

# STOCK MARKET CLIMBS AFTER MILD RETREAT

By VICTOR EUBANK  
NEW YORK, July 8 (AP)—The stock market resumed its summer rise today after a mild extension of Tuesday's retreat.

Gains ranging from fractions to 2 points or so were well distributed through the list in the final hour.

There were several intervals of activity and dealings were approximately 376,860 shares.

A steep jump in grain prices on farm legislative developments had some effect on the buying tides in stocks.

Leading the stock exchange upturn were Bethlehem Steel, up more than 2 points at the best, and U. S. Steel for nearly as much. Other prominent climbers were Youngstown Sheet, General Motors, Chrysler, Douglas Aircraft, American Can, Dow Chemical, Dupont, Eastman Kodak, Anaconda, Owens-Illinois, Santa Fe and Standard Oil (N. J.).

Bonds were steady.

### BOSTON WOOL

BOSTON, July 8 (AP-USA)—Sales of medium fleece wools suitable for pending government blanket orders were reported in the Boston market today at firm prices. Some bright and average bright fleeces were sold at 48 cents, grease basis, delivered for country-graded wools running pulled wools Type B, had some demand at close to ceiling prices.

### A WOMAN AND A HAIRPIN

MARTINEZ, Calif. (AP)—The ferryboat Charles Van Damm ran aground and passengers were stranded for several hours.

To while away the time a woman began fishing with a pin and a piece of string.

It was a very nice catfish she caught.

"Sale" is a Spanish word meaning "out it goes."

### CHICAGO WHEAT

CHICAGO, July 8 (AP)—In the sharpest advance in weeks, wheat prices today rose almost 5 cents a bushel at one stage as buying expanded to large scale proportions. At a peak of \$1.21, July wheat was the highest it has been since May and about 6 cents above last Monday's low.

Renewal of flour business and buying inspired by senate passage of legislation to raise government loan rates on basic crops, including wheat, prompted the upturn.

Although late profit taking and hedging reduced the gains by more than a cent, wheat closed 21-3/4 cents higher than yesterday, July 120, September \$1.22-1/4.

Corn, up a cent or more at one time in sympathy with wheat, finished 8-1/2c higher, July 87c, September 90-90c; oats 14-1/2c higher; rye 21-2/4c higher; soybeans 1-1/2c higher. Rye was up as much as 31 cents at one time with wheat.

### TOO SMOOTH

MILWAUKEE, (AP)—Charged with speeding, Robert Freeman, negro, won a suspended sentence with this:

"I was thinking about buying a new car and I was trying it out when this officer stopped me. That car is a 1941 model and I tell you, judge, it seemed like I was just moving about 10 miles an hour, it rolled along that easy. The car I have now is a 1936 model and when it goes over 30 I sure know it."

### WOMEN POLICE OFFICERS

BUFFALO, N. Y., July 8 (AP)—Three women police officers reported for duty today at Bell Aircraft corporation, the vanguard of scores to be hired and attired in a feminine version of the standard company police uniform. They were assigned to inside work with the same duties as male guards.

### WHEAT PRICES UP 5 CENTS A BUSHEL

CHICAGO, July 8 (AP)—Wheat prices advanced almost 5 cents a bushel today as a result of heavy flour business and buying inspired by senate passage of legislation which would lift government loan rates on basic crops from 85 per cent to full parity. Wheat prices were the highest since late in May.

Pit brokers said buying came from all interests in the market with mills active as a result of greatly expanded flour business approaching last week's proportions following a let-up in demand from bakers earlier this week.

July wheat hit a peak of \$1.21, which shortly after noon, at which figure it was the highest in more than a month and about 16 cents higher than a year ago. At the day's high July wheat was about 6 cents over last Monday's low.

Late profit taking reduced the gains somewhat but wheat finished 21-3/4 cents higher than yesterday with July at \$1.20. Other grains rose with wheat, corn gaining a cent, oats more than a cent and rye more than 2 cents.

### Solomon Couldn't Solve This Case, But Uncle Sam Did

DETROIT, July 8 (AP)—Joseph W. Ehasz, 27, of Washington, Pa., presented a problem which Recorder's Judge John J. Maher admitted neither he nor a Solomon could solve—but maybe Uncle Sam could.

Ehasz was charged with bigamy, and the facts admittedly were peculiar.

The defendant was a worker in a war plant. When tires were plentiful, he drove his car to work, and spent evenings at home with his brunette wife Rosylena, never meeting such comely blondes as Mary Jane McDonald, encountered in a street car which replaced the family car as transportation.

But he did meet Mary Jane, "and, judge, I found myself liking her," he told the court.

Followed a bit of subterfuge.

### WAGE DISPUTE CLOSES FOUNDRIES

SEATTLE, July 8 (AP)—While more than 1000 members of the International Molders and Foundry Workers' union meet to decide whether to request strike sanction by Internationals officers, Seattle foundries working on war contracts are shut down today.

Fred Kruse, secretary of the Seattle Metal Trades council, said the workers decided to meet today after employers in about 35 foundries offered a pay raise based on the wage pattern outlined for shipyards at the Chicago shipyard conference several months ago.

Molders and core makers now receive \$1.07 an hour, Kruse said. The union is asking \$1.32 and the employers have granted \$1.20. The union is asking a minimum of 80 cents an hour for all workers. Present minimum is 72 1/2 cents.

The men will resume work tomorrow.

Clear dealers offer a customer the whole box, so that he may pick out the desired number, merely as a sanitary measure.

Eagles cannot carry off objects weighing more than 10 to 15 pounds, scientists have shown by tests.

### FIRST WOMAN ARMY OFFICER SWORN IN

MINNEAPOLIS, July 8 (AP)—Hortense Mae Boutell, 29-year-old supervisor of 16 women in an arms plant, today was believed the first woman army officer candidate in the country to be sworn in.

Miss Boutell was sworn in at the army recruiting station here last night after completing a final medical checkup.

"I'm ready to do anything they want me to do—everything from riding a jeep to pounding a typewriter or cooking meals," she said. "I'll miss the duck season this fall, but I know how to use my old 16-gauge shotgun and if necessary I'll go right to the front to fight the Japs or the nazis."

Her salary will drop from \$55 a week to \$50 a month. Her army pay started immediately after she took her oath, and she was given a furlough. She will report to school at Des Moines, Ia., July 19.

"Romance will have to take a back seat," she said. "I'm in the army now. But if some handsome captain comes along—how can I tell what'll happen?"

### 4-H GARDEN INSPECTION IS PLANNED

Classes on the beach, with teachers and pupils wearing bathing suits, are conducted by one school in St. Petersburg, Fla.

It was believed that a person who ate potatoes daily would die within seven years, in Colonial days.

"Tom and Harry, Dick and Mary, how does your garden grow?"

That is the question to be answered by members of the Fort Klamath and Modoc Point 4-H Garden clubs on Thursday when C. C. Jenkins and A. H. Bussman start a garden inspection tour which will take them in the next few weeks to every club in the county.

Jenkins and Bussman will meet with the Fort Klamath club members and their leader, Mrs. Ray Loosley, at 9 a. m., and with Modoc Point members and their leader, Mrs. R. H. Carson, at 4:30 p. m. Thursday.

Tentative ratings of the gardens inspected will be made in connection with The Herald and News Victory Garden contest, but final scoring will not take place until August 26-27. At that time, A. G. B. Bouquet, garden specialist from Oregon State college will judge all gardens entered.

Density of population in the United States is now 44.2 persons per square mile, according to the census bureau.

Nevada is the least thickly populated state in the union, with one person to the square mile.
