FALSE TEETH
That Loosen Need Not Embarass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wabbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

TSK! TSK!

SAN FRANCISCO, (AP)—"The government confiscated my father's breakfast," remarked the marine corps major.

"I had just docked from the tropics bringing dad a package of mangoes. He loves 'em," he explained to friends. "But the plant quarantine said dad will have to eat something else because the mangoes were infected with Mediterranean fruit fly."

The friends made noises indicating sympathy.

A stranger nearby said "Who's the marine?"

"Major James Roosevelt, son of the president."

Fortune laughs at people who sit back and wait for it to smile.
