## MEAGER DAY PULLS PROPS FROM MARKET

#### By VICTOR EUBANK

YORK, July 17 (AP)-Relatively meager offerings to day were sufficient to pull the props from under many stock market leaders. Transfers were around 300,000 shares.

Steels were among the softer groups, apparently taking be-lated cognizance of the payroll boost granted "Little Steel" workers by the W.L.B. Rails did better than most other di-vision:

Prominent in the downward drift were U. S. Steel, Bethle hem, General Motors, Chrysler American Can, Westinghouse, Du Pont, Allied Chemical, Sears Roebuck, U. S. Rubber, Texas Co., Standard Oil (NJ), Santa Fe, American Telephone, Anaconda, U. S. Gypsum and Johns-Man-ville. ville

Oliver Farm and White Rock edged into new high ground for the year. Bids were forthcom-ing for Atlantic Coast Line, Southern Railway, Crane Co., Columbia Gas, Owens-Illinois, Western Union and Postal Tele-graph preferred.

of Buenos Aires cathedral. As the procession formed and the casket was placed on a gun carriage, about 500 persons surged forward with the evident intention of joining the procession for the man whose death re-

moved one of the hopes of dem-ocratic forces in this country. Police repelled them in a ser-ies of fist fights, and the proces-tiz," and "viva la democracia,"

HERALD AND NEWS, KLAMATH FALLS, OREGON

RHINECLIFF, N. Y., July 17 (P)-Reports that various persons had seen descending parachutes came from several sections of the state today, follow ing a long investigation of one such report here, but army sources said they had been un-able to verify any of them. The army said that if and

when any such reports were con-firmed, they would be made public promptly. The flurry started yesterday when six "parachutes" were re-

ported seen descending in an area near President Roosevelt's

Hyde Park estate. A farm superintendent's un-confirmed report of sighting parachutes late yesterday afternoon brought a small army of mili-tary, FBI and state police offi-cials to the scene but they post-poned their search until day. break today after townsfolk ad-vanced a theory the reported aerial objects probably were bal-loons sent aloft by a group cele-brating a religious holiday.
