

# 2 CANDIDATES VISIT; GOP MEET JAMMED

A group of about 100 jammed the banquet room at the Pelican cafe Thursday night for a republican meeting held on the occasion of the visit of Ralph C. Calkins, republican national committeeman, and Lowell Stockman, candidate for United States congress.

Jack Franey, county republican central committee chairman, described the event as "highly enthusiastic" and said that plans were shaped for an active wind-up campaign in behalf of the republican ticket at the November 3 election.

Stockman, in the final talk of the evening, said that the welfare of Klamath county will receive his careful attention and that he is particularly interested in seeing that federal activities of southern Oregon which rightfully belong in the second congressional district shall be located in the district and not outside.

Grace Wells of Klamath Falls presided as toastmistress after her introduction by Franey.

Speakers included Mayor A. Kalina of Malin, State Senator Marshall Cornett, Paul Landry speaking for Governorship Candidate Earl Snell, Franey speaking for State Secretary Candidate Robert Farrell, Curt Strong, Ed Geary, H. D. Mortenson, Stockman and Calkins. Calkins later addressed a meeting of republican central committeemen and committeewomen alone.

Senator Charles L. McNary sent a wire of greeting to the group. The event was arranged by Mrs. Letha Murphy, a central committeewoman, whose committee provided unique patriotic and political decorations.

# Seattle Boards Stop Induction Of Married Men

(Continued from Page One)

The policy will be effective until the boards learn from national headquarters that married men are about to be called to service all over the nation.

The boards announced they stopped drafting married men a week ago today, but withheld the announcement pending answer to their letter to Col. Walter J. DeLong, state director of selective service, asking that their complaint be transmitted to headquarters at Washington. They said they called DeLong's attention to a large proportion of this state's registrants being engaged in industrial essential to the war effort, leaving a minimum of single men of combat age and physical fitness available for armed service.

In September, alone, they stated, 11,397 men were withdrawn from the state when 3947 were inducted and 7450 voluntarily enlisted. One draft board chairman who returned recently from a trip east, told of seeing great crowds of "loafers, both married and single, on the streets of New York and other eastern cities, and that married men there had never even heard of such a thing as "being reclassified for the draft."

If your dealer is out for the duration, advertise for a used one in the want-ads.

# EDITORIALS ON NEWS

(Continued From Page One)

merely skimming rather than launching a full-scale offensive.

RED STAR says the Germans are feverishly attempting to fortify positions amid the skeleton ruins of the city of Stalingrad. They are reported in today's dispatches to be hastening preparations for winter elsewhere, compelling inhabitants of the occupied Russian towns to hand over warm clothing for the German armies.

It is possible that they may have based their winter plans on use of Stalingrad, battered and wrecked as it is, for a winter base. Even so, it would be better than the open steppes.

The historic specter of the Russian winter, with Napoleon's debacle in mind, must be a disturbing one for Hitler.

THE British bomb Genoa (Italy) heavily. Genoa is a naval base, and also an embarkation port for Africa. There have been hints of a new axis drive in the Mediterranean area. Bombing of Genoa is probably designed to disrupt supplies for Rommel.

THERE is tension in France as the zero hour for Hitler's conscription of French labor approaches. There are hints that the Vichy government may finally be considering removal to Africa.

Through all the news today, as for days past, runs the thread of expectancy of big events in the making.

# REDS FORCE NAZIS ON TO DEFENSIVE

(Continued From Page One)

by special troops, such as electricians and engineers.

The fighting remained violent, however, with both artillery and tanks bolstering lighter weapons.

Pravda said an infantry regiment supported by 60 tanks struck at soviet lines on the approaches to an important community, and under cover of a barrage, more than a company broke through. But this vanguard was declared exterminated.

Snipers were reported active on many sections of the German-Russian battle line. Four red army riflemen have picked off respectively 328, 302, 241 and 206 of the enemy on the Kalinin front, dispatches said. Two Leningrad snipers were credited with killing 302 and 237 Germans.

# Nazis Threaten Force in Request For French Labor

(Continued From Page One)

Foreign sources in Bern suggested that Petain's message was mere window dressing intended to impress the Germans with the idea that no Nazi forces are needed in west Africa.

The persistence with which the axis press has insisted that Dakar is in danger of attack has been regarded in many United Nations quarters as propaganda to induce the French to let the Germans use Dakar as a base.

# County Trucks To Pick Up Scrap At Fort Klamath

Klamath county trucks will pick up more than 15 tons of scrap metal at Fort Klamath Sunday, County Court Judge U. E. Reeder said today.

He said that three county employees have volunteered to drive the trucks. An old boiler from Fort Klamath and a truck load of scrap at the Lamm Lumber company at Modoc Point will be picked up also, he said.

CONVOY SHIPS SUNK WASHINGTON, Oct. 23 (AP)—The navy announced today that two medium sized American merchant vessels, part of a convoy bound for Russia, were attacked and sunk by enemy aircraft in the north Atlantic in July. Survivors have landed at an east coast United States port.

From Illahes — Mr. and Mrs. Perry J. Wright from the Illahes country on the north fork of the Umpqua, were overnight guests at the home of Mr. and Mrs. Charles Thomas, 2105 Wantland avenue, this week. They had been hunting out beyond Paisley, and returned Thursday morning to their mountain home on the Umpqua which they have named Shangri-La.

Deer Hunter Recalled—On Tuesday of this week, Mrs. E. L. Mitchell drove out to Bear flat, east of the Groha ranch, about 70 miles from here, taking word to Willis Carter, Lebanon, of the death of his brother. Carter returned to Klamath Falls that afternoon and left by train that night for Lebanon.

# 4 COUNTRIES FEEL FURY OF GREAT BOMBERS

(Continued from Page One)

of planes which the British flung over Europe on a round-trip flight of 1500 miles across three countries and the continent's tallest mountains.

The air ministry said that not one of the British planes was missing from this first raid on Italy by home-based RAF bombers in more than six months.

Alert Sounds Genoa, a naval base as well as port and manufacturing center, had been free of raids for more than a year when high explosives and fire bombs began pouring on its narrow, twisting streets from a sky flooded with moonlight.

Besides the perils of distance and high mountains with heavy bomb loads, the planes also faced the dangers of crossing Switzerland and France. They touched off alerts and intense anti-aircraft fire in the French cities of Vichy and Lyon as well as the air alerts in Geneva.

# FDR ASKS PASSAGE OF TEEN AGE DRAFT

(Continued from Page One)

anted a year's training before they were sent into combat.

Senator Johnson (R-Calif.) told his colleagues today he was opposed to "calling of children to fight our battles" in the first open senate opposition to legislation for drafting 18 and 19-year-olds.

The white-haired Californian, a pre-Pearl Harbor opponent of the administration's foreign policies, declared that passage of the legislation meant that many children were going to be sent to death in foreign parts of the world.

Asserting that no man wanted more to win the war than he, Johnson said he could not stand idly by and see a generation decimated. He had no doubt, he said, that the 18 and 19-year-olds were ready to fight.

"Of course, they are willing to do anything," he declared. "Of course they are willing to fight at the drop of the hat. They are adventuresome and dare-devilish."

"That is the very reason we should throw out protective hands about them."

Chief among other amendments was one to keep 18 and 19-year-old men out of combat troops until they have had six months or a year of training.

# Allies Drive Ahead Along Guinea Front

(Continued From Page One)

mination of flanking and frontal thrusts.

Yesterday the allies stretched out from the flanks along the Eora Creek village ridge while other forces, which had been checked temporarily by an enemy unit in strength along the main track, resumed their pressure and pressed the Japanese back.

The allies now have fought their way over the most tortuous sectors of the Owen Stanley and have passed the highest point along the track. Before them lies a series of ridges graduating downward, with the sharpest decline at Isurava, five miles south of Kokoda.

# Transportation Troubles May Mean Treeless Holiday

By DAN MARSTON SEATTLE, Oct. 23 (AP)—Christmas may be a celebration with fewer of those brightly-lit, present-strewn Christmas trees in the nation's homes this year.

The trim evergreens are as plentiful as ever in Pacific northwest forests and the nation's buyers as anxious to get them. But transportation difficulties, shortages of cutters and

# GOVERNMENT TO BUY ALL DOUGLAS FIR

WASHINGTON, Oct. 23 (AP)—Douglas fir lumber produced from timber grown on the western side of the Cascade range henceforth must be sold to the single procuring agency designated by the government, the war production board has ordered.

Accompanying the order, which was issued yesterday, was a statement that the WPB regards Douglas fir lumber as "the most critical species of lumber in the United States for war purposes."

At Seattle, Col. W. B. Greeley, secretary-manager of the West Coast Lumbermen's association, said the order was a further step to "freeze" all Douglas fir production above the lowest commercial grade under control of the lumber procurement office of the corps of engineers, at Portland.

He said the order would become effective October 29. It applies to all Douglas fir over the grade of No. 3, the lowest commercial grade. Other lumber such as red cedar, spruce and hemlock remains under the present system of priorities.

War requirements now take more than 90 per cent of the entire west coast lumber production and mills now have more than one billion feet of unfilled orders, he said. "Despite a labor shortage which has reached 25 per cent, a log shortage in some operations and lesser operating equipment, the industry has maintained production thus far this year approximately three per cent over the same period last year."

# 18-Year-Old Held In Medford on Kidnap Charge

MEDFORD, Ore., Oct. 23 (AP)—Kernit Long, 18, accused of kidnaping a Kelso, Wash., boy, was held in the Jackson county jail here today.

Long was arrested between here and Ashland last night. With him was the boy, Ray Groce, 10, for whom a search had been conducted in Oregon and Washington since his disappearance Tuesday. Deputy Sheriff Jerry Pearson, who made the arrest, said a kidnap motive had not been established.

Long was being questioned by Jackson county authorities, an officer from Cowllitz county, and the Groce boy's father. The boy was not harmed.

# Tire Program To Be Announced November 15

(Continued From Page One)

when new tire sales were frozen.

Under the program any motorist complying with the rules essential to obtaining an "A" gasoline rationing card will be able to obtain a replacement tire by proving need. The authorization would come through his rationing board, which would determine whether he should receive a re-capped tire, one of the new reclaimed rubber or "victory" casings, or a pre-war grade A tire.

A feature of the program, however, will be the premise that any motorist entitled to an "A" gasoline rationing card will be eligible for some kind of serviceable replacement tire when his need arises.

Always read the want-ads.

# BRITISH SHIPS DISPATCHED TO INDIAN OCEAN

British fleet movements, heretofore always shrouded in the deepest secrecy, but observers interpreted it as a move to draw Japanese forces from other theatres of the far Pacific war.

Outspoken hints of an impending allied drive into Burma have been coming from United Nations headquarters at New Delhi, India, all this past week, following the return of Gen. Sir Archibald P. Wavell, British commander in chief, from an inspection tour of the India-Burma frontier.

Solomons Battle

Meanwhile, Japan's big new drive in the Solomon Islands appeared to have been thrown off schedule as the invaders still withheld their main forces and allied bombers continued to keep them off balance with heavy new blows.

Gen. Douglas MacArthur's headquarters reported that United Nations airmen dumped 10 tons of bombs on Japanese ships at Bulu, in the northern Solomons, where the enemy has been massing for an all-out assault on the prize American-held Guadalcanal air base in the lower Solomons.

A communique said all the planes found their targets, weathered a storm of anti-aircraft fire, and returned safely to their bases.

# Klamath May Adopt Camp White Group

The 363rd Infantry at Camp White has requested that Klamath adopt it, the local troop entertainment committee learned Friday.

If the 363rd becomes "Klamath's own" this community will be expected to furnish 15 day rooms with radios, magazines and other articles, the committee was informed.

The committee met Friday morning to consider the suggestion, but did not reach a decision. It was decided to ask people here to volunteer material for the day rooms and thus find out whether enough could be obtained here to furnish them.

# Yank Bombers Strike Far to North in China

(Continued from Page One)

Secondary bombs were dropped and many direct hits were observed in the target area, causing serious damage to installations. All American planes returned to their bases.

Hopoh province is one of China's northernmost, bordering on Japanese-occupied Manchuria, and its coal deposits are in the northern hilly region. The mines of the Kailan mining administration are the largest, having had a pre-war capacity of 14,000 tons a day. In peace, coal was exported from the treaty port of Chinwangtao, linked by rail with Tientsin, and then one of the most important coaling ports in the far east.

# VITAL STATISTICS

M'MURDO—Born at Hillside hospital, Klamath Falls, Ore., October 22, 1942, to Mr. and Mrs. Charles McMurdo, 1207 California avenue, a girl. Weight: 6 pounds 5 ounces.

Degree Juveniles—The Juvenile group of the degree of honor lodge will meet Saturday at 7 p. m. at the home of Mrs. Estella Smith, 419 Pacific Terrace. All members and friends are welcome.

(Continued From Page One)

from fathers and mothers of navy men." He said the parents of navy men should be at the Legion hall at about 7:30 o'clock and the observance program will start at 8 o'clock.

CBM C. J. Speakman, local navy recruiter who is helping arrange the observance of navy day, announced that a display of pictures is being placed in the window of the J. C. Penney store, Eighth and Main streets.

# HUNT BEGUN FOR COFFEE SUBSTITUTES

By GARETH MACHMORE NEW YORK, Oct. 23 (AP)—The widespread coffee scarcity had processors hunting today for substitutes with almost the frenzy of a housewife haunting the stores for a pound of coffee.

You may be asked to mix a little toasted bran with your coffee to make it go farther, but roasters hope it won't be necessary.

They're trying to find a good substitute, or "extender,"—just in case.

Substitutes As talk of rationing increased—one big dealer suggested every other sugar coupon be good also for coffee until formal rationing books could be issued. The shortage was called partly "temporary" and roasters talked of a probable increase in supplies.

Among the various substitutes tested were some which could be sold separately. Then the housewife could mix her own and try to suit her family's taste.

Oliver J. Corbett, secretary of the National Retail Tea and Coffee Merchants association, said in Chicago many packers were trying coffee compounds containing as much as 25 per cent rye, malt, Mexican chick peas, soy beans, barley or other cereal.

Syrup Tested Corbett said such adulteration was legal if correctly described on each package.

The office of price administration in Chicago and Boston was investigating complaints of inferior or adulterated coffee being sold without such labeling.

A coffee expert in New York said another experiment was "coffee syrup" which he said might prove to retain some of the aroma lost in the roasting and grinding process.

Coffee importers, however, optimistically cited reports that coffee shipments to this country probably would increase soon with a decline in Atlantic ship sinkings and a potential increase in the number of ships available.

Hans Norland Insurance.

# WHITE HELD IN FORT KLAMATH INDIAN DEATH

(Continued From Page One)

hours before Barkley's body was found.

State Police Sergeant E. W. Tichenor and Deputy Sheriff Dale Mattson were in the Wood River valley community this afternoon seeking witnesses and more information about the case.

Sisemore was reported to be considering submitting the case to the grand jury, now in session, late this afternoon but nature of the charge or confirmation was lacking.

Jackson is a long-time resident of Klamath county and once was associated in the operation of the "Ol' Swimmie" hole" north of Fort Klamath, according to Deputy Sheriff Jack Franey.
