Thanksgiving Values For Home And Family!

LET US GIVE THANKS

Again, in millions of American homes, we will offer up thanks for all that America has given us. It is an old American custom to celebrate Thanksgiving around the festive board, laden with good things.

Thanksgiving is our symbol of plenty... of the bountiful harvest of field and farm, that finds its way to every American table.

Such old American customs, and all they stand for, are what we are fighting to preserve. It may demand sacrifices. It surely will. And just as surely we are ready to make those sacrifices, even if, for the time being, it means much-diminished quantities of the things we have been used to having.

We must sacrifice little luxuries, so we can buy War Bonds with our savings. We must shop with care and forethought, so our earnings will go as far as possible. We must strive to keep courage and confidence... so we may have reason to give thanks every day of every year to come.
