

# BOY SCOUT CAMP SET FOR CRESCENT LAKE

Camp Makualla, summer training ground for Boy Scouts of the Modoc area council, opens its fourth season on August 2 at Crescent lake. This year, because of the need for boys on the farms, the season has been cut to two weeks.

It is urged that all Scouts going to camp register on or before noon of Saturday, July 25. Advanced registration is necessary, according to Camping Chairman S. M. Badger, because of the restrictions on sugar and transportation.

At present the second week is rapidly filling up. All registrations should be brought or mailed to the Boy Scout office in the Loomis building.

Because of shortages of materials the only improvements to be made at the camp this year will be those that can be made of the material at hand. It is planned to build at least one and maybe two log Adirondack type cabins this summer.

In addition to the scout executive, Rev. E. V. Haynes will be in camp in charge of campfires and morale, while Bob Edwards, Red Cross waterfront director, will again be in charge of all swimming, life saving, boating, and first aid.

## RECORD DRIVE SET FOR JULY 20

Old phonograph records will mean new music for the men in the fighting forces, thanks to a new activity of the American Legion auxiliary, Mrs. Paul Otterbein, president of the local auxiliary unit, announced today.

With the American Legion, the auxiliary is supporting the campaign for salvage of old phonograph records being sponsored by "Records for Our Fighting Men," an organization composed of entertainment leaders who make records. The old records collected by the Legion and auxiliary will be turned over to the record manufacturers and new records purchased for the fighting men.

Due to the war, there is a severe shortage of material from which to make record blanks. Old records can be ground up and made into new records, it was said.

Participation of the Legion and auxiliary in the movement was authorized by the Legion's national executive committee at a special meeting in June. The campaign is expected to be held in Klamath Falls, July 20 to August 3, when boxes will be placed at convenient places in the downtown area to receive donations of old records.

### Malin

Fifteen military police from the Japanese relocation center at Newell will be guests of the Helping Hand society when they entertain Sunday, July 19, at the annual club picnic. Members and guests will meet on the lawn of the high school for one o'clock luncheon, with the club to furnish ice cream and coffee. Everyone attending is urged to bring "plenty of food." The society was organized 27 years ago in June. The next regular meeting will be held August 5 at the home of Mrs. Oscar Hammer with Mrs. J. Perry Haley, re-elected president, in the chair. Mrs. Melvin Fitzpatrick and baby daughter of Klamath Falls, are guests this week in the home of Mrs. Fitzpatrick's parents, Mr. and Mrs. Harry E. Wilson. Fred Peterson, Klamath county school superintendent, was a luncheon guest in the Wilson home Wednesday.

Rev. and Mrs. Donald Dod and daughter Judy are vacationing in California for two weeks.

Matt Obenechin, son-in-law of Mr. and Mrs. C. M. Kirkpatrick, who for some time has been employed in the commissary department at Summers Lane school near Klamath Falls, has accepted a position with the government and will inspect the new type grain storage bins to be built in Klamath county and elsewhere. Obenechin is now in Kansas on a tour of inspection. Mrs. Obenechin and two children have moved from Summers Lane to a residence in the Altamont drive district.

## Commandos to Furnish Club Room for Newell Soldiers

Members of the Klamath Falls Commandos who were guests of Capt. and Mrs. William Patterson at Newell last Sunday have undertaken to complete the furnishing of the club rooms used by the soldiers stationed there.

The large room used by the men during periods of relaxation is already equipped with a ping pong and billiard table, a few chairs and two small davenport sets donated by local business men through the Red Cross, but Commando Captain Bernie Heidemann points out that many more furnishings are necessary to assure maximum usefulness as a recreational center.

In the short time since they have undertaken this project, the Commandos have received promises of many useful articles, including a radio from Sears Roebuck and company, a wicker

rockers from Mrs. Mitchell Tillotson, a large number of books from Dee Perkins, a floor lamp from C. G. Reymers, a table lamp and book case from Mrs. George Conners, a magazine rack from Mrs. Carl Schubert and five dollars from K. A. "Dinty" Moore toward needed repairs.

Captain Heidemann said the girls are exerting every effort to obtain the loan or donation of a piano, which Louis Mann has offered to tune and repair, if need be, without charge. They also hope to locate more lounge chairs, magazine racks, another book case and a desk or two.

If anyone has any of these articles which he wishes to contribute, Chet Smith, Commando adviser, will be glad to see that they are picked up. He may be reached by calling 7028.

## PRaise Given For ANTI-FIRE DRIVE

SALEM, July 16 (Special)—

"Cooperation of Oregon citizens in the anti-forest fire drive during the first protracted dry spell of the summer was wonderful," said Nelson S. Rogers, state forester, in commenting on the record of forest fires during the holiday weekend. "There was only one fire in protected areas which we have definitely established as man-caused, and that was in northern Josephine county and was probably a set blaze."

"This is the best record in many years and shows clearly the desire of the people to be helpful in this war emergency when forest fires could be so disastrous to our safety," Rogers continued. "We had some trouble with campers near Oregon beaches leaving camp fires unattended, but feel that this will not happen again when campers realize the danger they are exposing the entire coastal regions to by leaving blazing beacons which the enemy could use."

There were more than 75 fires over the weekend of the Fourth of July, all but one started from lightning. Five lightning blazes started in logging slash. One eastern Oregon fire on Indian land burned hundreds of acres, but not in timber. Some down timber in a logging operation was burned, but not destroyed in a blaze caused by lightning in the Columbia-Washington county area 40 miles from Portland.

## Nations Should Cool Off After War

PORTLAND, July 16 (AP)— Warring nations should undergo a cooling-off period between the end of the war and the peace conference, Clark M.

Eichelberger, New York, said yesterday.

The president of Citizens for Victory told a forum on peace problems that there would be too many matters to be settled on short notice. He proposed that the United Nations begin peace planning at once.

## Panel Recommends Wage Boosts for Lumber Workers

PORTLAND, July 16 (AP)— Wage increases and other concessions were recommended for employees of three southwest Oregon lumber mills Wednesday by a national war labor board panel.

North Lowery, of the CIO-IWA office here, said the recommendations were now up for WLB approval.

The Coos Bay Logging company employees would receive a 7 1/2-cent hourly wage increase retroactive to April 1, 25 cents night shift differential. The Portland Port Orford Cedar company workers would get similar wage increases plus vacation periods based on length of tenure. The Coos Bay Lumber company employees would get the raise and night shift differential.

### DOLDRUMS

SALMON, Ida., (AP)— Lemhi county politics aren't what they used to be.

Four county offices are sought by no candidate of either party.

A watch has about 160,000,000 ticks a year—almost as many as a camper has in two weeks.

## Evacuee From Italy Revels In World of White Bread

PORTLAND, July 16 (AP)— Vittoria Carney, an Italian girl who married an Irish-American from Portland in Rome in 1940 and rejoined him here this week after a voyage on the exchange ship Drottingholm, reveled today in a world of white bread.

The newcomer shrugged off

the high buildings and automobiles and said: "I've never seen such white bread." Europeans, she explained, are a bit food conscious. In Italy 10 pounds of potatoes cost \$5, a pound of coffee \$25 and a pound of tea \$80.

The wife of Martin Carney, a Portlander who married her while studying voice in Italy, declared that Italy prays for a United Nations victory, that revolution is so rife in the Italian army that Mussolini sends his own soldiers out of the country as soon as they are trained and polices the nation with Italian and German fascists.

To reports that Mussolini has lost his mind she commented: "He's no madder now than he ever was; he's always been mad."

## KIRKPATRICK GETS MARINE PROMOTION

Floyd Claude Kirkpatrick, Klamath Falls youth who has been training toward a flight commission in the United States marine corps, has been ordered to active combat flying duty as a second lieutenant of marines, it was learned here today.

He is the nephew of L. F. Kirkpatrick, 1900 Esplanade, which was the young aviator's home before he entered air training.

Lieutenant Kirkpatrick, a graduate of the University of Oregon, was appointed an aviation cadet last October due to instruction he had received under the CAA program. He took elimination flight training at the Seattle, Wash., naval reserve air base, and was transferred to the Jacksonville, Fla., naval air station.

Successful completion of final tests at the Florida proving ground for marine and naval aviators brought Kirkpatrick his commission a few weeks ago. The Klamath leatherneck was granted 15 days' leave upon graduation from advanced instruction and then was attached to naval forces as a marine corps pilot.

## Newspaper Service Starts Use of Wooden Tires

MINNEAPOLIS, July 16 (AP)— Wooden tires developed by the Twin Cities newspaper service are now being used to deliver Minneapolis newspapers.

Originator of the idea, the newspaper service has applied for patents on the new style wooden tire which they said makes the trucks steer easier although they are noisier than rubber.

Trucks equipped with the tires can be driven no faster than 15 miles per hour, the company said, but multiple deliveries to news stands are possible instead of the one delivery per day permitted under defense transportation rules.

The tires are composed of 36 wooden blocks bolted together and held in place by an iron band.

In this "all-out" war life becomes very trying for those who are not trying their best.

The Holly-Ette brassiere provides a youthful uplift with the utmost comfort. Whirlpool stitched cups assure a firm contour and a center V of latex eliminates any cutting or binding. Adjustable shoulder straps.
