

ACTIVITIES PLANNED FOR CITY YOUTH

July 8 ends the first half of the summer recreational activities for the youth of Klamath Falls. Two hundred and thirty six boys and girls have registered for the summer program, according to City Recreation Officer Dave Bridge.

With one month of the program left, many interesting and beneficial activities are still available for the city youth. Swimming, hikes, bicycle trips and softball games are some of the physical activities furnished during the week. At the present time a city-wide table tennis championship is in progress, Bridge said.

Outstanding work is being done by the shop and arts and crafts classes. At the present time, a display of this work is being shown in the windows of the J. C. Penney company.

According to Bridge, elaborate plans are being made by the supervisors for three main attractions this month. On July 24, the annual city recreational Moore park day will be held. The evening of July will witness a circus at Modoc field. This is the first time such a circus has been held, and all animals will be made by the boys and girls attending the summer program, he said.

On August 8, a large group of boys leave for one week of camping at Lake o' the Woods. At the end of this week a group of girls will spend one week at the lake.

For several months, the city recreation committee and recreation officer have been working on these camping trips. Any boy or girl planning on, or wishing to attend these camps, is urged to contact Bridge at the recreation office in the city hall.

SYNTHETIC RUBBER PLANTS TO OPEN

LOS ANGELES, July 8 (AP)—Construction of several plants costing \$30,000,000 for the production of synthetic rubber will begin here soon, Project Coordinator W. S. Harmon disclosed today, and will be operating by March 1, 1943.

The combined plants will be operated by several companies for the federal government on 260 acres of land situated between Los Angeles and the harbor district.

The Dow Chemical company is to produce the styrene and the Southern California Gas company the butadiene.

Harmon said the coordinated plants would turn out more rubber than the entire Pacific coast uses, but the capacity will remain a military secret.

"By locating the plants here we eliminate tank car shipments," said Harmon. "The raw materials can be piped to the plants. All products of the plants during the war will be furnished to the federal rubber reserve pool."

The defense plant corporation will have charge of financing and construction. Workmen will operate on a 24-hour basis in the construction.

Arms and the Man From Boston

BOSTON, July 8 (AP)—Private Leonard Tamule, attorney now in training at Camp Blanding, Fla., to meet the slings and arrows of the axis, has lost part of his equipment.

In a letter home he wrote: "Please send me a well-bound, one-volume Shakespeare. I lost mine."

DANCEMATE BUT NO CHECKMATE

FT. LEONARD WOOD, Mo., (AP)—About 1500 soldiers at this camp, in filling out questionnaires, listed dancing, listening to music and movies as their favorite entertainment—especially, as many of them added, when it is free.

The poorest way to entertain them? Well, just keep the chess board well back in the closet.

Salvador does not touch the Atlantic ocean.

WARNING! BEWARE OF BOWEL WORMS Inside You or Your Child

Roundworms can cause real distress! And nowadays, thousands have this nasty ailment without even knowing what it is. So, watch for such warning signs as: nose picking, "dinks" appetite, nervousness, uneasy stomach, itching parts.

Use JAYNE'S VERMIFUG to drive out roundworms before they can "set up" and make trouble. JAYNE'S is America's leading proprietary worm medicine; scientifically tested and used by millions for over a century. It acts very gently, yet drives out stubborn worms. When no worms are there, JAYNE'S is just a mild laxative. Be sure you get JAYNE'S VERMIFUG!

Big Logging Fleet

One of the biggest fleets of logging units delivered in one order here recently went to the Long-Bell Lumber company operations at Weed, the sale being made through the West Baker corporation of Klamath Falls. Above are shown the five White trucks and trailers which made up the order.

PULLMAN COMPANY HAS LOTS OF LINEN

Enough sheets and pillow cases to tuck 10 times the entire population of Klamath Falls into bed were purchased last year by the Pullman company.

Its total bed linen inventory, announced in Chicago today by Frank S. Rick, general storekeeper, would be sufficient to give clean sheets and slips to each of the 16,497 men, women, and children of Klamath Falls every night for 69 nights.

The total estimated value of all linens in the inventory report was put at \$2,571,000 and the annual laundry bill in recent years has exceeded \$1,500,000.

There are nearly 8,500,000 separate pieces of linen on cars or in company storerooms and laundries, the report showed, and the average Pullman carries with it 160 sheets and 120 slips when it leaves on each two-night trip.

Large-scale movements of troops, requiring at times more than half of Pullman's entire fleet of sleeping cars, have quickened the linen turnover, but Rick said that soldiers, sailors and marines have slept in clean linen every night of their trips, without necessitating any restrictions on normal passenger service.

TULELAKE STREET TO GET OIL COAT

TULELAKE—City fathers in session Monday night appointed a new councilman, instructed the city attorney to draw up a lease for the new dumping ground, and announced that Main street will be treated to a hot oil surfacing within the next two weeks.

Jack McLain succeeds J. W. Carlisle, who offered his resignation to the council several weeks ago. Carlisle, at the time of his resignation from the council, made a clean sweep of public duties, resigning from the ration board also.

Charles Lederer, Alturas, city attorney, in the lease to be drawn up for the land acquired for disposal of city refuse, allows for a rental fee of \$10 per month. The land, located in the foothills near the Tulelake CCC camp, is owned by George McCollum.

Councilman A. A. Rodenberger reported that county road equipment is on the grounds for the improvement program on Main street, and that within the next two weeks two coats of oil and a top surface will be put on. The first car of oil is ordered for Thursday of this week, and the second for Tuesday of the following week. Approximate cost of the project will be between \$1800 and \$2000.

The street has been repeatedly surfaced with gravel in the last few years and light oil has been applied to settle dust.

PROFITEERS WHIPPED

ALEXANDRIA, Egypt, July 7 (Delayed) (AP)—The first whippings for profiteering here occurred today when 13 convicted profiteers were given 30 lashes and three months' imprisonment.

Copco Re-Dubs Department Business Discouragement

The California Oregon Power company's new business department has been re-dubbed the "New Business Discouragement" department, because of war production board limitations on utilities construction, company officials said today.

Sam Ritchey, new business manager, said Copco is cooperating with WPB regulations calling for no new non-essential building and limitation of both water and power extensions to 250 feet. And these can be completed only if materials are available, he said.

Ritchey said the WPB order No. P-46 of March 15 limited non-essential extensions to the 250-foot length and decreed they must not run over \$500 in cost. Exceptions exist in the case of war projects such as airport or reception center construction, he said.

Effect of the order, Ritchey declared, has been to stop virtually all household and small pumping station power extensions. The order is subject to further limitation at any time, he said.

HAYING OPERATIONS START IN EARNEST

TULELAKE—Haying operations, irregular since the first of last week, will get into full swing by the last of this week, with stacking to start in earnest. While alfalfa is expected to be slightly below average in yield, due to lateness of the season, growth has been rapid since the beginning of hot weather, and the yield will probably be heavier than early season predictions.

Large acreages of alfalfa have been purchased standing in the field by Max Jacobson, manager of the Malin Feed yard, and equipment, including a baler that picks hay from the windrow, is moved from farm to farm. Two thousand head of feeder cattle are now in the yards.

Labor for early haying operations appears to be plentiful. A few farmers are "doubling up" on crews.

Hager

Luther Tarwater from Seattle, Wash., visited his parents and other relatives from Friday until Sunday.

Mr. and Mrs. Ivon Trapp, Mrs. H. R. Bunyan and Mr. and Mrs. C. W. Tarwater and Raymond spent the Fourth of July near Medford.

Mr. and Mrs. Troy Cornett and Mr. and Mrs. Tarwater and son Luther were among those from near here who saw the parade July 4.

Mrs. A. Davig returned from Nebraska last week, having been called there by the death of her mother. Mrs. Davig's mother visited here last summer with the Davig family and had several acquaintances in this locality.

Mrs. Mae Anderson, Mrs. Annie Anderson and Martin and Larry Snyder returned from Rocky Point Sunday, where they had been vacationing for the past few days.

Tom Baldwin passed through Klamath Falls last week on his way to San Diego, Calif., to begin his career as a marine.

William Wagoner was a caller here Monday.

Billie and George Rangan Jr., were in Klamath Falls to see the parade the Fourth of July.

WELFARE UNIT KEPT BUSY ON DRAFT REPORTS

Press of work in selective service investigations led the county welfare commission Tuesday to recommend addition of one case worker to the county welfare staff.

Last month, it was reported, the bureau received requests for 151 reports in connection with the selective service program. These investigations mainly concern applications for deferments. The welfare bureau investigates the validity of a deferment claim.

The commission studied the question of supplying tubes to the welfare workers, when it was reported the rationing board had rejected an application for tubes. It is possible for the workers to get tire recaps, but not tubes, it was stated.

At a meeting this week, the rationing board will be asked to reconsider the application.

LOOKOUTS MANNED IN CRESCENT AREA

CRESCENT LAKE—With thunder clouds rolling over the Cascades, forest service men today packed the lookout up on Odell butte, and thus completed the roster of lookouts manned in the Crescent district for 1942. Bill Jenkins of Gilechrist, only three weeks out from Mississippi, is the new lookout, replacing Johnnie Myers, who is the new headquarters fireman at Crescent.

Jimmie Sterns of Lapine, is on Deer butte but will leave July 15 for the army air corps. Gilbert Hunt of Bend, is stationed at Davis lake and Ed Cavin of Crescent, is on Davis mountain lookout. Oscar Paulson of Salem, is the fireman at Crescent lake and C. A. Abbott of Nyssa, is on Walker mountain. Maiden peak is not to be manned this season.

Although there will be no CCC camp at Odell lake this year, a five-man suppression crew will be permanently stationed there for the summer. Members of this crew include Pat Metke of Bend, foreman; Stewart Gilechrist; Jay Glat, Davey Sumpter and Don Carter.

The hexagonal cells of bees and wasps are not planned that way, but are cylinders under pressure.

Navy Announces New Air-Driven Sub Chasers

WASHINGTON, July 8 (AP)—After 25 years of efforts to perfect a light, high speed power plant to drive submarine chasers, the navy proudly announced Tuesday that a new light weight diesel engine and variable pitch marine propeller were at last in full production.

The new engine and accompanying adjustable propeller are being made at the electro-motive division of General Motors corporation, La Grange, Ill.

Mass production of the sub chaser power plant was hailed at the navy department as a tremendous forward step in the campaign against predatory U-boats along the east coast.

The navy said that the engine "is believed to be the lightest ocean duty diesel engine in the world," occupying "about one-third the space of the most successful previous diesel engines of the same horsepower."

YOO-HOO, OFFICER!

BLOOMINGTON, Ind., (AP)—Navy men who will attend training school at Indiana university beginning July 15 may be startled to know that the "Jadies' powder room" of the West Hall on the campus is being converted to quarters for the officer of the day.

as well as several of the Charles Hess family.

JUST BECAUSE YOUR SUGAR BOWL IS EMPTY

DON'T Use It for a Strong-Box!

Bonds and Stamps Are Available at FIRST FEDERAL

Just because the present sugar scarcity means that your sugar bowl is idle, don't make the mistake of using it as a hiding place for money, valuables or legal papers. Even the added protection of a mousetrap would be little defense against the dangers of fire, theft, or air-raids. In these troubled times, guard your valuables, by putting them in the safest possible place . . . a FIRST FEDERAL SAFETY DEPOSIT BOX!

WPB Expands Priority Ratings

WASHINGTON, July 8 (AP)—Project priority ratings available to contractors and builders of authorized projects were expanded

by the war production board to cover purchases of "expendible materials," such as scaffolding, explosives, abrasives and forms, consumed in construction of the projects.

Previously the project ratings covered only materials which

were to be physically incorporated in the structure.

High quality starch is obtained from sweet potatoes.

Ice hockey uses a six-man team; field hockey, 11 men.

"RITE-SIZE" BROADLOOM

GLENSIDE
GUARANTEED 100% WOOL FACE
AXMINSTER BROADLOOM CARPET

One of the best selling, biggest floor covering values in the history of Sears! A proven \$4 value . . . woven by foremost manufacturers expert in the art of blending wool for strong, lustrous carpets. Brand new colorful 1942 patterns, exclusive with us, boasting all these features:

- 9- and 12-ft. and 27-inch widths for smart, seamless floors correctly proportioned.
- Woven exclusively for Sears by one of America's foremost rug makers. New 1942 patterns and smart decorative colors.

3.59

CHATFIELD
AN ACTUAL \$4.35 VALUE

If you know real quality in carpeting . . . clear, colorful beauty . . . and honest, sincere facts, then you'll know this 100% all wool face Axminster Broadloom is the bargain you've been waiting to find. Woven seamless in 9 and 12-ft. and 27-inch widths to properly and proportionately fit any room:

- Woven exclusively for Sears by one of America's foremost rug makers. New 1942 patterns and smart decorative colors.

3.95

FENWICK
ACTUAL \$5.35 VALUE
CLOSELY WOVEN, DEEP AXMINSTER BROADLOOM

Examine it! This is the heaviest, most closely woven Axminster Broadloom on the market within dollars of Sears' low price! Soft, clean, fine imported all-wool tufts in every square foot . . . woven seamless in 9 and 12 ft. and 27 inch widths.

- New 1942 patterns and colors
- Styles for any room, Decorative Scheme

4.95

RUBBER MAT 14x22 Size **98¢**
