Associated Press Sports Writer There are more ways than one to win a baseball game, but the formula employed with increasing success by the New York

Giants is to harness all the power available. The latest of Masterful Melvin Ott's experiments took big Babe Young off the bench, which he had warmed all season because Johnny Mize was doing a brisk business at the Babe's old first base stand, and spotted him in center field. Young came through yesterday with an eleventh inning

homer—his second game win-ning circuit clout in as many days—to give the Giants a 3-2 decision over the Cincinnati Reds.
