

# SPUD FARMERS PRESENT PRICE JUSTIFICATION

Klamath potato farmers from both the Oregon and California sides made representations to Lawrence Smith, OPA official, here this week in substantiation of their arguments that the current OPA price ceilings on potatoes are inequitable low. The ceiling is \$2.10 for November sales by country shippers.

The farmers took note of a telegram from Senator McNary, received early in the week, to the effect that an upping of the ceiling is in prospect, but put additional data in the record to strengthen their case.

**\$3.70 Per Acre Loss**

They presented cost data to show that it costs \$1.80 on the average to put a 100-pound sack of potatoes on the cars here.

On an acre basis, the local farmers presented figures to show that the total income to a farmer on the average is \$327.30 (under the existing ceiling) while the per acre cost is \$331. Thus, the farmers asserted, the loss is \$3.70 per acre.

## Yank Sentenced For Spreading "Scare Stories"

LIVERPOOL, England, Dec. 4 (AP)—An American ship's cook, William Edwin Stull, 42, whose address was not given, was sentenced Thursday to two weeks hard labor for spreading scare stories about the North African campaign.

An American naval officer testified he heard Stull say that he had just returned from Oran and that "stories about there being no resistance are boloney. I saw 5000 American dead on the beaches."

The prosecution said Stull had not been within 25 miles of Oran, and that there was no foundation for his stories.

## OGD KEEPS HANDS OFF MEAT PROBLEM

SALEM, Dec. 4 (AP)—The Oregon civilian defense council received a big shipment, charges collect, of pamphlets to encourage all persons to limit their meat consumption to 2 1/2 pounds of meat per week. The charges on the shipment were \$6.60, and the pamphlets were sent out by the national civilian defense headquarters.

The state council refused to accept the shipment. It said it was silly to ask Oregon residents to obey the 2 1/2 pound limit when there isn't even a pound per person per week available.

The northwest sector office of civilian defense, after several state and county defense councils refused to accept the collect shipment, asked the council to accept it but not to pay for it, asserting that the government would pay the bill. The shipments should have been sent prepaid.

# Split-Second Time

WHEN YOU'RE TRAINING TO WIN YOUR WINGS AS A BOMBARDIER

**HE'S A BOMBARDIER.** He's the *business* man of this B-17 bomber crew. His *office* is the "greenhouse" of transparent plastic in the nose of the ship. And he works there on split-second time. But when those busy "office hours" are over—well, just look below and watch him enjoying a Camel—the favorite cigarette on land, on sea, and in the air.

A PACK OF CAMELS IS STANDARD EQUIPMENT WITH ME. THEY SUIT ME TO A 'T'

**THE "T-ZONE"** where cigarettes are judged

The "T-ZONE"—Taste and Throat—is the proving ground for cigarettes. Only your taste and throat can decide which cigarette tastes best to you...and how it affects your throat. For your taste and throat are absolutely individual to you.

Based on the experience of millions of smokers, we believe Camels will suit your "T-ZONE" to a "T." Prove it for yourself!

FIRST IN THE SERVICE **CAMEL**

The favorite cigarette with men in the Army, Navy, Marines, and Coast Guard is Camel. (Based on actual sales records in Post Exchanges, Sales Commissaries, Ship's Service Stores, Ship's Stores, and Canteens.)

ALL America's living at split-second time today... from the bombardier at his bombsight to the men who make the bombs like Jerry Lorigan below. You...and you...and everybody!

So it's only natural that most everybody's smoking more these days. Only natural, too, that taste and throat—the "T-Zone"—are more important than ever to cigarette smokers now.

But...take no one's word for it when it comes to your own smoking. Make the "T-Zone" test described at the left, below. And let your taste and your throat decide for themselves.

**JERRY LORIGAN**, who forges bombs on a split-second schedule, is just as partial to Camels as the man who lays those bombs on the target. "I've smoked Camels for years," says Jerry. "They don't get my throat, and they don't tire my taste. They're tops!"

FOR TASTE, FOR MY THROAT, CAMELS ARE T<sup>OP</sup>S
