

WAR IS TEST OF CALIBER, HULL ASSERTS

By WADE WERNER
WASHINGTON, July 24 (AP)—The United States is calling on all peoples who hope to keep their freedom, regain lost freedom or win new freedom to help defeat the axis now.

Secretary of State Hull sounded the call last night in an address shortwaved to all countries—friends, foes, defeated nations and those still listed as rigidly neutral. He stressed that the conflict now raging is "not a war of nations against nations" but a worldwide fight by those who love freedom against would-be conquerors who seek to enslave all mankind.

Characterizing professions of neutrality in such a conflict as "absurd and suicidal," he pictured the worldwide war as a test of the caliber of nations and individuals.

Then, in a sentence apparently aimed at the militarily helpless inhabitants of axis-occupied countries, he added:

"There is no surer way for men and nations to show themselves worthy of liberty than to fight for its preservation, in any way that is open to them, against those who would destroy it all."

In further emphasis of the theme that those who would be free must show themselves willing to fight against the despoilers of freedom, Hull asserted that in this vast conflict the whole-hearted support of Americans is dedicated to those who are:

1. Fighting for the preservation of their freedom.
2. Fighting to regain the freedom of which they have been brutally deprived, or
3. Fighting for the opportunity to achieve freedom.

Without specifically mentioning the acute tension in India over nationalist leaders' insistence on immediate independence, Hull said:

"We have always believed—and we believe today—that all peoples, without distinction of race, color, or religion, who are prepared and willing to accept the responsibilities of liberty, are entitled to its enjoyment."

The full measure of American influence, he added significantly, will be used to support attainment of freedom by "peoples who, by their acts, show themselves worthy of it and ready for it."

4-H COMPETITIONS TO BE CARRIED ON

CORVALLIS, July 24 (AP)—The Oregon State corn show has followed the state fair and most of the county fairs into wartime oblivion, Charles W. Smith, state chairman of the corn show committee announced Thursday.

Meanwhile H. C. Seymour, state 4-H club leader, has completed arrangements to carry on county and state competitions.

Community 4-H shows will be held throughout the state, with selection of county winners made by comparing top community exhibits. State winners in national contests will be determined in much the same way, except for fat stock.

Club members who have raised fat lambs, beef or hogs will take them to the Salem fairgrounds as usual where they will be judged and then sold at auction. This involves little if any extra travel as the stock must be marketed anyway, says Seymour. A similar arrangement is being made in Portland for those who ordinarily take fat stock to the Pacific International.

Chungking, China Is Having Weather Trouble, Too

CHUNGKING, July 24 (AP)—Prayers to the dragon king for rain were offered in the ancient fashion Thursday as a heat wave and drought continued to afflict Chungking after more than three weeks of temperatures almost daily rising above 100 Fahrenheit.

Processions of half-naked men, wearing wreaths and gar-

lands, paraded through the streets with poles from which propitiatory vegetables dangled as reminders to the god that crops are menaced.

Shopkeepers, equally anxious for rain but not so demonstrative, skeptically showered the paraders with the traditional buckets of water.

A little later the skies darkened and rain fell shortly after midnight. The paraders modestly accepted congratulations.

NUMBER 53 ★ How to cut down on waste by eliminating waste ★ A list of foods that are really low priced ★ An illustrated story worth reading

Haste in shopping makes waste in food and in time too

It has always been our family duty to waste as little food as possible—today it is our patriotic duty. And certainly the most effective way to do this is to plan menus and shopping lists together—a week at a time. For this gives you the opportunity to fit one day's leftovers into the next day's menu—to vary meals—to keep meals well-rounded nutritionally—to stick to the budget—and to plan definite times for shopping, thus cutting down on shopping trips. But streamlined shopping schedules take careful planning. And at all times the perishability of different meats and vegetables must be kept in mind.

For meats, you might select shoulder lamb chops, enough ham loaf for two nights, and Swiss steak. If stored in the refrigerator, most meats will keep about a week; cured meats like ham and bacon will keep longer; but ground meats, poultry, and fresh fish should be cooked the same day or day after.

For vegetables, you might choose corn, string beans, carrots, tomatoes, cucumbers, green onions, lettuce, and celery. That's not counting the potatoes and onions you'd have on hand already. As soon as you get home, wash the vegetables quickly, dry, and store them in a covered container in the refrigerator. Use green and leafy vegetables that day or the next. Carrots and corn will keep longer.

Now let's say, for example, that you are buying these meats and vegetables on Monday to last until Friday. Here are the dinner menus the Safeway Homemakers' Bureau suggests you might have planned before buying.
