 7-8

YOUNG LADY, 4 years experience as cashier, wants work as cashier or typist. Telephone 7909. 7-8

FURNISHED APARTMENT—2 rooms, bath, lights, water and fuel furnished, \$20 month. 1500 Siskiyou. 7-8

4-ROOM MODERN HOUSE on acre of ground. Cow, calf, sow, chickens, \$1400, mostly cash. 4502 Blisbee St., Altamont. 7-8

Jap Transport Bombed Off Kiska

The first action picture of the fighting off Kiska, Alaska, released by the navy shows a Jap transport afire after being hit by a bomb from a U. S. army plane over the Kiska harbor. The army and navy are continuing their aerial assaults against the Japs at Kiska and Attu in the Aleutian chain.

City Sustains Gala Mood Over Two-Day Weekend

(Continued from Page One)

and fourth place winners on Saturday. On Sunday Mervyn Wilde, Stanley Johnson and Vic Matney followed McAuliffe in that order.

Harry Tavener, 703 North Ninth street, won the boys' calf riding and also the association saddle offered by Ray Chase.

In the quarter-mile cowhorse race first day winners were Carl Brunton, first; Jack Hope, second; Webb Kennett, third; Harry Young, fourth. Sunday's winners were Harry Young, first; Pat Hogue, second; Glen Young, third; Bob Hall, fourth.

Sunday's program, which progressed smoothly, was highlighted by a match race between Louis Serruys and Jack Gove, with the latter taking the race by a margin. Serruys, weighing in at 220 pounds, rode an English saddle; Gove, 185 pounds, rode a western saddle.

In steer team roping, Bob Dillman and Vic Matney took first day money; Joe McAuliffe, Lawrence Hill, second; Jim Bunnell and Howard Curry, third. Second day money went to Basil Brown and Billy Steppe; Joe McAuliffe and Lawrence Hill, second; Joe McAuliffe and Basil Brown, third; Johnny Vaughn and Jack Hope, fourth.

Music chair winners were John Everhart on the Fourth, Billy Steppe on Sunday.

Best Reined Cowhorse
Joe McAuliffe took another winning place when he was rated first in the best reined cowhorse class. Bob Dillman was second; Frank Morgan, third; W. E. Hammond, fourth. All are well known Klamath county ranchers.

One of the fun events of the rodeo, the wild cow milking contest, was won by Basil Brown on the first day, a team made up of Lawrence Hill and Jack Hope the second.

A nice bit of work was turned in by Lynn Roycroft who announced the two-day show from the timers' stand. He kept the rodeo goers well informed on arena events, handled the mike with veteran ease and all-in-all was considered as good an MC'er as heard here in many a day.

Little Nancy Kelley, who appeared here two years ago, turned in a sweet performance with her trick roping both days of the show. Nancy is the daughter of Cleve Kelley, professional roper,

who has appeared here a number of times.

Features of the show included Jimmy Doss of Hollywood, trick roper, and Brahma Bill, who clowned with his trained Brahma bull.

The grand entry officially opened both days of the show with the Klamath Mounted Reserves going through their maneuvers immediately after.

United States army planes now are fighting on all the world's fronts except Russia and there are factors on the European front which favor it for swift development over those in the Orient and Mediterranean areas.

CONVOY TORPEDOED
STOCKHOLM, July 6 (AP)—A submarine of undetermined nationality fired a torpedo at a Swedish convoy in Swedish territorial waters of the Baltic 100 miles south of Stockholm today, but the missile missed and exploded on the shore. A Swedish warship depth-bombed the submarine.

USE OF WAR RATION SUGAR TO BE SHOWN

Every jar of home canned fruit leaves a can of commercially packed fruit for our armed forces and our allies; every jar of fruit put up at home leaves a little more freight space to carry war materials.

Thus emphasizing the importance of conserving sugar, and pointing out further that submarine warfare and the need for ships to carry war materials mean that imports of sugar will be far below normal, Home Demonstration Agent Winnifred K. Gillen has begun a series of demonstrations showing the use of war ration sugar in canning of fruits.

The schedule of these demonstrations is:

Bly, Tuesday, July 7, at the home of Mrs. James Dixon, 10 a. m.; canning and drying of fruits and vegetables.

Shasta grade school, Wednesday, July 8, at 1:15 p. m.; canning and drying of fruits and vegetables.

Bonanza, July 9, at the home of Mrs. Ben Dixon, at 1:15 p. m.; canning and drying of fruits and vegetables.

Friday, July 10, at the home of Mrs. Rex High in Poe Valley, at 10 a. m.; canning, freezing and drying of fruits and vegetables.

AXIS DRIVEN INTO RETREAT IN LIBYA

(Continued from Page One)

tribes — charged into battle, their bayonets flashing.

The British Middle East command reported that in the day and night operations a strong-point was wrested from the axis troops of Field Marshal Erwin Rommel, a bare 70 miles short of the British naval base of Alexandria at the delta of the Nile.

Heavy casualties were inflicted on the enemy in this night engagement, the bulletin declared. British casualties were described officially as "slight."

Dispatches from the front said the British were wheeling over their artillery to blast away over open sights at Rommel's tanks.

Severe Check
Although military circles said a severe check had been delivered to the axis chieftain's ambitions, they hesitated to suggest yet that he might turn back to the Libyan frontier.

That he could do successfully if such a maneuver seemed best they did not doubt, however, for the British forces apparently were not in position to attempt to cut him off or carry out a pursuit in strength.

Allied planes were reported continuing their active part in the operations in Egypt, blasting at axis troop concentration and supply lines.

BERN, Switzerland, July 6 (AP)—A Berlin dispatch to the Basel newspaper National Zeitung quoted German military circles today as admitting that the British had succeeded in bringing up enough reserves to take the offensive in the battle of Egypt.

Reports from Rome to the Geneva Tribune said that following the axis breakthrough near El Alamein the Italians had not expected such resistance as the British were putting up.

which was shot down in a melee in which three allied aircraft were lost.

The bulletin said that allied bombers had carried out another heavy attack yesterday on the Japanese bases of Lae and Salamaua in northeastern New Guinea, which have been the targets of almost daily attacks of late.

Both Lae and Salamaua were bombed the preceding day by allied fliers who shot down five Japanese planes.

Light allied attacks were made on Stambora, Timor, and at Haelet, which is situated in the Solomons not far from Tulagi.

mel. The British were putting everything they had into preparations to help the Russians meet it, and so couldn't spare their best to Egypt.

Hence Africa's status as a secondary front—a status that was upset by Rommel.

(ALL this, bear in mind, is whole-cloth guesswork, and must be regarded as such. It has no standing as a statement of fact.)

AFRICA and Russia have temporarily absorbed practically all war interest.

But note that U. S. submarines have entered the mysterious operations in the Aleutians, sinking three Jap destroyers and setting fire to another on July 4. U. S. army bombers are taking a hand whenever the fog permits.

U. S. General Kuter, back in Washington after a first-hand view, says U. S. airmen are DEVISING SPECIAL MEANS to put the Japs within range of FIGHTER PLANES from U. S. Aleutian bases—probably extra gas tanks, long urged by aviation experts as a means of extending the range of fighters.

10,111 Car Owners Buy Auto Use Tax Stamps Here

Bright red five dollar auto use tax stamps bought at the local postoffice will decorate at least 10,111 different automobiles during the coming fiscal year. This was the number of sales registered here up to noon Monday.

These stamps, according to W. J. Owsley, deputy collector of internal revenue, must be purchased immediately and displayed in the upper left hand corner of the inside of the windshield. He warned against laxity in observing the tax requirement, stating that failure of a car owner to purchase a stamp is punishable by law as a misdemeanor subject to a \$25 fine. The treasury department, he said, is working out measures for rigid enforcement.

Advice also has been received from the office of price administration that, in the issuance and use of gasoline rationing books, an important identification will be the serial number printed on the motor vehicle use tax stamp.

In those areas where gasoline is being rationed and in those areas where gasoline will be rationed, possession of the tax stamp evidencing payment of the use tax on motor vehicles will provide one of the necessary means of identifying the gasoline rationing coupon book with the vehicle in the securing of gasoline.

To guard against loss or theft, it has been suggested that, when affixing the stamps, the vehicle owner should dampen the windshield rather than the adhesive side of the stamp. Another effective method is to brush clear varnish over the stamp after it has been affixed.

As an additional precaution, it is suggested that each motor vehicle owner should make a record of the serial number which appears on the use tax stamp in order that there may be some means of identification in connection with gasoline rationing in the event the stamp should become lost.

NAZIS CLAIM DON RIVER CROSSED
(Continued from Page One)

operation to overrun the approaches to the Caucasus, a military informant, not quotable by name, declared today.

Gen. Heinz Guderian's second tank group was said to be leading the drive eastward, and the Germans were reported as having 1500 first-line aircraft deployed to exploit any major German success. The enemy already has reported establishing a bridgehead across the Don.

The present battle is being fought on a 120-mile front from east of Orel to east of Kharkov. Military experts predicted the Germans would create a major diversion on the northeast shore of the Black sea, employing nazt troops from the Kerch peninsula. This drive probably would be aimed at Rostov, gateway to the oil regions.

Railway Is Goal
The tactical objective of the Ukraine offensive is to sever the Moscow - Voenezh-Rostov railway, the last remaining lateral communication from Moscow to Marshal Semeon Timoshenko's army group in the south. The Vichy radio, frequently an avenue for German propaganda, said today the line already had been cut.

Guderian's headlong assault— spearheaded by the relatively small force of three armored, two motorized and five veteran infantry divisions—already has forced the Russians back on the Voenezh region.

Two German columns were said to be approaching the city from the northwest and southwest, intending to unite west of the Don and move on the city.

Marshal Fedor von Bock, in charge of the entire German offensive in the south, then was expected to try to shove a great mass of infantry and artillery on across the Don and drive southward on Stalingrad. The success of this massive maneuver would determine whether the Germans could reach the oil of the Caucasus before the snows fly again.

Truckload of Bees Goes Off Highway
"Where's the mud?"

A truckload of bees, Merrill bound from Grants Pass, found themselves buzzing in the tall timber Sunday morning when a machine loaded with hives was crowded off the highway a quarter mile west of the Klamath river bridge near Ellingson's mill.

Operator of the truck, was Leslie Jondahl of Merrill. He had two assistants. All received minor and major stings. Glenn Ferguson, Turner Chevrolet wrecker operator, righted the truck and left the three to await the return of the bees at nightfall.
