## UNCERTAINTY OF PRICE BILL SLOWS MARKET

By VICTOR EUBANK  
NEW YORK, Sept. 28 (AP)—The progressive movement was restricted to selected stocks in today's market as many leaders failed to work up much rising enthusiasm.

Low-priced issues came out in fair-sized volume, the majority unchanged to a trifle lower, but actively elsewhere was limited. Transfers approximated 400,000 shares.

Possible defeat of the farm bloc in its parity campaign caused a slip-up in major commodities although hogs soared to new 22-year tops. Bonds were uneven.

In the share section Santa Fe hit its best level in five years but eventually receded. Ahead at intervals were Canadian Pacific, U. S. Steel, Bethlehem, Dow Chemical, Allied Chemical, Douglas Aircraft, Du Pont, Yellow Truck and General Electric. Dome Mines and Homestake Mining dropped 1 to more than 2 points. Backward at times were N. Y. Central, Southern Pacific, Chrysler, General Motors, Kennecott, American Telephone, Sears Roebuck, Consolidated Edison, Public Service of N. J. and Standard Oil (NJ).

### WHEAT

CHICAGO, Sept. 28 (AP)—Selling inspired by Washington reports about the status of price control legislation lowered wheat prices more than a cent a bushel and rye 2 cents today. Other grains also declined.

Brokers attributed most of the selling to a report that government loan rates on wheat and corn might not be raised from present levels under pending legislation. Indications that no change is to be made in computing farm parity for the purpose of price control also influenced selling. They said recent buying had been based partly on belief that loan rates and parity calculations might be changed.

Wheat closed 11-11 cents lower than Saturday, December \$1.27 1/2, May \$1.30 1/2; corn 1-1/4 down, December 85 1/2, May 89 1/2; oats 1/2 off; soybeans 1-1/2 lower; rye 1/2 lower.

### BOSTON WOOL

BOSTON, Sept. 28 (AP) (U. S. Dept. Agri.)—Sales of fine and half-blood wools were made today at prices of 75c for 64's and 75c for 60's. These were described as good to average noble comb wools. Contracts on 5,122,000 yards of woolen cloth were announced by the quartermaster corps and bids were asked on 19,000,000 pairs of socks made of domestic wools.

### Recruited Shipyard Workers Expected

PORTLAND, Sept. 28 (AP)—Kaiser shipyard officials said today the first special train carrying shipyard workers recruited in New York will arrive at their Vancouver, Wash., yard Wednesday.

The first contingent of about 500 men will be housed in a company dormitory, the company said.

Another special train is expected to arrive Thursday.

## HITLER'S EYE VIEW OF BOMB-BLASTED GERMANY

From high above Berlin this might be Hitler's view of bomb-torn western Germany as the RAF winds up a successful summer of multi-plane raids with promise of even greater air assaults to come this fall and winter. The 1000-plane raid on Cologne May 30 touched off a series of day and night attacks that have blasted industries, railroads and air and U-boat bases in the two dozen German cities shown on the map. Joined in July by American airmen, the British stepped up their round-the-clock raids on the Nazi-occupied coasts.

## PRICE URGES EXPLANATION OF CENSORSHIP

HOT SPRINGS, Ark., Sept. 28 (AP)—Complimenting American newspapers for "striking a balance" in handling war news with limitations of the censorship code, Byron Price, director of censorship, urged them today to explain to the public why some information has to be withheld.

"The American people cannot be expected to fight the war in a vacuum," he said in an address prepared for delivery at the annual convention of the Southern Newspaper Publishers association here.

Public Reaction  
"Neither should they, nor will they when properly advised, want to see in print any disclosure which would endanger the life of a son or brother."

Summarizing nine months experience with voluntary censorship, Price said some Americans felt the system was a "feeble and futile method" while a large body of public opinion held that more information, not less, should appear in print.

Benefits Derived  
"The newspapers of the country have done a good job of striking a balance," he said but added they "have done a poor job of informing the people that some information has to be withheld."

Censorship withheld from publication for more than a month news of the sinking of the Aircraft Carrier Lexington in the south Pacific last May 8, he recalled.

"Surely there is sense in the belief of naval experts that Japanese ignorance of the loss led Japan's admirals to overestimate the American force from which they turned tail and ran at Midway," he added.

On the other hand, he told of a case in which the details of movement of a special train of oil cars was publicized for advertising purposes although the code asked that such information be withheld.

"A few days later a similar train bound for the same destination was wrecked and burned," Price related. "No direct evidence of sabotage was discoverable. Maybe it was a mere coincidence. Maybe not."

Giving a code catechism, Price supplied these answers:  
Disclosure of the exact regiment in which a soldier is serving abroad is withheld because if the enemy is supplied with such information "he will know the total strength and can calculate in detail what arms and

equipment they are likely to have with them, and what special training they have had."

Premature disclosure of diplomatic discussions is withheld because "a major defeat on the diplomatic front may be as disastrous as a major defeat on the military front."

Nothing should be said about training special units because "perhaps the enemy has learned some of our methods, but who knows how many?"

A dog should be treated as one of the family, says a fancier. Isn't that a bit harsh in some cases?

## Here's What Makes Mongrel Jap Zero Tick

Examination of wrecked planes shows there is not much mystery about the "mysterious" Jap Zero. Japanese, always swift to imitate, did a resourceful job of using foreign developments in this ship. Sketch shows some of parts which are exact duplicates or good copies of American and British planes. Zero's performance: Speed, 350-400 miles an hour; ceiling, 35,000 feet; range, about 1500 miles.

## Election Board Volunteers Asked To Sign Cards

The county clerk's office has received a number of cards from persons who state they will work on election boards November 3, but without the senders' signatures appearing on the cards.

These unsigned cards, along with some signed ones, came in after Clerk Mae K. Short said last week that she needed more help for election boards.

It was pointed out that unless cards are signed and addresses given, the clerk cannot assign the volunteers to election duties. All persons willing to work on the boards were asked to notify the clerk, giving their names and addresses along with the notification.

Volunteers are needed for boards in all parts of the county.

## This Was Fated To Happen Sooner or Later

CAMP WHITE, Ore., Sept. 28 (AP)—Corporal James Stone, stationed here, was advised today that his wife, Margaret, will be commissioned a lieutenant, 3rd grade, WAAC, at Doer Moines soon.

"We were reasonably happy until this came along," Corp. Stone said, "but now I'm stumped. Do I address my wife as 'Sir' and salute when she tells me to do the dishes?"

"There is something awfully wrong about this business. Imagine a situation where I have to stand at attention, salute and say, 'Oh, Lieutenant, Dear, may I have a nickel for a cigar!'"
