HIGH SCHOOL

News Notes and Comment

Principal Rolla Goold was back at school yesterday in his ensigns uniform and left this morning for Tacoma, Wash., for a visit with his parents, Mr. and Mrs. H. R. Goold. H. R. Goold is superintendent of schools in the northern city. Rolla Goold expects to be back for another day at least before he goes into the navy. Good luck follows Goold from the school to his new duty.

Every day more boys are being called to work in the potato fields. Mr. Rowe is the between-man for the employer and future employees. As yet there doesn't seem a whole lot of boys missing from roll call but as the demand for labor is great and the pay is good it won't be long before the school is diminished in population.

Might it be said that we have not seen such a hard working student body president for a number of years as George Proctor, Lester Bishop, vice-president, is also doing his share. The boys are continually on the go working in the student body office or at some other number of tasks they have set up. If the students work as hard at cooperating as the boys do at working we'll have one swell school.

As was predicted, most of the girls have let their hair down, literally. The frost was too much for them.

As yet no word has been received as to who will fill the vacancy left by Stanley Woodruff. As schedules will have to be turned and tossed, it will be another day or so before the appointment will be made known.

The game between the Pelicans and Eureka is coming off this afternoon instead of Friday night because as Eureka is on the coast no games can be played in the evenings after dark. The schedule was sort of mixed up in many people's minds but maybe this will help straighten things up a bit.

Bring all the scrap you can scrape together.

STOCKS PRESS FORWARD PUSH ON SATURDAY

By VICTOR EUBANK
NEW YORK, Oct. 3 (AP)—Stocks continued the forward swing in today's market on accelerated volume although weekend profit cashing restricted the majority of advances to fractions.

Steels and rails were the liveliest at the opening and throughout the remainder of the session, coming out in sizeable blocks. While scattered losers were in evidence at the close, modest plus marks predominated. The approximate turnover of 500,000 shares was one of the largest Saturdays for the year to date.

The Associated Press average of 60 stocks emerged from a substantial recovery week within touching distance of a new top for 1942 thus far.

Stocks attaining peak prices for 1 to 5 years included Santa Fe, Union Pacific, N. Y., Central, Southern Pacific, and General Motors.

Well in front at one time or another—some backed away at the last—were U. S. Steel, Bethlehem, Chrysler, Montgomery Ward, Douglas Aircraft, United Aircraft Sperry, Western Union, and International Harvester.

Among occasional stumblers were American Telephone, U. S. Rubber, Sears Roebuck and Union Carbide.

Commodities were mixed. Closing quotations:

LAUNDRY REVEALS NEW PICKUP PLAN

In a patriotic effort to conserve tires and to give the people of Klamath Falls service as long as possible, the New City Laundry today announced its new 7-day plan.

This plan means that the drivers for the company will make but one call a week over a given area of the city. At this time they will deliver the fresh laundry and pick up the soiled clothes.

This plan is in line with efforts of laundries all over the country to maintain pick-up and delivery service as long as possible, according to Frank Martin and M. E. Smith of the local plant, although laundries in some cities have already been forced to eliminate pick-up and delivery service all together. This has recently occurred in Medford.

"We realize," said Smith, "that tires are just not available, and we feel that this once-a-week service will enable us to give service for a longer period of time."

The new 7-day plan goes into effect October 5, according to Smith, plant manager for the local firm. He recently came to Klamath Falls from Hollywood, where for the past 17 years he has managed the Moderncraft laundry.
