

# PROFIT TAKING CHECKS EARLY MARKET RISE

By VICTOR EUBANK  
NEW YORK, Oct. 21 (AP)—Stocks settled into an irregular range today after profit selling checked an early advance to the best average levels in nearly a year.

The uneven retreat was speeded by a reaction in steels and motors, leaders of yesterday's rise. A few industrial specialties clung to modest gains but final hour prices for many of the key issues were fractionally under previous closings.

First hour dealings were fairly active and thereafter the market had frequent slowdowns. Transactions for the five-hour period were around 650,000 shares.

There was nothing in the news to identify with the market's mild reversal and it was taken by analysts as a sign that followers of the buying side were more eager to cash in small profits after six months of fairly steady upturn.

Douglas Aircraft pushed up a point on the announcement of a \$5 dividend. The company made a similar payment a year ago.

In front most of the time were Air Reduction, Union Carbide, Crucible Steel, Dow Chemical, United Aircraft and Sears Roebuck. In arrears near the finish were U. S. Steel, Bethlehem, General Motors, Chrysler, Westinghouse, General Electric, Allied Chemical, Santa Fe, Great Northern and Southern Railway.

The bond market's reorganization rails rebounded from yesterday's slump levels. Commodities were steady.

## WHEAT

By FRANKLIN MULLIN  
CHICAGO, Oct. 21 (AP)—Corn prices sagged about 1 cent a bushel at times today to lows for the year reflecting marketing of grain stimulated by expanding harvest operations.

Weakness of corn checked the advance in other grains. Brokers reported there is much new corn of high moisture content coming into market and industries have not yet increased demand for the new grain. Scarcity of storage space is believed responsible for the selling since prospective government loan rates and livestock prices encourage producers who can hold their grain on farms, traders said.

Corn closed unchanged to 1/4 cents lower compared with yesterday, December 79 1/2-80, 84 1/2-85; wheat 1-1/2 higher, December \$1.24 1/2-1, May \$1.27 1/2; oats 1/2 up; rye 1/2-3/4 higher and soybeans unchanged to 1/2 higher.

## Sports Briefs

By Hugh Fullerton, Jr.

NEW YORK, Oct. 21 (AP)—The way Ned Irish looks at it, the entries for this year's fall basketball tournament at Madison Square garden—three service teams and one aircraft corporation — may represent a "trend." . . . And it's a good bet that he's right. Most of the coaches partaking of Ned's free groceries yesterday were wondering if they'll have teams left by the time the season rolls around . . . Artie Muzant, who turns out big-time teams at Brooklyn college, remarked that he's letting his varsity five take care of itself and devoting most of his time to the Jayvees so he'll have replacements ready when the boys start marching off to war . . .

Which brings to mind that one of the marines now fighting on Guadalcanal island is Wes Bennett, the former Westminster college sharpshooter. And you couldn't ask for a better guy to toss bombs into fox holes.

Latest rating of eastern football teams by the Lambert Trophy committee puts Boston college on top, Penn second and Army and Fordham tied for third . . . Before Pepper Martin could go home after the Pacific Coast league season he had to sell a horse he bought last spring. It wasn't the nag but Mrs. Martin who balked at hauling it all the way from Sacramento to Oklahoma . . .

Proceeds of this year's Army-Notre Dame football rally will be divided between the Notre Dame scholarship fund and the Army emergency relief — apparently on the theory that the dough should go to help the boys no matter where they are . . .

Hialeah's new idea for transporting race fans seems appropriate for these times—using wood burners to take 'em out to see the hay burners.

TODAY'S GUEST STAR  
Ken Alyta, Waterbury, (Conn.) Republican: "Back in New England after a unhappy Chicago summer, Jimmy Foxx has been hunting in the Maine woods. Wonder if he was hunting for a new 1943 job."

IN THE FAMILY  
WASHINGTON—Dick Todd, Washington Redskins fullback, picked the right team. His grandmother is a full-blooded Cherokee.

HOME-GROWN  
RALEIGH—Twenty-three of the 35 football squad members at North Carolina State are residents of the state.

## DEMO CANDIDATE SQUELCHES RUMOR

Jack Benner, incumbent and democratic candidate for county commissioner, on Wednesday issued a letter regarding what he described as rumors concerning his civilian status.

The letter follows: "Dear Mr. Editor: "Rumors seem to continue and some busy-bodies seem to know more about my civilian status than I do. "Some people circulate the word that I'm not eligible to hold office, etc. etc., because I volunteered for army service. I am explaining my stand in a paid ad in this same issue. "Now, to assist those who spread lies and misinformation, I am leaving sufficient funds on deposit at the News-Herald office for you to have them printed so everyone will know what you have to say. "If those people can't print them, then they should keep their mouths closed. "Yours sincerely, "E. E. 'Jack' Benner."

## LOOKOUT AT ODELL CLOSED FOR YEAR

CRESCENT LAKE—The only lookout station in the Crescent district manned this summer where horses had to be used to pack the lookout to his tower, was closed Thursday when John E. Meyers, of Bend, guard at the district ranger station, went up to close the Odell Butte lookout.

Meyers and Leah F. Collins, of Wilderness ranch pack station, packed down belongings of the last lookout and shut the station for the winter. Meyers has been shutting other stations all week, including Walker Mountain, Deer Butte and Davis Mountain. The later station was manned for three weeks after the beginning of school by Stewart Gilchrist, son of Mr. and Mrs. Frank Gilchrist, of Gilchrist, who has been with the forest service all summer.

Only seven fires were started in this district during the season, two of which were man caused. In spite of dry conditions, fires which did occur were promptly seen and put under control with practically no damage.
