ians counter-attacked and drove the Germans out.

Red Bombers Active

Stalingrad itself was shrouded in smoke from fires, but its railroads were reported still operating on a 24-hour basis despite incessant aerial attacks.

Radio stations went off the air clear across central Europe during the night, indicating that Russian bombers were active again or that axis air defense authorities were becoming increasingly nervous about the two-way Anglo-soviet night bombing schedule.

Battle of Egypt

Air-raid alarms sounded in Budapest, capital of Hungary, and radio stations at Bratislava, Luxembourg, Bremen, Breslau, Calcutta and Calais closed down, and the Bucharest station in Roumania wound up its program earlier than usual.

In the battle of Egypt, aerial activity increased over the 35-mile El Alamein sector, 80 miles west of Alexandria, but the land front remained quiet.

Wrecking Crews Repair Damage in Leaf Collision

Southern Pacific wrecking crews today were picking up the remains of eight freight cars and a locomotive damaged in a rear end collision of two freights at Leaf, Calif., 48 miles south of here, Monday morning.

The accident occurred on a siding, rail officials said here, and derailed the eight cars and badly damaged a locomotive. One man, Conductor R. G. McMillan who was in the caboose, was slightly injured and treated at a local hospital.

The accident held up traffic for an hour.

FBI Arrests Jap Found With New York Maps

seven Germans and two Italians. The Japanese is being held at Ellis Island for internment after the maps and notebooks were found in his apartment. The others will be investigated by the U. S. attorney's office for possible prosecution, Foxworth said.

Foxworth said the Japanese' notebook listed vital statistics relating to the Dutch East Indies, New Zealand, Australia, Guam, The Philippines, the Panama Canal Zone, Puerto Rico, Alaska, Burma, Bermuda, Indo-China, Hawaiian Islands, Russian islands near the Aleutians and other military objectives.

The Japanese, whose name was not revealed, was a 42-year-old kitchen helper in a hospital. He came to the United States in 1916 and annually, until four years ago, reported to the Japanese consulate, where he enrolled for military service and swore allegiance to Japan.

Also in the apartment, FBI agents said they found radio-television textbooks.

None of 4 City Positions To Be Contested at Polls

Klamath Falls citizens will not find themselves faced with difficult decisions to make when they go to mark their choice of candidates for city offices at the November 3 election. None of the four positions open are contested and three of them are being sought only by incumbents.

Harold Franey filed petitions putting him on the ballot for the office of police judge just as the deadline rolled around Tuesday. John Keller, ward 2, Harvey Martin, ward 3, and Rollin Cantrell, ward 5, have filed also for the three councilman vacancies, assuring them of four year terms.

Two city measures will appear on the ballot, however, and will require thoughtful perusal. They are the amendment providing for a new city charter and the referendum making appointment and operation of the park board a city function. Members are appointed by the circuit judge for life terms as the law stands at present.

M'NUTT PREDICTS MANPOWER CONTROL

(Continued from Page One)

ment must intervene in the labor market," McNutt said, adding: "It is unlikely that we shall be able to avoid the controls (over manpower) which our allies have found necessary."

Critical Areas McNutt's assertion that sweeping government control over manpower would become necessary came after he reported that "serious" labor shortages existed in 35 of the nation's production centers. He cited the following as critical areas:

- Philadelphia—100,000 workers needed.
- Detroit—96,000 needed.
- Seattle area—78,000 needed.
- Portland-Tacoma area—55,000 to 75,000 needed.
- Baltimore—59,000 needed.
- Buffalo—45,000 needed.
- 18 Million Needed

McNutt complained of a "needless" migration of labor, of "labor piloting" that has been "unchecked," and of discrimination in many areas against employment of women and minority groups, especially women.

He reported that between now and the end of 1943, the war effort would require the placing of 18,000,000 workers in new jobs, and that 11,000,000 must be trained for semi-skilled work.

gagged sister and drove back to town where he stopped in front of a store, went in and bought a package of razor blades.

He drove north a mile and tossed the body in a creek. Frightened children found it there yesterday, floating face up.

From there he drove to the top of an incline overlooking the reservoir, took Helen from the car and raped her, then placed her under the car and drove the machine over her. He mutilated the body and threw it into eight feet of water.

Six Held for Failure to Carry Draft Cards

An urgent reminder to men to carry their selective service registration cards with them at all times was issued today by Police Chief Earl Heuvel. He said that six men are being held in jail at the present time for investigation by the FBI because they could not produce their cards.

Heuvel called attention to the notice on the cards which states that "the law requires you to have this card on your person at all times."

Sugar Ration Basis Each book is adequate for rationing at least two major groups of commodities for a minimum of six months.

A total of 150,000,000 copies of the book will be printed for distribution shortly before Christmas, OPA said. Each consumer will obtain a book on the basis of his previous registration for sugar rationing.

Work on the design of the three other books which OPA said would be necessary to complete the program is under way, with one expected to go to the printers before "No. 2" is off the press.

TWO DESTROYERS LOST OFF TOBRUK

LONDON, Sept. 16 (AP)—The loss of the destroyers Sikh and Zulu in recent operations off Tobruk was announced today by the British admiralty.

Most of the crew of the Zulu have been saved, the admiralty said, and it expressed the hope that many of the crew of the Sikh had been able to reach land safely.

If survivors reached land they probably were taken prisoners of war. The Rome and Berlin high commands announced the capture of 576 prisoners in Sunday night's raid on the Libyan base.

The Zulu and the Sikh were 1870-ton sisterships, both completed in 1938. They carried normal complements of 190 men each and were capable of better than 36 knots.

FOLSOM INMATES' ESCAPE TRY FAILS

FOLSOM PRISON, Calif., Sept. 16 (AP)—Three Folsom prison inmates failed in a dash for freedom today after sawing their way out of their cell, Warden Clyde I. Plummer reported.

Phillip Gardner, 35, Los Angeles burglar, got as far as the derrick in the prison quarry before he was seized by guards. The two others, Buster Ward, 28, committed from San Bernardino, and Raymond Vincent, 34, El Dorado county robber, were arrested in the lower yard.

Gardner, sprayed by a hall of buckshot by Guard Elmer Bell, was removed to the prison hospital. Warden Plummer said it would recover. Ward and Vincent also were hit by buckshot, but Plummer said they were not hurt and would be placed in solitary confinement.

Plummer said both Gardner, received at Folsom in August, 1941, on a five years to life sentence, and Vincent had participated in an abortive prison escape plot last February.

That Extra Something!

IT TAKES special skill to make a thing good. It takes skill to make Coca-Cola—the skill that comes from a lifetime of practice. There's a finished art that goes into its making.

In Coca-Cola there's a special blend of wholesome flavor-essences which merges all the ingredients of Coca-Cola into the taste that makes Coca-Cola so uniquely refreshing. No one can duplicate it.

Ice-cold Coca-Cola is more than just thirst-quenching—it is refreshing. The drink that goes into refreshing energy. The drink whose quality sets it apart in delicious goodness

Wartime limits the supply of Coca-Cola. Those times when you cannot get it, remember Coke, being first choice, sells out first. Ask for it each time. No matter how short the supply, the quality of Coca-Cola carries on.

Lunch is something special to look forward to when it includes ice-cold Coca-Cola as the beverage. It turns lunchtime into refreshment time.
