

TREASURY DIGGS DEEPER INTO U. S. POCKETS

By KENNETH L. DIXON
WASHINGTON, Nov. 20 (AP)—With the cost of war now nearing the \$6,000,000,000-a-month mark and almost equalling the amount spent for all consumer goods and services in the entire nation, Uncle Sam today started digging the world's biggest dual-action financing machine.

First, the treasury set up plans to borrow during December approximately \$9,000,000,000—the most money ever raised that way at any time in the world's history.

Wide Base
Second, it delved deeper into a re-study of a new tax program—expected to include some form of compulsory savings—which probably will be submitted to the new congress early next year.

Building the borrowing program on a wider base than ever before, the treasury will coordinate the work of the victory fund committees and the war savings staff workers, thus utilizing the efforts of nearly 350,000 volunteers to float the historic loan.

Dig Deeper
Secretary Morgenthau said the money would be raised by stepping up sales of war bonds and tax savings notes, and by offering three new types of treasury securities "designed for every class and type of investor."

In addition to the new securities, Morgenthau said the treasury hoped to make its borrowing deeper into the pockets of the average person by adding at least 7,000,000 more income-earners to the ranks of those already buying war bonds on the payroll savings plan.

Denominations
The special offerings will consist of 26-year bonds bearing 2 1/2 per cent interest, 5 1/2-year bonds bearing 1 1/2 per cent interest, and one-year certificates of indebtedness bearing 1/2 per cent interest.

The two bonds will be sold in denominations ranging from \$500 to \$100,000, and the certificates from \$1000 to \$100,000.

SIX GOVERNMENT EMPLOYEES LET OUT

WASHINGTON, Nov. 20 (AP)—Attorney General Biddle reported to congress today that since August 22 six federal employees had been discharged and one had been disciplined for membership in subversive organizations.

This brings to 56 the total of federal employees thus dealt with since that type of investigation was begun at the behest of the house committee on un-American activities.

Biddle's report, covering a three-month period, was made under a provision in the federal bureau of investigation budget for the 1943 fiscal year, setting aside \$200,000 to investigate employees of every branch of the government "who are members of subversive organizations or advocate the overthrow of the federal government by force."

A composite report showed that a total of 4612 cases was taken under consideration by the FBI and that investigations had been completed and reports sent to the employing agencies in 2130 cases.

Former Marine Commandant Dies

BALTIMORE, Nov. 20 (AP)—Lieutenant General John A. LeJeune, former commandant of the U. S. marine corps, died in Union Memorial hospital this morning.

Our task is to destroy the new order in Europe. We are not alone in the great war of liberation, and with our allies will achieve victory over the enemy.—Josef Stalin.

Four-H News

At our first 4-H Cooking club meeting we decided to call ourselves "The Thrifty Cookers," and we elected Norman Alexander for our president; Jimmy Adams for vice president; secretary is Letha May and Clifford LaForge is the reporter. Mrs. Tarr will be our leader. After we elected our officers we sang songs and had a flag salute at the beginning. At our next meeting we had flag salute, sang songs and talked about our plans for the rest of the year.

At our third meeting we made toast and learned about making cereals. We were to make cereals at home and talk about it at meeting. At our meeting next Friday we are going to talk about pudding and tapoca.

Clifford LaForge, reporter.

FDR AUTHORIZES INCREASE IN WAAC

WASHINGTON, Nov. 20 (AP)—President Roosevelt released today an executive order authorizing an increase in the ultimate strength of the women's army auxiliary corps from 25,000 to 150,000 but said it would be a long time before the latter figure is reached.

The president told a press conference that the new action fixes the WAACs corps at a maximum statutory strength of 150,000. This, he said, is looking pretty far into the future, since a good deal of training will be required. The corps is expected to have 56,000 women on duty by next July.

Think of the soldiers at the front. They all have mothers, wives and sisters. We can't all be weeping—Mrs. Mark Wayne Clark, wife of general who laid groundwork for Africa invasion.

MRS. ROBISON, 86, PASSES AT CONDON

Word has been received here of the passing at Condon, Ore., on Tuesday of Mrs. Martha J. Robison, 86, well known in Klamath county, where members of her family reside. Mrs. Robison became ill last Sunday, and all of her sons and daughters were at her bedside at the time of death. Interment will take place in the family plot at Hardman, Ore., on Saturday morning.

The Robisons were among the first settlers in Morrow county after a trip across the plains. Mr. Robison was killed in an accident about 28 years ago, and since then Mrs. Robison has spent a great deal of time in Klamath, where she made many friends. For a number of years she and a daughter, Mrs. Ollie Adkins, have operated a hotel at Condon.

Mrs. Robison was the mother of Walter Robison of Merrill, S. T. Robison of Bonanza, Mrs. O. M. Whittington of Bend, Mrs. Smith Chappell, and Monte Robison, all former residents of Merrill. Another son, Lotus Robison, resides at Heppner. Grandchildren of Mrs. Robison include Mrs. Hilary Winebarger and Carol Robison of Merrill, Martha Robison of San Francisco, Mrs. Charles Whisenant and Mrs. Lowell Dunn of Klamath Falls.

EXTINCTION FACES OLYMPIA OYSTERS

SEATTLE, Nov. 20 (AP)—The famed Olympia oyster, long coveted by gourmets for cocktails, stews or on the halfshell, is threatened with extinction unless some means is found to combat a mysterious "race suicide," Dr. Trevor Kincaid of the University of Washington zoology department said today.

Dr. Kincaid said the native Olympia oysters have ceased reproducing and may disappear completely within the next four or five years unless some means is found to induce natural propagation again.

Some artificial propagation has been induced by growers bringing in seed oysters from waters north of Olympia, he said, but a lack of labor in the oyster fields has further complicated matters. There is no known cause for the reluctance of the vibalves to reproduce, although the phenomenon has occurred before for short periods. Dr. Kincaid pointed out. Climate and water temperatures may have something to do with it, he believes.

A second enemy, imported from Japan several years ago with a load of seed oysters, is a tiny sea animal, Japanese drill, which bores into the shells and kills the oyster.

It takes loss of life and loss of blood to attack, to press the war home to the enemy, to win momentous battles—Undersecretary of War Robert P. Patterson.

COFFEE RATIONING IS OFFICIAL NOW

WASHINGTON, Nov. 20 (AP)—Coffee rationing is official now. The war production board today formally delegated to the office of price administration authority to ration the product. The fact that coffee would be rationed, beginning at midnight November 28, was publicly announced October 27.

In authorizing OPA to ration coffee, WPB revoked conservation order M-135. The order has

controlled the distribution of coffee since April 28. Acknowledging the use of Mexican chick peas, some times known as Garbanzo beans, as a blend with coffee which has arisen in the recent coffee shortage in this country, the OPA placed these products under price control today.

Maximum prices will be, for most grades, the highest prices charged in March.
