Chase Willing To Be Commissioner Candidate

William F. B. Chase, former county commissioner, said Monday he is "willing to be" an independent candidate for county commissioner at the fall election.

Chase made the following statement to the press:

"In regard to the office of county commissioner I wish to advise, that while the law does not permit the filing of an independent nomination within more than 100 days, yet it does not prohibit the announcement of any independent aspirant for such.

"In justice to my friends who wish that I should be such candidate and as information for the public who might be asked to sign any petition for my nomination, I wish to say that I am willing to be such independent candidate, that I have given the matter careful consideration and if my friends will see that I have the required number of signers, which shall be not less than 781 in the county, that I will accept such independent nomination when properly filed with the county clerk.

"My reasons for this move are as follows: We are engaged in a great struggle for the preservation of free government; we cannot afford any dissipation of our forces for liberty, either in material power or man power. Everyone should take his place and do his best for the good of all. I am an old man, but I am not down and out. I still wish to be of service to my hometown, my country, my

HOUSE GIVES OP. \$120 MILLION

proval of the conference committee changes is expected. The action came after Rep. Taber (R-N. Y.) declared that Henderson, "in his estimates for money, called for absolutely ridiculous set-ups. He has an absolutely incompetent force, and he himself, I believe, is totally incompetent. He believes in the crack-down policy of the NRA, rather than an appeal for patriotic cooperation."

Taber's remarks drew a quick expression of confidence in Henderson's administration from Rep. Celler (D-N. Y.). Celler declared that the OPA chief had demonstrated his ability to win "the battle against inflation."

WASHINGTON, July 20 (AP)—A \$6,143,900,000 wartime revenue bill was passed by the house and sent to the senate today after a last-minute floor fight which resulted in levying a 90 per cent excess profits tax and a combined normal and surtax of 45 per cent on corporations.

The ways and means committee sought to have the excess profits tax raised to 90 per cent and the normal and surtax reduced to 40 per cent.

On the excess profits tax increase, the committee was sustained on a voice vote.

But on the surtax revisions the house decided, by a teller vote of 180 to 160, to retain the provision of 45 per cent.

Chairman Doughton (D-N C) of the committee urged the revised corporate rates in the interest of the small corporations which were not benefiting from the war program. But Rep. McLean (R-N. J.) said the changes would "help those corporations which are waxing fat by this war effort."

The legislation would raise about \$2,400,000,000 in new taxes from corporations and almost \$3,000,000,000 from individuals, primarily through steeply graduated individual surtax rates and reduced personal exemptions.

US AIRMEN BLAST JAPS AT CANTON

the whitecloud airdrome of the outskirts of the city was the target. Today's official announcement that an airdrome was attacked, without identifying it, indicated a second field was visited this time, since the Japanese maintain several around most of the larger cities under their domination.

Chinese forces, inflicting major setbacks to the Japanese drive aimed at the heart of China from the southeast, have recaptured the seaports of Wenchow and Julian in Chekiang province and broken the invaders' hold on a 15-mile strip of the Chekiang-Kiangsi railway by seizing Iyang and Hengfeng. The Chinese high command announced yesterday.

Heavy Losses
The official announcement said the enemy lost heavily in casualties and that large stores of booty fell into Chinese hands.

The report of these successes after a long series of Japanese gains was greeted here as the best news in weeks from the warfronts.

Both Wenchow and Julian, 13 miles to the south, were reported captured last Friday less than six days after their occupation by the Japanese in a thrust which extended across the length of Chekiang from Hangchow in the north.

Prosecution Rests Case Against 8 Nazi Saboteurs

WASHINGTON, July 20 (AP)—The military commission trying the eight German saboteurs who landed from U-boats announced late today that the prosecution had completed its case at 2:36 p. m. and that the defense was expected to start introducing its evidence tomorrow morning. The life-or-death trial started July 8.

The late-day communique issued by Major General Frank R. McCoy, president of the commission, said that one hour and 54 minutes of the afternoon session was devoted "to arguments upon various motions made by the defense."

Louie Polin Arrested on Game-of-Chance Charge

Louie Polin, whose store advertises "a little bit of everything," was slated to go to justice court Monday afternoon because state police alleged they found a game of chance in the establishment.

It was the first arrest made here in a drive to enforce the governor's recent orders against operations of slot machines and similar apparatus, in accordance

with a request from military authorities. Polin's arrest came after a state officer allegedly saw a boy playing a nickel in the slot machine in Polin's place. The officer claimed he saw Polin pay the boy 20 cents across the counter after the youth had played the machine.

Polin posted bond and was to be arraigned before Justice Joe Mahoney Monday.

State Police Sergeant Tichenor warned that unless operators discontinue the prohibited games, plain clothes investigators will be put to work here to clean out the machines.

TORPEDO SINKINGS BOOST SUB TOTAL

not included in the tabulation pending further check.

A medium-sized United States merchantman went down off the northern coast of South America and a small American ship was torpedoed in the Atlantic several hundred miles off the east coast, survivors from both having been landed at east coast ports.

A medium-sized Swedish merchant ship was torpedoed 800 miles from the northern coast of South America. This ship and lifeboats were shelled but not one of the 42-man crew was lost.

Harold Dayse, of Baltimore, a negro messboy from the small American ship was given temporary sanctuary aboard the submarine which torpedoed his ship after he was carried away from a raft by heavy seas. After questioning by the sub commander, he was put aboard a raft and the U-boat disappeared. Thirty-five of the 39-man crew were missing.

The torpedoing of the medium sized American ship which took place June 29, killed four of the crewmen and left 27 others unaccounted for. Twenty-nine survivors were landed at an east coast port after four and a half days in lifeboats.

Navy reports said the ship went down in flames, the U-boat pouring 57 rounds of shellfire into her stern after the torpedoing had forced the crew to abandon ship.

Two sinkings were announced by the navy yesterday, the first ship having been shelled to the bottom in the south Atlantic June 22, the second having been torpedoed-sunk near a large West Indian island July 12. Both vessels were medium-sized. The entire crew of 35 aboard the first was rescued, but three of 39 crewmen and 11 navy gunners of the second were killed in the engine room during the attack.
