

CRACKDOWN ON AXIS SPIES IN CHILE FORESEEN

SANTIAGO, Chile, Oct. 22 (AP)—Sharp indications of firm treatment for axis agents in neutral Chile emerged today as a new cabinet, following two last-minute changes of personnel, took the reins of government under President Juan Antonio Rios, himself an advocate of continental solidarity.

The interior minister, Paul Morales of the radical (liberal) party, a carry-over member of the cabinet, used decree power to order banishment of three Germans accused of espionage after Magistrate Jose Arancibia had freed them of charges of secretly radiating information on ship movements.

Homes Searched
Morales ordered the three to be held on the island of Quiriquina, facing the military port of Talcahuano, until the end of the war.

At the same time, he ordered search of the homes of foreigners suspected of pro-axis activities.

Magistrate Arancibia had ruled that the charges against the Germans, Alfred Lleiber, Ludwig Russ and Wilhelm Dorbach, could not be prosecuted under the law for international security which Morales had invoked October 7 in the original arrest of the men.

Red Cross Notes

By ROSE POOLE
Publicity Chairman

Please note! For the first time, the traditional date for the Red Cross roll call in November has been changed and you will not be asked to renew your membership in that month this year. This is the reason:

In order to conserve man power the Red Cross will combine its membership drive and its war appeal in one mighty campaign next March—the 1943 Red Cross War fund. Since no call will be made upon our members until March, we earnestly ask them to hold the Red Cross in their thoughts until that time and if possible to reserve for us the sum they would have given in the roll call and add thereto their war relief donation, to the end that we may attain a full measure of success in our March appeal.

The national war fund planning committee suggests that the campaign next March be made an outstanding American mobilization of the spirit and a dedication of the American people to the winning of the war. Incidentally, do you know how your Red Cross dollars are working? This is the way they are divided:

One half for the armed forces.
Ten per cent for civilian emergencies.

One quarter for preparedness.
Fifteen per cent for you and your neighbors, the local Red Cross chapter.

One of the interesting activities of the Red Cross is its operation on perilous Alaskan waterways. This problem has been answered with a sea mobile unit made up of 20 floating Red Cross first aid stations set up on small boats and manned by personnel in Red Cross first aid, operating at Ketchikan.

Hundreds more small craft will be in service soon.

Recently a lunch box derby was held in the auditorium of a San Francisco department store, under the auspices of the nutrition council of San Francisco's Red Cross chapter. The theme was "How to pack a lunch that packs a punch." Typical of the types of lunches displayed were, a full-meal lunch for an industrial worker, lunch for a woman worker in an industrial plant, snack lunch for worker who comes home at midnight, snack lunches and breakfasts for swing and graveyard shift workers. Wives of industrial workers voted for the lunches they thought most practical and usable, and nutrition experts rated each for nutritional value.

Our sincere thanks to Mrs. Robert Thompson, whose generous donation this week for comfort kits for the soldiers filled many kits. The response to our appeal for these kits last week has been fine and we hope soon to have our quota filled and sent out. Remember, \$1.50 fills a comfort kit and one of these goes to every one of our boys who goes out of our country.

If every family in the U. S. returned ten pennies to circulation, the more than 1000 tons of copper needed to replace them could go to make war weapons.

Gathering Scrap Is a Circus

Even the elephants were pressed into service to put the scrap drive across in Norfolk, Va., where seven "ponderous pachyderms" dragged aged jalopies, which could not navigate under their own power, off to the scrapyard.

MRS. STODDARD PASSES IN NORTH

Word of the death of Mrs. N. Y. Stoddard, 61, Portland, was received here by members of her family early Thursday morning. Mrs. Stoddard passed away at 9 o'clock at St. Vincent's hospital where she had been a patient the past two months. She had been ill for the past three years.

Mrs. William Spangler and Guy Stoddard, both of this city, left Thursday for Portland to attend services for their mother. A third child, Tom Stoddard of Portland, and a sister, Mrs. Charles Gossett, were at Mrs. Stoddard's bedside at the time of her passing. She is a former Klamath Falls and Modoc Point resident and leaves many friends in this community.

Mrs. Stoddard was born October 5, 1881, in Wellsville, U., daughter of Guy and Charlotte Parkinson Hill, pioneers of Utah and members of the Mormon migration train. Jessie Hill was married July 12, 1906, to N. Y. Stoddard in Salt Lake City, U. For 15 years they made their home at Modoc Point where Mr. Stoddard was superintendent of the Lamm Lumber company. He died August 20, 1935. Since leaving Modoc Point Mrs. Stoddard has resided in Portland.

Final rites for Mrs. Stoddard will be held at 10 o'clock Monday morning in Portland from the Finley mortuary. Interment will be in the Portland crematorium and mausoleum.

Pvt. Gamble Will Watch His Coat After Last Night

BOISE, Oct. 22 (AP)—Pvt. Howard Gamble, newcomer to Gowen field, working in the inspector's office last night, grabbed the nearest coat as mess call sounded.

He was only a bit puzzled when several enlisted men and officers rendered him snappy salutes.

He was overwhelmed when, as he entered the hall, several hundred men stood at attention while he took his seat.

His messmates, however, soon advised him he couldn't expect that deference hereafter even if he did carry silver leaves on his shoulders. They suggested, also, that he return Colonel Reavis' coat.

type tires must be turned in even if set aside for use on trucks if the owner applies for a passenger car gas ration.

15. Q. Can I sell or give my idle tires to a neighbor?

A. No. All useable tires are now "frozen." Useable idle tires held by a consumer can be sold or given only to the government under the idle tire purchase plan.

16. Q. What about trailers?

A. You may keep tires actually mounted on the running wheels of trailers and similar equipment. You are not entitled to any spare tires for such equipment.

Without Painful Backache
Many sufferers relieve nagging backache quickly once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 16 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

FLYNN HELD HERE ON PERJURY COUNT

Milfred O. Flynn, about 25, was shunted to the county jail today in lieu of a \$2000 cash or \$4000 property bond fixed by Justice of the Peace J. A. Mahoney on a charge of perjury.

Flynn, named in a district attorney's office indictment as having offered false testimony in a divorce hearing, took time to plead in his arraignment yesterday afternoon in justice court.

L. Orth Sisemore, district attorney, said that Flynn had falsely declared that his first wife, Evelyn, had deserted him on June 15, 1939, in a divorce action which he had brought on October 16, 1942.

Flynn has since re-married.

RUBBER JUMBO

CHICAGO, (AP)—The 1200 pound tire which has been on exhibition at the Museum of Science and Industry for more than a year, and claimed to be one of the world's six largest tires, is being sent to an Akron, O., rubber plant to be converted into tires for defense workers. The huge tire, 10 feet in diameter, will provide sufficient reclaimed rubber to retread about 120 tires, museum officials said.

Buy More War Bonds in October

War bond sales last month topped the Treasury Department's quota by \$63,000,000, but the September figure still was below those of January and July, top months so far. Chart shows bond buying by months since they first went on sale in May, 1941.

GOOD START MADE ON TRUCK SIGN-UP

Farm truck owners were making a good start on the registration of their vehicles which started Thursday morning at 8 o'clock in the county agent's office and FSA offices of the federal building, and the Production Credit office on Main street.

All owners must register. They will not be permitted on the road without the certificates of necessity which also enables them to get gas, oil, parts and repairs. Registration ends Saturday night. The county agent's office will be open Saturday from 8 a. m. to 7 p. m.

Out-of-town owners may register after 8 p. m. at one of four high schools, Henley, Bonanza, Merrill or Mallin.

County Agent C. A. Henderson said that there are between 1200 and 1300 farm trucks in operation here. He urged owners to come with all necessary information. It takes approximately one hour to fill out the forms.

About 2300 U. S. cities with a total population of 14 million depend on private cars because they have no transit systems and 54,000 communities, lacking railroad facilities, depend on trucks, busses.
