

LATE STEELS SELLING STOPS STOCK RISE

By VICTOR EUBANK NEW YORK, July 22 (AP)—Late selling in the steels today blocked a selective rise in stocks and left the market irregular at best.

Signal for the reversal was quick drop of more than a point in U. S. Steel just before the close. Bethlehem matched this dip and some other leaders, presumably to the plus division, gave up a considerable part of their gains.

Steel common's record came after Wall street heard unofficial estimates that the corporation's June quarter profit might be cut by taxes to a level leaving little balance for the stock.

Earlier the market had followed rails and rubbers to modestly higher levels. Stocks retaining small advances included Union Carbide, Eastman Kodak, Santa Fe, Southern Railway, Southern Pacific, Air Reduction and Sears Roebuck. Dupont closed off 2 and Allied Chemical gave up a point. Transactions were around 60,000 shares.

WHEAT

CHICAGO, July 22 (AP)—A firm undertone prevailed in the wheat pit today on buying attributed primarily to mills. Hedge selling was small and buyers were encouraged by the falling off in the movement of the winter wheat crop.

Corn prices also remained firm, although falling to rally with wheat late in the session. Traders said country offerings of corn are not pressing because the feeding value of corn is high and commercial use of the grain is much above the average.

planes can't be sunk by submarines. NELSON, war production head, receives the cargo-carrying plane idea without SURFACE enthusiasm. He cautions against optimism and says that considerations of strategy, time required to construct the planes and availability of labor, facilities and materials, which can not be obtained except at the expense of other parts of the war effort, must be studied.

KAISER and Higgins, one guesses, believe the day of the surface cargo carrier in war time is drawing to a close—that the submarine is mastering the merchant ship as the war-plane is mastering the battleship.

Oregon Will Have 70-Day Duck Season Beginning October 15

A. D. Goodwin of the U. S. fish and wildlife service said today that Oregon will have an extended 70-day hunting season beginning October 15 and ending December 23 under regulations issued by Secretary of the Interior Harold L. Ickes.

He said the daily bag limit will be 10 in the aggregate of all kinds. The possession limit will be 20 except on opening day when it will be the same as the bag limit or 10.

Ducks may be in possession for 30 days after the close of the season instead of 20 as last year.

Shooting, Goodwin said, will be from sun-up to sunset each day. Previously shooting was allowed only until 4 p. m.

Goodwin said the daily bag limit on geese is two and possession limit four. Geese may be kept in possession until 30 days after December 23, he said.

The wildlife officials said that the possession limit on doves has been slashed from 12 to 10 this year. Dove season opens September 1 and closes September 15, he disclosed. The pigeon season, he said, runs through the month of September with 10 as both the bag and possession limit.

The same means-of-hunting rules are in effect this year as last, Goodwin said. Hunters may not use live decoys, cattle, horses or mules and must not use a shotgun larger than a 10-gauge three-shell repeater.

However, bows and arrows may be used. All hunters over 15 years of age must have duck stamps, Goodwin warned. He said stamps are on sale at the postoffice.

SACRAMENTO, July 22 (UP)—State fish and game officials said today California would have an extended, 70-day duck hunting season this fall beginning Oct. 15 under regulations issued in Washington by Secretary of the Interior Harold L. Ickes.

The season will be 10 days longer than in 1941. Other restrictions on duck hunting were liberalized, but probably will not be effective because of more restrictive state legislation.

The federal regulations would allow legally killed birds to be possessed for 30 days after the close of the season, but state regulations allow possession for only 10 days.

State officials said that no ar-

rests were made last year for possession of ducks within the 20-day limit than set by the federal government, but that no decision had been made whether the federal rules would be followed this year.

The federal regulations also would permit the shooting of wood ducks in all states, but a state statute prohibits their shooting in California.

However, it was said that a liberalization of shooting hours—formerly sunrise to 4 p. m. and extended to sunrise to sunset—was in conformity with state law.

Salem Athletic Head Gets Navy Rating

SALEM, July 22 (AP)—Vern Gilmore, athletic director at Salem high school, said last night that he has been commissioned as a lieutenant (JG) in the navy, and will report to Chicago next Monday.

Gilmore, now studying for a master's degree at the University of Oregon summer school, said he would train at Chicago for two months and then will report to the 13th naval district headquarters at Seattle.

Defeat means the loss of everything for which this nation has struggled for more than a century and a half.
