

# WLB URGED TO RAISE METAL MINERS' PAY

WASHINGTON, Sept. 16 (AP)—The majority of a mediation panel recommended today that the war labor board order a wage increase of \$1 a day for 10,000 copper, lead and zinc workers in Idaho and Utah to help stop the migration to higher wage industries and to attract replacements.

Dealing separately with 10 plants of the American Smelting and Refining company, involving an additional 4000 workers, east and west, the panel majority recommended raises ranging from 20 cents to \$1.24 a day in seven of them and suggested negotiations for the three others.

**Policy Set Forth**

A minority report said such an order would "create a new exception" to the "Little Steel" formula.

In the "Little Steel" case, WLB set forth a policy permitting wage increases to meet the rise in living costs since Jan. 1, 1941. The rise was estimated at about 15 per cent.

It was the first time the board has been confronted with a wage recommendation based on an inequality between different industries. The panel cited three types of inequalities which the board has recognized, those between jobs in the same plant, between comparable jobs in the same area, and between comparable jobs in the same industry, and then went on with a fourth.

**War Didn't Touch Him, But New York Took Its Toll**

NEW YORK, Sept. 16 (AP)—Patrick Murphy, 26-year-old bombardier with the royal air force, was beaten and robbed in the heart of New York City early today and remarked ruefully: "For two years I flew over Germany and occupied France where there was plenty of excitement, but I have to be walking down Fifth avenue to get my brains knocked out."

Murphy was attacked, he told police, by four negroes who robbed him of \$1.18 and his identification tag.

Two youths were arrested later and the pockets of one, police said, yielded the \$1.18 and identification tag. They were charged with assault and robbery.

## No Sugar, No Jars, No Wild Plum Canning Plan

No sugar, no jars, no wild plum canning project — no money for the Red Cross from that source.

This is the sequence in this year of 1942 which has forced Mrs. E. A. Geary to give up the idea of making preserves of the wild fruit, selling them and turning the proceeds over to the Red Cross as in years past.

Mrs. Geary said that with the cooperation of local Red Cross authorities, she had investigated all the factors involved and found them prohibitive of any effort along that line this year. She is determined, however, to renew the project whenever circumstances are favorable, she stated.

Residents of the city will remember the national publicity the wild plum preserves put up by Mrs. Geary and Mrs. Twyla Ferguson received in 1940. With the cooperation of other women in the community they canned 1200 pints, from the sale of which they turned over more than \$700 to the Red Cross. A story of their enterprise appeared on the front page of the Christian Science Monitor and it received widespread publicity in magazines and newspapers.

Jars of the luscious, tangy fruit from the Klamath country were ordered from far and wide, with Mrs. Herbert Hoover, Lowell Thomas and many other prominent national figures on the mailing list.

**Family Affair**

RICHMOND, Ind., (AP)—The board of the Richmond Fireproof Door company held its first meeting here since the plant was established in 1920, but the directors were well acquainted anyhow.

They are James F. Peele of Richmond and his four brothers—H. E. Peele, J. W. Peele, M. C. Peele and R. S. Peele, all of New York.

Motorists should enjoy learning a Michigan motorman was fined for reckless driving.

## Jap Picture of Wake Island Prisoners

This picture, reproduced from "Freedom," English-language propaganda magazine published by the Japs in Shanghai, is described by its caption as showing part of 1300 prisoners captured at Wake island on their way to Zentsuji prisoners' camp. Black uniformed U. S. naval officer is identified as Comm. Winfield Scott Cunningham, "ex-garrison chief at Wake." This picture was made available by U. S. evacuees who returned to this country aboard the diplomatic exchange ship Gripsholm. Captions with other pictures in the magazine painted a rosy picture of prison conditions in contrast to the suffering described by the returning U. S. citizens.

## No Time to Conduct Campaign, Says Coos Candidate

SALEM, Sept. 16 (AP)—Louis O. Fiesheim, Bandon newspaper publisher and republican candidate for state representative from Coos county, withdrew his candidacy today, asserting he would not have time to campaign.

Fiesheim said he must devote his full time to his weekly newspaper, because he has lost several of his employees.

The state department also announced that the Tillamook county republican central committee has nominated Anna M. Ellis, Garibaldi, as candidate for state representative from Tillamook county. She will replace the late Oscar Effenberger, Tillamook.

**Migrant Worker Plan to Be Aired**

SALEM, Sept. 16 (AP)—Oregon farmers and farm laborers were asked by the U. S. employment service today to listen tomorrow to station KEX, Portland, for details of a new program for hiring, transporting and housing migrant workers for seasonal farm harvests.

The program, on the Farm and Home hour on the BLU network, will be released at 6:15 a. m.

## BURNING PERMITS STILL REQUIRED

Permits for burning debris are required between April 15 and December 1 on lands under fire protection agreement of the Modoc National forest, according to Supervisor J. E. Elliott.

Section 4153 of the Public Resources Code of the State of California reads as follows:

"No person shall burn brush, stumps, logs, fallen timber, fallows, slash, or grass, brush or forest covered land, or any other inflammable material, or blast with dynamite, powder, or other explosives on forest or grass covered land, either on his own land or the property of another, between April 15 and December 1 of any year, unless such burning is done under a written permit from the state forester or his duly authorized agent, and in strict accordance with the terms of this permit."

Supervisor Elliott states that these preventive measures are necessary to eliminate avoidable losses to property and to be informed of proposed debris burning projects in order to eliminate false runs on legitimate smokes visible to the various lookouts on the forest. He asked the cooperation of all ranchers in this area.

## Former Seamen Urged to Enlist

SALEM, Sept. 16 (AP)—The state employment service today appealed to the thousands of former seamen now living in Oregon to go back to sea to help man merchant ships.

"It is the patriotic duty of these men to make themselves available to the war shipping administration for assignment as they are needed by registering now at their nearest U. S. employment office. Every man who has had experience at sea as a sailor, cook, radio operator, engineer or officer will be needed if supplies are to reach our forces overseas," L. C. Stoll, director of the employment service, said.

U. S. Army tanks in Alaska prove it will take more than snow-capped mountains to stop them. They are ready for the day the Japs may try to flank Dutch Harbor.

## Maj.-Gen. White Lauded At Camp White Dedication

MEDFORD, Sept. 16 (AP)—Maj. Gen. George A. White, commander of the 41st division until his death this year, was lauded yesterday as Camp White, named in his honor, was dedicated near here.

Maj. Gen. Kenyon A. Joyce of the ninth service command disclosed the recent award by the government of a distinguished service medal to the late major general.

The citation said, "with the outbreak of war in Europe in September, 1939, he foresaw the eventual involvement of the United States, and took vigorous and immediate steps to prepare his division for induction into the federal service... Only when these difficult tasks were completed did he allow his fellow officers to persuade him to undergo medical treatment." Joyce added, "If this nation had heeded the warnings of Major General White we would not have been so unprepared to meet our enemies when war came last December."

Governor Sprague and Palmer Hoyt, publisher of the Oregonian, also spoke, and a Myrtlewood plaque was unveiled by the major general's widow.
