

City Briefs

Home From South—Mr. and Mrs. Clifton Molatore are here for several days visiting their parents, Mr. and Mrs. M. P. Lavenik and Mr. and Mrs. Tony Molatore. Mrs. Molatore, the former Audrey Lavenik, will remain here and her husband leaves Thursday night for duty with the United States navy. They have been living in San Diego for the past several months. Leo and Tony Molatore, sons of Mr. and Mrs. Tony Molatore of Eldorado street, are expected home from school to spend Thanksgiving holidays. Leo attends the University of Oregon and Tony is a student at Oregon State college.

Immunization—Students of Sacred Heart academy were given first diphtheria toxoid shots and some received smallpox vaccination according to Dr. Peter H. Rozendal, Klamath county health officer. The work will be completed at the academy within three weeks. Rozendal stated, Dr. Rozendal will visit Bonanza Wednesday and complete immunization at that school and on Monday will be at Merrill and Malin and visit the county program. The Klamath county health officer said parents in both county and city had cooperated in splendid fashion with his office.

Deliver Posters—The Girl Scout troop of Fremont Junior high school, with Mrs. R. P. Ellington, directing, delivered the posters for the anti-tuberculosis Christmas seal campaign to the business houses on Main street, Saturday afternoon, with nine or 10 girls participating in the work. This is the newly organized troop 14, with Mrs. George Sample the leader. The girls have also assisted in folding the seals preparatory to being mailed.

Improving—Word from Mr. and Mrs. William Sadler of North Third street has been received from San Francisco where a boy hospital. He had a major operation here in mid-summer and suffered complications. His condition is somewhat improved. Sadler is employed by Algoma Lumber company.

To Madras—Jean Watkins, laboratory technician at Klamath county health department, will leave Wednesday for Madras to spend Thanksgiving with her father, who is employed on the government airport project there.

Return Home—Mr. and Mrs. R. C. Hastings returned Monday from Portland where they spent the weekend with their son, Ben, in school there, and also with Hastings' parents.

To San Francisco—Alice Stout, health nurse with the Klamath county health department, plans to leave Wednesday for San Francisco to spend Thanksgiving.

Return Home—Mr. and Mrs. Robert E. Friberg, 4820 South Sixth street, who have spent the past year in Portland where Friberg has been employed in a war industry, have returned to Klamath Falls. They report crowded living conditions in Portland made them decide to return to Klamath.

Girl Scout Hours—Since the departure of Edna Kavanaugh, local executive of the Girl Scouts, different members of the council will be at headquarters on Wednesday and Friday afternoons from 2:30 to 5 o'clock. Anyone wishing to call the office is asked to phone during those hours.

Move to Klamath—Mr. and Mrs. Thomas M. Bieler have purchased a home at 1442 Arthur street. They have lived in the Langell valley district for the past 29 years, 17 of which were spent at Gerber dam. Bieler was retired recently from government service. They will make their home here from now on.

Clinic Postponed—Dr. Peter H. Rozendal, Klamath county health officer, announced that there would be no servicemen's clinic this Friday night, the next clinic to be held Friday, December 4, at the health unit, Eighth and Pine streets.

To San Francisco—Mrs. J. K. Reno is leaving Tuesday evening for San Francisco to spend the Thanksgiving weekend with her sister, Mrs. H. C. Porter. She plans to return the first of the week.

Sojourners—Members of Sojourners club will hold a regular meeting Wednesday at 1:45 p. m., in the Willard hotel. There will be election of officers and all members are asked to attend.

Births and Deaths—The Klamath county health officer reported 85 births and 27 deaths during the month of October, 1942, as compared to 77 births and 37 deaths in October of last year. To date, in 1942, birth total 811, deaths, 269. To October, 1941,

total number of births were 816, deaths, 302.

Rose Cuttings—Several thousand rose cuttings have arrived in Klamath Falls from the Portland Ros. society and are now available at the Klamath county chamber of commerce, where they will be distributed without charge. Those who have previously requested cuttings and others who desire them are urged to call before Thursday, otherwise the cuttings may be too dry to insure good results. Planting should be done immediately, it was reported, and protection given the bushes during cold weather.

Elks Dance—A Thanksgiving Elks party is planned for Wednesday night at the Elks temple for members of the lodge and their ladies. The cocktail hour will be from 9 to 10 o'clock with dancing until 1 o'clock when a Thanksgiving breakfast will be served to guests in the dining room.

Aloha OES—The regular meeting of Aloha chapter, OES, will be held Tuesday evening at 8 o'clock in the Masonic temple. Mrs. Charlotte Martin, worthy matron, and LeRoy Erdmann, worthy patron, invite all visiting Eastern Stars to the meeting.

Patient—Roy Holt, who resides on one of the Copco ranches on Williamson river, is a patient at Klamath Valley hospital. He has been critically ill suffering from an attack of pneumonia, but is improving. Friends may call, it was reported.

Goes to Los Angeles—Mrs. Frank Zissos left recently for Los Angeles, Calif., where she will make her home. Zissos is stationed with the navy at San Diego.

RETAIL SELLING CLASSES ORGANIZE

Retail selling classes of Klamath Union high school have organized a club and have named officers for the year. The groups voted to meet each Friday during class period and after a brief class recitation. This argument will enable all members to be present.

Officers named for the first business meeting, musical program and tea.

period class are Vera Hasy, president; Lillian Zumr, vice president; Helen Hunt, secretary; Edrie Smith, treasurer. Third period class officers, Shirley Garfield, president; Jacqueline Obrist, secretary and treasurer. The Junior Business Women's league is the name chosen by the group. First activity will be to wrap packages to send to New York headquarters of Bundles for Blue Jackets. The club will participate in other war emergency work, it was stated.

Leaving—Mr. and Mrs. J. S. Peck of 741 Walnut, plan to leave Klamath Falls Wednesday morning to spend the winter in southern California.

NO DICE
KANSAS CITY, (AP)—There was a clickety-clickety-click followed by an explosive snap of fingers. Officer Tom Coates hurried in to a cell at police headquarters where 20 negroes, arrested as crap shooters, were held. The game had started again. He collected \$7.05 in small change, but couldn't find the dice. Theorized Officer Coates: "One fellow passed them over his mouth. I think he swallowed them."

PENETRO FOR COLDS' MISERIES Relieve muscle aches, sniffles. The salve in the mitten next base. Get stainless Penetro. 25¢, double supply 35¢.

THIRTEEN ROADS TO ADVENTURE for Men of 18 and 19

Choose, while you can, one of 13 branches of the U. S. Army. Get ready now to get in your licks at the Axis

MAKE no mistake, the Army of the United States is going back to Bataan. It's going to put the cocky Jap army to headlong flight. Immortal Corregidor will again see our flag flying proudly overhead. We're going to hit the Axis in every part of the world. And some day the streets of Berlin will echo to the clatter of American "tank busters." Don't you want to be there?

You young Americans—the hardest hitting, toughest fighting team in the world—have got the stuff to help bring this about. Today the Army offers you, before your 20th birthday, the privilege of selecting any one of 13 different branches in which to get into this fight. Read about them. Talk them over with your family and get full information at your nearest Army Recruiting and Induction Station.

AIR FORCES—Here you have splendid opportunities—more than 26 highly specialized jobs—mechanics and radio men, bombardiers, pilots, navigators, gunners, aerial photographers; flying in planes, gliders or serving on the ground. Or, if you're skilled with tools, you can gain first-hand knowledge and experience servicing the fastest, finest planes on earth. It's all great training for a career in the mighty field of aviation.

ARMORED FORCE—This is the team of gunners, drivers and radio operators that smashes hard at the enemy in mammoth tanks and armored cars... roars over the countryside on husky motorcycles... cuts across fields in bronco-busting "jeeps"... rolls up to battle in huge, powerful trucks. If you're mechanically minded, you may get plenty of action and training keeping these modern implements of war in first-class fighting shape.

CAVALRY—Strike—and strike hard! Our modern Cavalry is equipped to do it. The finest horses trained for the toughest terrain, armored cars, motorcycles, special trucks, machine guns, light mortars, radios—these are your "tools" for battle in this branch of the Army. They need men to ride and fight them. And they need men to maintain them. The rougher the going, the better the Cavalry likes it.

CHEMICAL WARFARE SERVICE—You do not need an advanced knowledge of chemistry to join this vital branch of the Army. Here you become a combat soldier firing chemical munitions. One of your principal weapons is the 4.2-inch chemical mortar used for smoke screens to cover the advance of troops. You'll be working with the newest developments in chemical warfare.

COAST ARTILLERY CORPS—The Coast Artillery includes both world-wide anti-aircraft service and harbor and shore defenses. Around the world, they're knocking the enemy out of the sky... peppering our harbor waters with deadly mines against hostile ships. Gunners are making anti-aircraft guns, big-caliber railway guns and tractor-drawn 155's. Here's thrilling experience, in gunnery and seamanship, and in electrical and radio fields too.

CORPS OF ENGINEERS—Build and destroy—you learn how to do both in the Corps of Engineers. Build to pave the way for our Army... destroy to obstruct the enemy. Bridges, roads, tank traps, camouflage—you build 'em all. You operate railroads. In powerful assault boats of the Amphibian Command you carry troops to secret attack. Engineers are trained to fight and they see plenty of action.

CORPS OF MILITARY POLICE—These are the men who expedite mass movements of troops by skillful regulation of traffic... up at the front and on highways at home. They're the ones responsible for controlling prisoners of war. They are men of integrity who maintain law and order wherever the Army goes. And they're trained to operate as tactical units in battle when needed.

FIELD ARTILLERY—In this branch you can become one of the team that hurls the huge shells which soften up the foe... split wide open his supply lines... scatter his reserves under a hail of fire and pave the way for "the kill" by your own Infantry and Armored Force. Today's Field Artillery is a fast-moving group of men who know how to deliver telling blows where it hurts the enemy the most.

INFANTRY—Roaring to the front in big trucks, skiing down snowy mountain slopes, floating to earth by parachute or flying into enemy territory in big transport planes, today's Infantry is streamlined. With the terrific fire-power of eleven different weapons, it's more than ever "the backbone of the Army." Upon enlistment in the Infantry, you may request assignment for tank destroyer training.

MEDICAL DEPARTMENT—Wherever our soldiers go, on training maneuvers or up to the front, the Medical Department goes along to care for their health and help save lives. There are hundreds of responsible positions for enlisted men in this department. Ambulance drivers, laboratory specialists, pharmacists, X-ray operators, dental technicians, veterinary assistants—these and many more will find action and splendid training for the future.

ORDNANCE DEPARTMENT—Implements of war, large and small, are supplied and serviced by the Ordnance Department—tanks, tractors, trucks, giant field and harbor defense guns, grenades, small arms, and even optical instruments. And there's plenty of action in the field for the trained specialists whose job it is to keep every piece of equipment in fighting trim.

QUARTERMASTER CORPS—Soldiers in the front line depend on supply units to keep them in battle. Food, Shelter, Clothing. Equipment for special climates and tasks, all the way from Ireland to the jungles of Africa. Wherever our men are fighting, the Quartermaster soldier is on the job. The enlisted man may learn one or more of some 70 valuable trades in the Quartermaster Corps.

SIGNAL CORPS—In the Signal Corps you are away ahead of the action—the eyes and ears of war. Lightning-speed communication is your job. The ultra-modern in radio transmitters and receivers, "Electronic Sentinels," "Walkie-Talkies" and scores of other closely guarded secret devices are yours to assemble, install and operate. There's no better training for one of the most promising after-the-war industries... no more exciting branch of the service.
