## BUYERS BACK AIR TRANSPORT, LEADERS IDLE

**BY VICTOR EUBANK**  
NEW YORK, Oct. 30 (AP)—The few courageous buyers in today's stock market worked up a fair demand for air transports while permitting most leaders in other sections to shift for themselves over a narrow range.

Transfers were in the vicinity of 500,000 shares.  
Up a point or so at one time or another were United, Eastern and American Airlines. Twentieth Century-Fox registered a new 1942 high by a share. Attracting support were General Motors, Consolidated Edison, North American, N. Y. Central, Anaconda, Kennecott, United Aircraft, Eastman Kodak, Montgomery Ward, Allied Chemical and American Smelting.

Pennsylvania Railroad Common touched a new peak for the move as President Clement revealed the carrier had surplus available for dividends in September of \$13,132,558 compared with \$6,975,327 in the same month a year ago.

In the backward division were U. S. Steel, Youngstown Sheet, Santa Fe, Great Northern, American Telephone, Goodrich, J. I. Case, DuPont, Westinghouse, Loew's, Douglas Aircraft and Standard Oil (N. J.)

Bonds were steady with assorted rail loans favored.

## CLOSING OF PULP MILLS EXPLAINED

SEATTLE, Oct. 30 (AP)—The pulp and paper industry was included in the labor stabilization order of September 7, although the order did not imply "freezing" of workmen at their mill jobs. The inclusion, as interpreted by Maj. Gen. H. G. Winsor, regional manpower director, is for the purpose of assisting in the orderly transfer of pulp and paper mill employes to more essential war production jobs.

Pulp and paper workers must clear through the U. S. employment service for jobs in other industries if they wish to assure retention of seniority privileges in their own industry, it was explained.

The O. W. I. shed additional light on the war production board order for closure of two pulp plants at Anacortes and one at Tacoma. A statement explained it was decided steps must be taken to make sure that the shortage of manpower and pulp logs would not imperil production of alpha and dissolving pulps going into essential nitrating, rayon and photographic uses. The decision, the statement said, followed a series of conferences between the war production board, the war manpower commission, other government agencies and representatives of the Puget Sound mills.

## TREASON TESTIMONY OFFER TURNED DOWN

CHICAGO, Oct. 30 (AP-USA)—U. S. Attorney J. Albert Woll said today that Walter Wilhelm Froehling, one of the six persons he is prosecuting on charges of treason, had offered to testify for the government, but that the offer had been declined.

Woll said the meagre statement that Froehling was willing to make was not considered of any value to the prosecution.

The six defendants were charged with aiding the German reich by helping Herbert Hans Haupt, one of the six nazi saboteurs executed in Washington, August 8. Froehling was the 22-year-old saboteur's uncle.

Woll and his assistants visited Froehling's cell and were informed by him that he wanted to tell all he knew. They told him to go ahead and Woll quoted Froehling as saying, "That's just it—I don't know anything about these charges."

The first witness at the trial today was a Minneapolis painter and decorator named Alfred Harry Grunow, Froehling's cousin. He testified that at about 7 p. m., last June 21, he saw all the defendants sitting around a table in Froehling's home with young Haupt.

Their conversation was in German, Grunow said, but he couldn't hear what they said from where he sat in the living room, about 20 feet away.

FROM German sources today comes a story that the Russians are massing powerful shock armies, well supplied with planes and tanks, for a winter offensive westward from Rzhev. It is supposed to be planned as a two-pronged pincer drive, designed to encircle and trap the opposing Germans.
