Auto Registration Cards Necessary For Gas Ration Book

Motorists who have misplaced or lost their automobile registration cards were warned today by Richard G. Montgomery, state OPA director, that these cards will be necessary to obtain

gasoline rationing certificates when national gas rationing starts next month.

Each motorist applying for a gasoline rationing certificate—and only one certificate will be issued for any automobile—must produce his registration card before the certificate will be issued. Duplicate auto registration

cards to replace those lost or misplaced, may be obtained, Montgomery said, from the motor vehicle division of the secretary of state's office in Salem or Portland.
