82 PER CENT OF KLAMATH TAXES PAID

Approximately 82 per cent of Klamath's real estate taxes for the first half of 1942 were paid by the delinquency date, Tax Collector Allen Sloan reported today. The figure was slightly under the 85 per cent of collec-tions made by the same time in 1941, he said.

Sloan announced that \$876,-232.42 of the county's tax roll of \$1.069,444.95 had been paid by June 15, the delinquency date. Discounts Allowed

First quarterly installment on 1942 taxes becomes due on Nov-ember 15 of this year, Sloan pointed out, with February 15, May 15 and August 15 the ensu-

ing delinquency dates for the balance of quarterly payments. He said that discounts will be allowed on partial or full pay-ment made on or before November 15, according to the follow ing schedule:
One per cent on one-half tax,

two per cent on three-fourths tax and three per cent on full

Personal Tax Delinquency Taxes not paid at least in part by November 15, 1943, shall become delinquent and an interest charged on these taxes at the rate of two-thirds of one per cent

per month or fraction of a month, Sloan pointed out. Personal property taxes, Sloan warned, become delinquent up-on failure to pay any install-ment on the due date.

FUEL OIL TO

BE RATIONED

ON EAST COAST

Confirming reports that the east would have less oil for heat-ing homes, War Production Chief Donald M. Nelson asserted yesterday that a rationing pro-gram would be announced soon, perhaps later this week, and might affect some midwestern

Ration Cut

At the same time, a committee formed by the petroleum indus-try war council to study oil trends suggested that because eastern gasoline consumption in the last two months exceeded expectation the four-gallon-unit value of ration coupons might have to be reduced.

Commenting on the situation at his press conference, President Roosevelt said the curtail-ment of fuel oil likely would be 25 per cent in some localities.

Tank Car Problem

Nelson observed that the question of which states to include the rationing area would have to be worked out with several other details. The reason for extending rationing to the mid-west, he added, would be to make additional tank cars available to supply the east.

Officials studying fuel oil problems, who declined to be quoted by name, indicated that a basic ration sufficient to heat homes to an average temperature of 68 degrees was being considered with supplemental supplies to be issued on the basis
