Mrs. Roosevelt Finds Enemy View "Very Exciting"

LONDON, Oct. 30 (AP)—Mrs. Eleanor Roosevelt had her first look at German-occupied France through a navy officer's binoculars—today from the White Cliffs of Dover and found it "very exciting to be so near the enemy."

Only a few hours before the first lady arrived by private train from London, the air raid alarm had sounded in Dover, but all was serene during her visit.

Civilians Warned of New Types of Incendiary Bombs

SALEM, Oct. 30 (AP)—State Civilian Defense Coordinator Jerrold Owen warned all county defense councils today of four new-type incendiary bombs now being used by the axis.

The new types are:

- A Japanese 110-pound bomb, containing rubber pellets impregnated with phosphorus, designed to ignite on exposure to air. This bomb may be extinguished by a jet of water.
- A German five-pound bomb, which contains both explosive and incendiary charges. The bomb, which burns immediately on impact, may explode in one to seven minutes. This bomb is best fought by using a jet of water, but fire fighters were advised to keep low to avoid the explosive effect.
- A 100-pound bomb containing 60 thermite containers and six magnesium containers. A 12-pound charge of TNT in the nose of the bomb explodes on impact.
- A bomb containing both phosphorus and oil, and a small bursting charge to scatter the inflammable. The fires will go out when thoroughly soaked, but will re-ignite when the water dries off.

Tulelake FSA Camp Shows Peak Registration for '42

TULELAKE—More migratory workers registered at the Tulelake FSA camp this season than at both Merrill and Malin, with 860 names placed on the books. Peak of the season was 291, with 101 still in camp on October 28, 25 of these being Navajo Indians. In all, 157 families were registered during the season.

Children under 16 employed in the fields were fed 680 hot lunches and Thursday night every man, woman and child in camp was treated to an oyster feed and entertainment.

Charles Paddock, manager here for opening of the camp early in September, was transferred shortly after to a permanent camp at Granger, Wash. He was succeeded by Joseph S. Maughan. Assisting Maughan were Marjorie Lundberg, nursery school advisor; Betty Hole, home management supervisor; Marjolaine Folsom, clerk; Earl Dempsey, maintenance mechanic, and William Phillips, caretaker.

Plans of the camp followed that of other years, except that little was done along the lines of self government or the advancing of entertainment in camp.

Nominee Charges High Command With Stupidity

OMAHA, Oct. 30 (AP)—Dr. Walter R. Judd of Minneapolis, former medical missionary in China and now a republican congressional nominee in Minnesota, charged in an address here yesterday "the stupidity of the part of the high command" is costing American lives in the Solomons.

The United States went into the Solomons, Dr. Judd continued, "and for two months we sat there doing nothing because we didn't think the Japanese would try to take it back. Well, they did try to take it back."

"And there are going to be many more massacres of American fighting men before the army and the navy use up all the plans they have had for years on how to fight Japan and begin fighting today's war with today's methods."

Dr. Judd said that the Japanese had created a dangerous health situation in Oregon.

The state chairman for procurement and assignment of physicians said that only one town in Oregon is short of doctors and that steps are being taken to correct that situation.

Dr. Morris Fishbein, editor of the American Medical Association journal, charged recently at Minneapolis that "unplanned recruiting" of doctors was creating "a dangerous health emergency in some sections."

Johnston said Oregon's quota virtually was filled.

Dangerous Health Situation Due to Doctor Lack Denied

PORTLAND, Oct. 30 (AP)—Dr. Wilson Johnston denied today that recruiting of doctors for the armed forces has created a dangerous health situation in Oregon.

Jitterbugging Plus Promotion Works for USO

PORTLAND, Ore., Oct. 30 (AP)—The various gyrations, jerks and jumps of the jitterbug dance coupled with a little promotion netted the USO here \$20.30. David Rayl, 19, of St. Louis, disclosed today. He is visiting his uncle and aunt, Mr. and Mrs. Charles McNatt, Portland.

To relieve the tedium of bus travel, Rayl and a young woman passenger, did a number in the bus aisle. The passengers applauded and tossed in a shower of small coins. The dancing, and the donations, continued. When the bus arrived at Arlington, Ore., Rayl had \$2.50. He bought 25 10-cent war stamps.

From Arlington to Portland, Rayl turned auctioneer and sold the 25 stamps for a solid \$20.30 which he donated to the USO. He ran the price of one stamp to \$1.75.

VOTE 313 X NO
(To Divert Income Taxes)

Taxpayers should unite in opposition to this proposal to divert income tax receipts to purposes other than as prescribed in the original income and excise tax laws. These laws were enacted with the specific pledge and promise to the people of Oregon that the revenues therefrom would be applied ONLY toward replacing and reducing property taxes.

The sponsors of this initiative claim its purpose to equalize school revenues and to reduce local property taxes. The exact OPPOSITE will result—additional funds will be raised for increased spending. This promise of property tax relief will NOT be fulfilled.

The ballot title of this bill is mis-leading and decidedly unfair to the voters seeking property tax reduction.

Report of the State Tax Commission shows that this bill will increase STATE TAXES on your property \$1,300,000 next year and this will INCREASE in later years.
