

Yank Fighter Pilots End First Month in Aleutians With Record of 22 to One

By WILLIAM L. WORDEN HEADQUARTERS ALASKA (Delayed)—(AP)—American fighter planes in the air before Sept. 1er pilots who never saw Japanese have finished their first month of combat against the Ninonones invaders with the remarkable average of 22 enemy planes downed for every American lost. This figure was revealed today by Col. Phineas K. Morrill, commanding all fighter units in the Aleutian war. Details of the 30 days of combat strengthen the theory that United States and Canadian pilots when given any kind of a break are more than a match for the Japanese. Two pilots, First Lieut. Pat M. Deberry, route 2, Austin, Tex., and Capt. Arthur T. Rice of Farmington, Utah, lead the list of successful airmen. They engaged in such out of the ordinary activities as chasing a company of Japs down a Kiska hillside to get in a burst of machine gun fire and forcing enemy airmen to jump from burning planes at a 50 foot altitude. The two, not long out of flying school, ended the month with two Jap planes credited to each. Deberry got his when, with most of his guns overheated and jammed and with five shells left in his one remaining weapon, he blasted two Japanese float ships in a dogfight. He then flew home with his guns empty. Rice took part in a Sept. 28 raid in which he strafed ships and ground troops so thoroughly

GOLD MINING BAN ORDER EXPECTED

WASHINGTON, Oct. 8 (AP)—Discontinuance of gold mining was expected to be ordered by the war production board to divert the miners and some equipment to the non-ferrous mines producing more urgently needed metals for the war effort. A WPB spokesman, declining to be quoted by name, said the board had decided to take action soon terminating gold production, probably in a month or two. Skeleton crews will be permitted to stand by, he added, to prevent flooding or other damage to the mines. Senator Johnson (D-Colo.) said he and other western senators had opposed the move but was told that while the decision was made "reluctantly," action was necessary to relieve a critical labor situation in the non-ferrous metal mines. In Colorado, Governor Ralph L. Carr declared "Our people will do anything to support and equip our men in all theatres of war" but urged government repayment in part for "the losses they will experience and for the suffering they will endure" through closing of the mines.

Recipes Given for Cooking Of Green Tomatoes, Rich, Plentiful Vitamin Source

"Green tomatoes deserve our attention now, not only because they are plentiful, but because they are a rich source of the vitamin alphabet," says Winnifred K. Gillen, home demonstration agent. They may be prepared for serving to the family now in the form of fried tomatoes, stewed green tomatoes, or green tomato pie; or they may be made in mince-meat,

GOERING SAID FAT BUT NOT A FATHEAD

SPOKANE, Wash., Oct. 8 (AP)—Delegates to the International Woodworkers convention here were still chuckling today about the "wisecracks" Lieut. Col. Charles Kerwood aimed at "fat and foxy" Hermann Wilhelm Goering, chief of the Nazi Luftwaffe, yesterday. "He's fat but he's no fathead," Col. Kerwood, personal representative of Undersecretary of War Robert P. Patterson, told the IWA in exhorting them to keep production at its maximum. "Herr Goering is fat and foxy," he told the laughing delegates seriously, "he knows the value of wood. He besides his Luftwaffe connection is a rich forester in charge of all German forestry operations and he does a good job. "He's on both ends of the woodpile, getting the logs out and flying the planes and gliders when they're finished. "After the war we have a nice forestry operation all picked out for Herr Goering—on the end of a cross-cut saw, like the former kaiser did. Hitler and Tojo can spell each other on the other end." After a pause, Kerwood "brought down the house" with the dry after-thought, "Mussolini can carry water." The American people cannot be expected to fight the war in a vacuum, nor will they want to see in print any disclosure which would endanger the life of a son or brother.—Censorship Director Byron Price.

FDR Signs Measure To Safeguard Rights Of Service Men

WASHINGTON, Oct. 8 (AP)—Legislation to safeguard the civil rights of service men while they are fighting was signed Wednesday by President Roosevelt. Known as the soldiers' and sailors' civil relief act, the legislation provides in average cases for stays of court proceedings, foreclosures and evictions and for protection of private life insurance policies. The insurance provision guarantees payment of premiums on private insurance up to a face value of \$10,000, regardless of the cash value of the policies, with the insured to liquidate the unpaid premiums after his return to civilian life. Dealer shortages put new value on used merchandise. Cash in on your "junk" through a classified ad. Phone 3124.

LABOR WAGE BODY GETS NEW POWERS

SPOKANE, Wash., Oct. 8 (AP)—The wage hour division of the department of labor has been given the power to "blacklist" government contract - holding firms which refuse to abide by regulations for wages, hours and working conditions of their employees, Wesley Ash of the labor department said here today. Ash made the only address of the morning to the sixth annual convention of the International Woodworkers of America (CIO), before the session was closed for executive discussions of a finance resolution. The resolution for a special assessment to pay off old debts of the international was called from committee by floor motion as Ash finished speaking.

ALASKAN POOH-BAH KETCHIKAN, Alaska, (AP)—U. S. Commissioner Arthur Bogue asked himself for a marriage license. Commissioner Bogue declined to issue one to applicant Bogue without an affidavit from another official. Assistant Attorney Robert Jernst vouched for the truth of the application. The license was issued to Bogue, and Miss Magnhild Oygard, public health nurse. The government had no trouble getting New York buildings to okay the plan of sacrificing their air conditioning systems to the war effort. Just a breeze.

GRAND TASTING ALBERS OATS IS AS NOURISHING AS ALL GET-OUT!

Enjoy the new, improved flavor of Albers Oats—either Quick or Old Fashioned. Cooks up flaky, full-bodied—never mushy. Thrifty, too. This type of food is among those recommended in the Nutrition Food Rules to make America strong.
