

# NO SHORTAGE OF COAL, SAY MINE WORKERS

WASHINGTON, Sept. 29 (AP)—John L. Lewis said today that members of the United Mine Workers of America would accept a longer work week only if it was proven conclusively that it was "absolutely necessary and essential" to the war effort.

The president of the big coal miners' union made the statement at a conference of labor and mine representatives called by Fuels Coordinator Ickes to consider ways to increase coal production next year.

**Western Need**  
Lewis added that he thought the meeting called by Ickes was without authority to act on a proposal for increased hours and added "there is no material on this table" to indicate the necessity for increasing the work week beyond the present 35 hours.

Eugene McAuliffe, president of the Union Pacific Coal company of Omaha, Neb., told the conference the west faced a severe coal shortage. He proposed a 48-hour work week.

**No Shortage**  
Before the conference met to hear Ickes say that lengthening of the work week was "imperative," the UMW had declared "there is no present shortage of coal and none in prospect."

The declaration appeared in the UMW official journal shortly before the opening of a meeting of representatives of coal producers and labor to "give immediate attention" to Ickes' proposal for "increasing the hours of labor in the mines beyond the present 35-hour week limitation." Ickes is the solid fuels coordinator.

**"Adding Machine Boys"**  
The coordinator estimated that 560,000,000 tons of bituminous coal and 58,000,000 tons of anthracite would be needed during 1942 and 600,000,000 tons of bituminous coal and 60,000,000 tons of anthracite during 1943.

The miners' publication recorded that the figures were those of the "adding machine boys." Besides, it said, the additional bituminous needs could be produced by mines now working only three or four days weekly no extension of the work week would need to be "imposed on the industry as a whole."

## World Series Broadcast Set

NEW YORK, Sept. 29 (Wide World)—The MBS network has everything all set to begin its fourth year of exclusive broadcasting of the world series tomorrow afternoon. Time on the air is 11:15 a. m. PWT, 15 minutes before the game, from St. Louis.

The announcing crew will be headed by Red Barber, augmented by Mel Allen, who is replacing Bob Elson now in the navy, and Bill Corum. The network, augmenting its regular roster, expects to have 300 stations in this country and Canada for the broadcasts, while the short waves will carry the details for soldiers overseas both simultaneously and by delayed retransmissions from transcriptions.

Her helpers complete their readying of the weld, then freeze to attention like well-trained bird dogs pointing a quail.

She drops to one knee, on which she wears a leather pad. Her welding outfit goes into action. The arc spits blue-green light. Her hands, one gripping her welding tool and the other the bonding wire, are as steady and as efficient as if she were crimping the edge of an apple pie instead of doing her part in the building of a ship to put a crimp in the Japs and the Germans.

The job done, she rises, without a motion lost anywhere, and stands again at ease while her helpers ready another weld.

# DECLARATION OF DIVIDEND UPS SANTA FE

By VICTOR EUBANK  
NEW YORK, Sept. 29 (AP)—Santa Fe was the star stock market performer today, jumping around three points to another five-year peak as directors pulled a real surprise on Wall Street with a \$2.50 dividend declaration for this transportation leader.

The best most prognosticators had looked for in the way of a Santa Fe disbursement was \$1.80 on the common.

Hesitancy in most groups was apparent at the opening and, in the final hour, the direction generally remained moderately foggy. Transfers were in the neighborhood of 400,000 shares. Today's Santa Fe vote put dividends for the calendar year at \$6 per share. Officials said that the board's action must in no way be assumed as establishing a precedent and that future declaration would depend on earnings, cash and immediate and prospective requirements of the company.

Given an occasional lift were Pittsburgh Coal common and preferred, Pennsylvania Coal, Distillers Corporation, American Smelting, Du Pont and North American. Backward most of the time were U. S. Steel, Bethlehem, Chrysler, Public Service of N. J., United Aircraft, Kennecott, Texas Co., and Woolworth. Speculative railway bonds tilted forward in the loans section.

## OREGON HOGS HIT \$16 ON SF MARKET

SAN FRANCISCO, Sept. 29 (AP)—The livestock market made good prophets today of those observers who said in midsummer that hogs would sell for \$16 a hundred pounds on the hoof before the end of September. Oregon hogs hit \$16 today and in so doing set a new high record for the last 18 years. Prices went up about 20 cents per cwt. from yesterday's levels. Cattle and sheep prices held even.

## WHEAT

CHICAGO, Sept. 29 (AP)—Grain prices drifted within a narrow range today, traders exhibiting caution in view of the possibility that the senate would vote on the anti-inflation bill some time during the day. No vote was taken while the market was in session, however.

The senate vote was expected to reveal the strength of the farm bloc in its efforts to force a revision in the method of calculating parity. Most of the Washington news indicated the farm bloc would not be successful, and there was little inclination to buy in view of that prospect. Rye provided some interest at one time, staging a technical rally following yesterday's break as shorts covered, but the advance ran into selling and prices backed down to around the preceding session's close.

Wheat closed 1c lower to 1c higher, December \$1.27-1, May \$1.30-1; rye was unchanged to 1c higher and soybeans advanced 1-1 cent.

Census figures show there are 563,321 occupants of mental institutions in the United States.

Kota Bliss Triumphs, U. S. No. 1, \$2.10-55; Cobblers, U. S. No. 1, \$2.05-15; Wisconsin Bliss Triumphs, U. S. No. 1, \$2.15-30.
