

ROTARY HEARS DESCRIPTION OF CONVENTION

TULELAKE—Leon Johnson, secretary of the Alturas Rotary club who attended the Rotary International convention in Toronto, Canada in June, was guest speaker at this week's meeting of the local club, presenting a vivid word picture of the big meeting that drew 8050 delegates from 32 countries. Mrs. Johnson accompanied her husband, and was also a guest at the luncheon Wednesday.

Theme of the convention was "Learning How to Live Together," and the delegate reported listening in on some fine talks. Headquarters for the sessions were in the York hotel. Turlock, Calif., took honors for sending the largest delegation, the decision being based on miles traveled.

Johnson left home with seven tires, he stated, and 15 gallons of extra gas that he took as far as the Canadian border where officials informed him that it could not be taken farther. Given a gas rationing card, he and Mrs. Johnson "got by" until within 75 miles of Toronto, when no more gas was available and they were forced to complete their journey by bus.

The speaker was introduced by Loeth S. Dunlap, program chairman.

Non-Rotary guests for the day were Charles Frederick, employed with Karl Gentry, contractor on the Bank of America and Ed Robinson, Klamath Falls. Rotarian guests included A. H. Patterson and Paul Mathews, Klamath Falls.

Rance Stover will officiate as program chairman next week.

FIRE FIGHTING FUND TOTALS \$8 MILLION

WASHINGTON, July 17 (AP)—Government aid to fight forest fires on national and private lands the coming year approximates \$8,100,000.

As finally set up with passage of the agriculture department appropriation bill Wednesday, national forest protection work will receive about \$4,100,000 and federal aid to combat fires on private lands will total \$4,000,000.

A house proposal for an increase of \$3,000,000 in the allotment for national forest fire protection was cut in half by the conferees. The \$1,500,000 will be added to the regular annual appropriation of about \$2,600,000 for national forest protection.

The conferees also cut to \$1,500,000, from a house-proposed increase of \$2,500,000, the amount of federal cooperation with states in fire fighting. This increase, with the regular annual appropriation of \$2,500,000 for that purpose, set up \$4,000,000 in federal funds for combatting fires on private lands.

LANA TURNER MARRIES
LAS VEGAS, Nev., July 17 (AP)—Red-haired Lana Turner, who roomed to movie fame as a shapely sweater girl, was married to Stephen Crane, former Chicago and New York broker, today less than three hours after they surprised Hollywood with an announcement of their elopement.

U. S. surgeon general reports the health of the American army excellent—putting it on a par with the spirit.

Safeway's "Store of Tomorrow" Opens This Weekend

Newest Ideas Presented In New Safeway Stores

Offering the utmost in convenience and sanitation, Safeway presents the newest ideas in food merchandising in the sparkling new stores opening this weekend, one at South Sixth and Shasta Way, and one at 211 North Eighth.

On entering the door it is easy to see why Ted Medford, Safeway district supervisor, calls it "the store of tomorrow." After the first glimpse of the many unusual innovations, the customer discovers the welcomed lack of congestion in the wide aisles.

Recessed fluorescent lights in the ceiling give the store a daylight appearance even though there are no windows in the sides or roof of the large building. The stores are new from front to back, even a complete new stock of merchandise is on the shelves and display stands for the opening tomorrow.

New Ideas
The produce department which is located in the left front corner presents many new merchandising ideas. Only a small quantity of each fruit or vegetable is displayed on the new produce racks. The large stock of fruits and vegetables is kept "garden fresh" in a large steel produce cooler located in the stock room, from which the front display will be constantly replenished. The price tags are on the stands and not sticking in the produce itself.

The newest ideas in refrigeration are incorporated in the meat department. There is not one piece of wood in the walk-in meat storage room. It is all stainless steel and as clean and spotless as a home kitchen. Indirect soft white fluorescent lighting illuminates the triple glass meat display cases. There are four refrigeration machines in the meat department, one for each case, which makes it possible to keep perfect refrigeration in any kind of weather. There are also special wall fans in the meat department.

A feature that will appeal to summer shoppers is the air conditioning unit which cools the whole store. One feature, which is something new for food stores and which will not benefit the customer, is tiled shower and rest rooms for men and women employees. There are also private lockers for employees.

Floor Covering.
The floor covering of the new Safeway stores, which was designed to relieve fatigue of employees and customers, is a rubberized sponge effect. In the rear corner of the stock room all trash will be disposed of in a built-in incinerator.

There is space for 44 cars on the large concrete parking lot which will be floodlighted at night.

Exterior
The exterior of the building is cream with red and black tile under the front windows. There is a permanent marquee over the front sidewalk and heavy screen doors at the entrance. The interior walls are light green and the ceiling is soft cream.

The new Safeway store at South Sixth and Shasta Way, is of the same plan as the store at North Eighth, which many visitors have already inspected. The merchandise in these new markets is in the same place in every store of its type.

The South Sixth and Shasta Way stores will replace the old store at 2424 South Sixth, or South Sixth and Washburn. T. C. Griggs has been a store manager with Safeway for 13 years. The store at North Eighth replaces the old location at Seventh and Pine. Dayton Barnhart, manager, has been with the company for the past twelve years.

SALE OF SAFEGWAY PROPERTY REVEALED

A real estate transaction involving an indicated consideration of nearly \$50,000 was disclosed Friday in a county records filing showing the sale of the new Safeway store property on Eighth street.

On record is a deed from Safeway Stores, Inc., to David and Irene Schwartz. Also recorded was a lease of the property for 40 years from David and Irene Schwartz to Safeway Stores. It is understood Mr. and Mrs. Schwartz live at Eugene.

The property is described as lots 5 and 6, and the northwest one-half of lots 3 and 4, block 12, original town.

This property was long held by the Hotaling family. Through R. C. Dale, realtor, it was sold some time ago to the Safeway people, who constructed a large store on the site. Safeway has now sold the property to Mr. and Mrs. Schwartz, and leased it back.

WEST ELECTED AS LEGION COMMANDER

MERRILL—Harold West will serve the Merrill American Legion post as commander during the coming year with K. C. Burks to fill the office of first vice commander; W. E. Hammond, second vice commander; E. E. Kilpatrick, adjutant; Warren Fruits, treasurer and Elmer Stukel, sergeant-at-arms. Election of officers was held Tuesday night. Appointive offices will be filled by the incoming commander before installation some time in August.

The post voted to sponsor a drive for old photograph records, assisting the national call for records that will be melted and re-cast, to be sent to USO homes. Regardless of their condition, records should be turned in to Elmer Stukel at the Standard station here or to Warren Fruits at the Merrill mill. Kay Kiser, sponsor of the drive, hopes to obtain 37,000,000 records within the two-week time limit beginning July 17.

Music artists have offered their services gratis for recording on the re-processed records and phonograph companies are making only a nominal charge for preparing them for use again. Each Legion member is asked to turn in 25 old records and the auxiliary of the local post will also assist.

Private Gifts To Britain to Be Slowed Down

LONDON, July 17 (AP)—Prime Minister Churchill asked President Roosevelt in a letter published Thursday that shipping space for vital war materials be saved by slowing the flow of private gifts and supplies from the United States to Britain.

To enforce such economy, the foreign office announced that cargo space would be allocated hereafter only to shipments directly through the American Red Cross to the British Red Cross and women's voluntary services and through the British War Relief society to the Personal Service league.

The principal effect in restricting what Churchill called "the brotherly flow of materials" will be to cut Britons off from the tobacco, clothing and delicacies from America which added a luxurious touch to the rigid ration allowances in many homes.

800 MILES TO BATTLE
Lieutenant Presley N. O'Bannon of the U. S. marines traveled 800 miles over the Barca desert to Derne, Tripoli, the scene of a great battle in 1805.

Wilkes Leaves Newell Center

TULELAKE—Captain Wilkes, located at the army administration building near Newell since construction started on the war relocation authority unit, with V. J. DeMers, chief of the electrical staff, and a number of other engineers are leaving this week to return to headquarters at San Francisco. Captain Wilkes supervised army construction at the camp, arriving three months ago.

DISEASED SPUDS MAY FLOAT OUT

Because potato tubers from hills attacked by various virus diseases the previous year are lighter than tubers from healthy hills, they may be floated out in a salt solution, leaving seed virtually free of such virus diseases, reports A. E. Gross, in charge of the O. S. C. experiment station work in Klamath Falls.

While use of certified seed is recommended as the best and safest procedure, the fact remains that many growers do not or cannot use such seed, hence the value of a method of picking reasonably good seed from table stock.

In experiments conducted with Klamath Nettle Gens, Gross found that floating out about 65 per cent of a test batch of potatoes eliminated 92 per cent of the disease and brought increased yields of 30 to 40 bushels per acre. The tubers floated off were still just as usable as table stock as before, though both those and the seed stock require prompt rinsing in clear water to prevent damage.

Strength of salt solution to use and other details of the method are explained in a circular of information No. 272. The idea is believed to have originated in Canada.

Bauer Takes Over Ranger Duties

DORRIS—Don Bauer has taken up duties as forest ranger at Mt. Hebron. He is next in line to C. A. Abell, district ranger, who replaced W. A. Peterson last week.

Bauer received his degree in forestry from Oregon State college.

ILLEGAL LIQUOR SELLER CAUGHT

DORRIS—A Klamath Falls man who had given liquor to an Indian led Police Chief J. W. Mather and Deputy Sheriff W. L. Gravier on a chase afoot Sunday in an attempt to evade arrest, but was caught by the officers and jailed.

Mather and Gravier had watched the man go into a local store and return with liquor which he placed in the car of an Indian. The officers arrested the man, who gave his name as James Elmer Chase, but he turned and ran from the scene. He was finally caught at the

edge of the city limits. The liquor was confiscated. Police Judge L. M. Chase, who didn't like the similarity in names, fined Chase \$100.

War Separates Two Brothers Born in Dorris

DORRIS—Two brothers born in Dorris have been forever separated by World War II.

The youths, Siro and Gino Rostrolla, sons of John Rostrolla, accompanied their father back to Italy several years ago. The father later returned to the United States and sent for the older son, Gino, who is now serving in the U. S. army.

Siro stayed in Italy and joined the Italian army. His father recently received word that he was killed in action.

FOR ADVENTURE AND A FIGHT
JOIN THE "SEA TAXIS"
OF THE
ARMY'S ENGINEER AMPHIBIAN COMMAND

If you're used to boats—if you like action—if you're itching to get in the fight—here's your chance to pick your own thrilling branch of the service and "put 'em across!"

Apply for immediate enlistment in the "Army's Navy"—the powerful assault boats that carry troops to secret attack. Types of experienced men, 18 to 45, needed for this special force include motor and sail boat operators, Diesel and auto mechanics, deep sea sailors and commercial fishermen, boat builders, cooks, welders, trained gasoline fire-fighters, and other marine and construction specialists.

You'll be thoroughly trained and well paid, with ample opportunity for promotion and glory in the Army's Engineer Amphibian Command. Get in now! Time for these enlistments is definitely limited. Get full information at the nearest Army Recruiting and Induction Station.
