## STOCK LEADERS BACK WATER IN LULL IN SALES

By VICTOR EUBANK  
NEW YORK, Oct. 15 (AP)—Leading stocks continued to back water in today's market but it was a case of suspended buying rather than pressure of real liquidation. Transfers were around 600,000 shares.

The best news of the session was the Southern Pacific \$1 dividend, first since 1932, although this issue, as well as other carriers, failed to do much in the way of rallying. S. P. edged up 1/4 to 17 1/2, a new year's top, after announcement of the declaration of the road's bulging income, was conservative and had been pretty well discounted.

Losses of 2 to more than 3 points were registered by American Telephone and Du Pont. Lesser declines were attached to U. S. Steel, Santa Fe, Chrysler, General Motors, Western Union, U. S. Rubber, Sears Roebuck, Douglas Aircraft, United Aircraft, Dow Chemical, Allied Chemical, Anaconda, Standard Oil (N.J.) and J. I. Case.

Among curb stumblers were Aluminum of America, Humble Oil, Gulf Oil, N. J. Zinc and Pittsburgh Plate Glass. Occasional resistance was shown by Glen Alden Coal, Niagara Hudson Power, Venezuelan Petroleum and Lake Shore.

## WESTERN LUMBER OUTPUT IN BOOST

SEATTLE, Oct. 15 (AP)—The West Coast Lumbermen's association said today that a three per cent increase in lumber production for the first nine months of 1942 over the same period last year marked "a record of triumph against the hardest conditions" for western mills.

Hardships included the shortages of tires, equipment and manpower, the association said. Its monthly statement showed that the weekly average of West Coast production during September 12,166,982,000 board feet or 88.1 per cent of capacity.

The weekly average for the preceding month was 174,173,000. The western mills produced 6,574,254,000 board feet in the same period in 1941.

## GRAIN SLUMPS TO NEW SEASON LOWS

CHICAGO, Oct. 15 (AP)—In a downturn that gained momentum as the season progressed, grain prices slipped to seasonal lows in some cases today.

In the corn and rye pits prices were off about a cent. Soybeans fell as much as 3 cents on one stalk. Wheat and oats were off almost a cent. Corn, oats and bean prices were at or near the lowest figures of the season; wheat and rye the lowest for more than a month.

Selling was blamed on continued trade uncertainty about the ceilings to be placed on cereals, lagging flour business and Iowa reports that the late September freeze damage to corn was not serious.

Wheat closed 1-1/2c lower than yesterday, December \$1.23 1/4, May \$1.26 1/4; corn 1-1/2c down, December 80 1/2c, May 85 1/2c; oats 1-1/2c down; rye 1-1/2c off; soybeans 2 1/4c lower.

## Modoc National Forest Fire Rulings Lifted

J. E. Elliott, supervisor of the Modoc national forest announced today that the fire restrictions issued in closure notice of June 24, under department of agriculture regulation T-1, have been lifted. There has been considerable rain throughout the Modoc forest area during the past few days and the fire hazard which necessitated the original restrictions has thereby been eliminated.

Cooperation of the public is solicited in continued fire prevention measures, as there may be short periods of fire weather at various times during the balance of the calendar year. Timber operators, stockmen, and forest users in general have shown excellent cooperation this year in preventing forest fires.

There is a general instinct that something is brewing on the side of the western powers. More signs of the spirit of great action are evident.—J. L. Garvin, London Journalist.

There never was a better time than right now for folks to look their standing by just sitting around.
