## MALIN G OF C PLANS GIFTS FOR SOLDIERS

MALIN — The boys of the Malin community who are in foreign service will be remembered at Christmas time and at atter dates if plans of the chamber of commerce now in the formative stage, carry to completion. The annual banquet, that for years has brought together residents of the entire Klamath basin for one of the most widely attended public functions in the basin, will be shelved this year and funds usually spent on that will be used to send some small gift, probably cigarettes and candy, to the boys scattered on the global fighting fronts, it is thought.

The chamber members following a meeting Monday night hated that boys who are still on home soil are pretty well taken care of by the USO and other organizations, so all efforts will be concentrated on those who have gone abroad. Definite action on the plan is to be taken at the next meeting and it is hoped that the list of service men will be complete by that time.

The chamber will seek new approximately 700 eligible electors and the Modoc precinct has 268.

Checks on the books previous to the primary election revealed that a number of voters have allowed registrations to lapse and it is believed that a large number of residents of the community are not cognizant of the fact that under California law, registrations are cancelled following a general election where no vote has been cast. Consequently voters to again be eligible electors and the Modoc precinct has 268.
