

CRASH NEAR DORRIS FATAL TO O. SUTTER

Orville H. Sutter, 51, transient worker and recently employed in Klamath county as a turkey picker, died in Lumberman's hospital, Dorris, late Thursday afternoon from injuries received Wednesday night when his car was struck by a machine said to have been driven by Gerald Whitlatch, 32, Klamath Falls.

Officers said Sutter was traveling south when his car developed engine trouble 17 miles south of Dorris on Deer mountain. He stopped the car and was checking the motor when a truck driver stopped to assist him. A third machine came along and struck the Sutter car, fatally injuring Sutter and causing minor hurts to Walter W. Wise, 38, Klamath Falls, and Mrs. Sutter, 53.

Sutter was moved to the hospital where his death occurred 18 hours later. Attending physicians said the man had a crushed chest.

Capt. George B. Daley of the California state police, Yreka, investigated the accident. In passing the cars Daley is said to have seen the occupants of a Washington car draining gas from both damaged machines. The California highway patrol is continuing its investigation of the case and no arrest has been made, it was learned. Whitlatch suffered minor hurts.

army, navy, marines or coast guard will be determined at induction centers. Inductees will have an opportunity to choose which service they prefer, although their choice will not necessarily be controlling.

The services will be empowered to make special draft calls to meet their needs for men with special skills. This will not mean drafting of skilled men with occupational deferment, before expiration of their deferments.

The 40-hour work week law, in McNutt's opinion, "does not have anything to do with the hours of work," because it does not limit the working time of employes but merely requires payment of time-and-one-half compensation for work above 40 hours.

Some types of modern airplanes can fly faster than a revolver bullet.

The vanilla vine is a species of orchid.

Our Home Town

Party Lines
By EARL WHITLOCK

Do you happen to have a party-line telephone at your house? If you do, you know how angry it makes you when some person who shares your line insists on using it for half an hour at a stretch. And all the time you're dying to get hold of it and have a nice, long visit yourself, with some friend.

Today, wherever possible, the Telephone Company jealously guards, from the knowledge of all subscribers, the identities of the other folks who share their lines. Thus they probably prevent much mayhem.

Now it isn't as if anyone could get a private telephone line just by asking and paying for it. Sharing is compulsory. But you'll note that the word is "sharing." Nothing can completely excuse the selfishness of those who needlessly occupy the phone over long periods of time, to the great inconvenience of others on the same wire.

The telephone lines are crowded with urgency. Don't use the telephone a minute longer than you can help. The phone, in these days, is a valued convenience. It is not—emphatically not—a mere channel for communication for passing the time away, in conversational chit-chat.

Next week Mr. Whitlock of the Earl Whitlock Funeral Home will comment on Christmas 1942.

Do you happen to have a party-line telephone at your house? If you do, you know how angry it makes you when some person who shares your line insists on using it for half an hour at a stretch. And all the time you're dying to get hold of it and have a nice, long visit yourself, with some friend.

EDITORIALS ON NEWS

(Continued From Page One)

and there is reported to have been little drifting—so that the Germans can still use their tanks.

Everything depends on the power the Russians have available for their winter operations.

HITLER is going harder after the Dutch, and is said today to have demanded 250,000 Dutchmen for the German army.

He is reported to be demanding from Petain a French army capable of "insuring the safety (for Hitler) of France and her colonial empire," along with 400,000 French workers for labor in Germany.

Whether he can make efficient soldiers out of embittered and unwilling Dutchmen, Frenchmen, etc., remains to be seen, but he is trying.

That offers a sidelight on his need for manpower.

SCOUT WORK IN MODOC AREA TO BE EXTENDED

Boy Scout work in the Modoc area, which embraces Klamath, Jefferson, Deschutes, Lake counties in Oregon and a part of Siskiyou and all of Modoc in California, will be extended, according to the 1943 program which was outlined at an executive board meeting Monday at noon.

The program will be increased as a purposeful work program. Members of the board cited three reasons for this extension. First, because it is an educational program which prepares boys for active service participation. Second, because of the intrusion of the heavy work program on the part of parents, it is necessary for organizations like the Boy Scout program to enter the field to supply such activity. Third, the fact that the transient element has invaded virtually all towns on the west coast, the Boy Scout program is necessary in the lives of these young men.

Lamott Attends

The annual meeting of the Modoc area council will be held January 10 at the Willard hotel. New officers will be elected and an intensive program developed for 1943.

Robert H. Lamott, newly named Boy Scout executive, attended his first board meeting at this time. Lamott arrived here late in November to take over Boy Scout work in the Modoc area, succeeding Dwight Gilchrist, now serving with the U. S. navy.

The Lake county and Alturas districts have already endorsed the proposed program of intensifying Scout activities, according to Lamott, who met recently with officers of these districts.

The annual meeting of the Modoc area council will be held January 10 at the Willard hotel. New officers will be elected and an intensive program developed for 1943.

Robert H. Lamott, newly named Boy Scout executive, attended his first board meeting at this time. Lamott arrived here late in November to take over Boy Scout work in the Modoc area, succeeding Dwight Gilchrist, now serving with the U. S. navy.

TWO KF WAVES ASSIGNED TO DUTY

Two Klamath Falls WAVES, who enlisted late this fall, have completed their training at Stillwater, Okla., and have been assigned to duty, according to word received here.

Marguerite Parizek, former employe of the First National bank and one of the first Oregon WAVES named, left Stillwater Monday for duty on the east coast. She was graduated with the rank of yeoman, third class.

Loretta O'Brien, a former Kesterson Lumber company office employe, has completed her work at Stillwater and leaves this week for yeoman's teachers' school in Georgia, friends have learned.

Five All-Americans Get Southern Bids For Blue-Gray Tilt

MONTGOMERY, Ala., Dec. 14 (AP)—Five of the 33 players named on the Associated Press All-America football squad are on the roster of the southern team for the annual blue-gray game here December 26.

Clyde Johnson, Kentucky tackle, and Garrard Ramsey, William and Mary guard, were selected for the AP's first team; Monk Gafford, Auburn back, and Louis Sassamon, South Carolina center, were on the second team, and Bruce Alford, Texas Christian end, was designated for the third team.

The men now controlling Japan are ruthless. They are possessed of a fanatic belief that Japan's domination over all the world is not only possible but attainable. We cannot treat with such men. We can only defeat them.—Joseph C. Grew, former ambassador to Japan.

SWITCHING IN STOCK MARKET RAISES LEVEL

By VICTOR EUBANK

NEW YORK, Dec. 14 (AP)—A little mere tax selling and switching in today's stock market raised volume to one of the best levels in more than a month without altering the generally irregular price picture.

While individual firm spots were present from the start, many leaders failed to make progress and trends remained foggy at the close. Variations were small in most cases although a few wider spreads were in evidence.

Low-quoted issues turned over in sizable blocks and special offerings of 12,000 shares of twin coach and 6700 Du Pont, both heavily oversubscribed not only bolstered sentiment but helped activity. There were many slow intervals but the day's aggregate was around 700,000 shares. A year ago dealings were much speedier and the direction was sharply downward. Wall Street suggested that tax adjustments in the current December so far have been well under those of the like 1941 month.

Zenith radio made another peak for the year as six months' net of \$2.14 a share was reported against \$1.53 in the like 1941 period. Others in the new high division included Celanese, American Viscose, Industrial Rayon, Johns-Manville, Bohn Aluminum, American Airlines and Union Carbide.

Doing fairly well were Bethlehem, Chrysler, Montgomery Ward, International Harvester, Douglas Aircraft, Dow Chemical, Kennecott and U. S. Gypsum. Backward most of the time were U. S. Steel, American Telephone, Santa Fe, General Motors, U. S. Rubber, American Can, Texas Co., Sears Roebuck and International Telephone.

Bonds were mixed after a steady forenoon.

SOVIETS, NAZIS NEAR DEADLOCK

(Continued From Page One)

reported in the effort to restore Nazi positions.

Reds Batter Ahead

Military observers expressed belief, however, that any deadlock would be short-lived. They asserted that as the winter deepened, increasing German difficulties more than Russian, the opportunity would come for the red army to deal heavy new blows before the German command could extricate its forces in difficulties between the Don and Volga rivers west of Stalingrad and around Rzehev. The red army now has massed artillery along its newly won lines and is battering enemy concentrations south and west of Stalingrad and keeping up a protective fire northwest of the city while the Russians consolidate their positions.

No Signs

The Germans, who were caught unprepared a year ago by an unusually severe winter, had better luck this year. The winter has been mild so far, permitting them to keep their tanks in operation. Although the first snows have fallen, they have left only a thin coat and heavy, clogging drifts have not yet occurred.

There are no signs, however, that the enemy has been able to improve his position between the Don and the Volga since the start of the red army offensive.

To New York—Mrs. Robert B. Zimmerman left Friday night by train for New York where she will spend the holidays with her husband, "Bob" Zimmerman, who has received a furlough from the SEABEES. Zimmerman has been stationed at Davisville, R. I.

JAP DESTROYER SUNK IN TASK FORCE BATTLE

(Continued From Page One)

field into full operation and that the Pacific command had chosen for its destruction the moment at which the enemy had expended a maximum of effort in creating it without yet being able to give it adequate protection.

Fate of a damaged Japanese destroyer task force which sought to strengthen Nippon's isolated fingerhold in northwestern Guadalcanal island remained hidden today in the wake of a flurry of allied offensive blows all along Pacific battle points.

Results Uncertain

At least one of 11 enemy destroyers were sunk and four to seven others were known to have been hit by American sea and sky slugs. Navy officers said no doubt hundreds of Japanese were sent to a watery grave as a result of the action.

But whether some of the destroyers weathered the two-day storm of blows late last week and reached their beleaguered Solomon outpost with supplies and troops was not stated in the Sunday navy communique which also told of other American attacks in the southwestern scene as well as a sky stab in the winter-locked North Pacific.

In the Buna area of New Guinea, too, the Japs were on the receiving end as allied forces poured a torrent of artillery and mortar shells into enemy positions. Allied headquarters in Australia, which reported the shelling, said fighting planes bombed and strafed the enemy throughout Sunday and a reconnaissance unit shot down two Japanese fighters.

One American torpedo boat was lost in the Guadalcanal fighting which began Friday when dive-bombers scored hits on five Japanese destroyers but failed to stop the task force. Naval surface craft swung into the scrap Saturday, the communique said, reporting one destroyer sunk, another fired and probably sunk and a third damaged. It did not say heth these three were among the five damaged the previous day or separate ships.

Far to the north, three army medium bombers struck at Kiska Island, blasting a grounded and already damaged Japanese ship and bombing the strafing shore installations.

Body of Klamath Flier Killed in Crash to Arrive

The body of Walter Edward Salsbery Jr., 20-year-old flier killed in a plane crash last Friday morning while on a photographic flight over Colorado Springs air base, Colorado Springs, Colo., is expected to arrive here sometime Tuesday. Arrangements are being made by the Earl Whitlock Funeral home.

Young Salsbery, who held the rating of staff sergeant in the US army air corps, is survived by his parents, Mr. and Mrs. W. E. Salsbery of Altamont drive, two younger brothers, David and Richard, and other relatives.

Repair Work Started in Algoma Flood District

(Continued From Page One)

two years has crossed the fill with water on both sides of the edge of the road.

Several lawsuits followed the flooding, and repairs and draining were delayed because of legal phases of the situation, no one being willing to assume responsibility for repair work that might indicate responsibility for the original break. Finally, non-prejudice agreements were made and the work is now underway.

CLERK ASKS COPY OF INSTRUCTIONS

(Continued From Page One)

court to preside in the Short case in place of Judge Vandenberg, who was disqualified by an affidavit of prejudice filed by Mrs. Short.

She asked that A. L. Brandt, circuit court reporter, be required to furnish her with a transcript or written copy of instructions which Judge Vandenberg gave to the grand jury when it made a presentment of facts to the court during its recent session.

She asserted that Brandt had refused to give such transcript to both her and her agent, Walter P. Hannon, when demand was made upon him, and asserted further that Brandt said he had been ordered by Judge Vandenberg not to give the copy of instructions to her.

Affidavit Filed

Mrs. Short also asked that she be provided with a copy of "statements and directions" which Judge Vandenberg gave to the grand jury in the jury room.

The county clerk said in an affidavit that on October 31 Judge Vandenberg assaulted her in her office, cursed and swore at her, and said, in effect, he would have the grand jury investigate and indict her.

She alleges her belief that Vandenberg encouraged and advised the grand jury to indict her.

Judge Vandenberg, in reference to Mrs. Short's allegations concerning an altercation in her office, said:

"There was no cursing, no swearing and no striking at any time."

Mrs. Short was indicted on a charge of receiving payments totaling \$95 for overtime work on elections and compiling records for the dog board.

the murderous fire of the hidden Frenchmen."

In the north there was no action in the allied lines except for artillery fire.

The spokesman said the Germans now form a line running north and south some distance east of the Menzel-El-Bab toward Pont-Du-Fahs, a communicating hub 28 miles southeast of the former army and 35 miles below Tunis, the capital.

110 Merrymakers Die as Hostel Goes Up in Flames

(Continued From Page One)

been identified last night; of the 41 unclaimed, many were so burned as to be unrecognizable. It was not known how many women were lost and exact figures were not announced on the number of Canadian navy, army and air force personnel lost.

First word of the fire came to St. John's residents shortly after 11 p. m. as they listened to music being broadcast from the dance floor.

Suddenly, amid the square dance calls, several voices were heard shouting "Fire," while others gruffly ordered them to "Keep quiet." The music stopped and then the microphone went dead.

Listeners who rushed outside their houses said they could see sheets of flame streaming from the building and some heard the terrified cries of those inside.

Some who escaped from the hostel said the fire began in the auditorium and dance hall while others asserted an explosion seemed to come from the kitchen and then the whole building was engulfed by flames.

Pierce Accuses Private Utilities in Northwest

WASHINGTON, Dec. 14 (AP) Rep. Pierce (D-Ore.) accused private utilities today of fighting a movement in the Pacific northwest for public power and declared they had intensified their opposition since the government constructed projects at Bonneville and Grand Coulee had gone into production.

"Through newspapers and by various agencies and with bribery and corruption the private utilities have delayed the public power movement," Pierce said in a statement inserted in the Congressional Record. "There is sworn testimony that private utilities have spent a million dollars within the past ten years to influence public opinion in the northwest."

Pierce said it was President Roosevelt's idea that the big hydroelectric projects on the Columbia river in Washington and Oregon should benefit the people and not private holding companies.

Goes North—Mrs. R. A. LaLonde, 823 Upham street, left Thursday for Seattle and Everett to spend the holidays. She will also visit a daughter, Jane, who is a student at the St. Joseph's School of Nursing in Tacoma. Mrs. LaLonde plans to return here January 5.
