## CAMP WHITE AREA MILK PRICES UPPED

GRANTS PASS, July 18 (AP)—The Oregon State milk control board by notices distributed Saturday in Josephine and Jackson counties announced minimum milk prices "in the Camp White sales area located within the geographical boundaries of Jackson county" effective August 1. The order applies to Josephine county too insofar as milk produced here is sold in the Jackson county Camp White sales area, and is a one-cent increase per quart over milk produced in Josephine county and sold locally.

The minimum rates established by the board will be 13 cents a quart for milk ranging from the legal minimum quality to 4.2 per cent butterfat, and 14 cents for milk ranging from 4.2 to 5.2 per cent butterfat. Other prices will be in proportion.

Wholesale prices will increase in the production area on August 1 for milk in the two counties produced for the Camp White pool, which was established by an earlier order.

## Looks Like These Two Are Stuck For the Duration

THE DALLES, July 18 (AP)—At the latest report Mesdames J. L. Pouncey of North Bonneville, Wash., Roland Russell and Erwin Hansen, Tooele, Utah, appeared to be 'The Dalles' residents for the duration.

They blew a tire on their luxurious trailer earlier in the week. Their Utah rationing board wired it had exhausted its quota. The Dalles board said the visitors couldn't qualify and even if they could the chances for a tire for a luxury trailer were practically nil.

The ladies said they intended to stay until they got a tire—and proceeded to do a washing.

There are openings for both men and women in these trades. The U. Women are required to pass physical examinations.

## War Bonds Rise

## LAKE CHECKS UP \$45,000 IN BONDS

LAKEVIEW, July 18 (Special)—The Lake county war bonds sales committee has reported sales totaling \$45,000 for the first 15 days of July, according to Forrest E. Cooper, county chairman of the committee. The county quota is \$55,000, which sum, the committee feels certain, will be reached on July 25 when heavy purchasing will be made by several of the mills and their employees pursuant to the payroll allotment plan.

The above picture was taken of the war bond thermometer on the courthouse lawn in Lakeview on June 26, the day the committee reached the June quota of \$33,000. Similar thermometers have been erected at Paisley and Silver Lake through the cooperation of the Lake county court. The figures are adjusted from day to day in order that the natives will have an up-to-date report.

## No Red Carnations Today For Confessed Slayer

SAN LEANDRO, Calif., July 18 (AP)—There were no red carnations today for Leslie B. Gireth—not even the faded remnants of the ones he had left by the bullet-pierced body of the beautiful young woman he had loved.

There were only harsh jail bars, probing question by authorities—and memories of the love affair he said "people wouldn't understand."

Gireth, 42, wealthy and prominent jeweler from Glendale, Calif., was brought to the Alameda county jail at Oakland and booked for investigation. Deputy District Attorney L. E. Dayton said he had confessed he shot and killed Dorena Hammer, 20-year-old former San Jose State (Calif.) college co-ed, while she slept in the luxurious auto court here where they were registered as man and wife.

"I was afraid that our interest in each other might lead to scandal that would ruin her life," Dayton quoted the jeweler.

Authorities were not sure this was the real motive, however. Jealousy, they thought, could have entered the picture. Sheriff H. P. Gleason said he was told that Miss Hammer about a month ago became engaged to Master Sergeant H. L. Jones of San Jose; that he had given her a ring and that Miss Hammer declared there was "a man down south" whom she was determined to see no more.

Dayton said Gireth was "very shrewd, cold, and showed no remorse" as he told of the fatal ending to his blighted romance.

## MARITIME GROUP CANCELS CONTRACT

WASHINGTON, July 18 (AP)—The maritime commission announced today that it had cancelled a contract with the Higgins Industries, Inc., of New Orleans, for a huge merchant shipbuilding plant in order to divert all available steel into the construction of ships at plants already in existence.

The commission said this action had been concurred in by the war production board. A. J. Higgins, head of the firm, earlier in the day told of the shutdown of his plant, employing 10,000 men, and charged that the steel-shortage explanation was a pretext.

"Maybe big steel stopped it," Higgins said. "Maybe we are going to build too many ships too cheap and too fast for those boys."

The Higgins concern had a contract for construction of 100 Liberty ships. "Inasmuch as it would be 1943 before the Higgins yard could be in full scale production, and because the Higgins program necessitates the creation of vast new facilities such as shipways, shops, machine tools, railroads, and transportation and housing for workers," the commission said, "the amount of steel required would best be diverted into existing construction."

## Dr. Smith Named To Willamette Post

PORTLAND, July 18 (AP)—The Willamette university board of trustees selected Dr. George Herbert Smith, De Pauw, Ind., university dean of administration, as president yesterday.

Dr. Smith received his bachelor's degree from De Pauw in 1927, returned as freshman dean in 1932 and has been administrative dean since 1938, university public relations director and head of the \$2,207,000 Edward Rector scholarship foundation.
