PORTLAND, Jan. 5 (AP)—The old battleship Oregon will be moved within 15 days for dismantling as scrap metal. Terms of the contract award-

The contractors, Edwin M. Richer, San Francisco, and W. O. McKay, Seattle, who bid \$50,000, said they would probably tow the noted old ship into the Columbia for the job.

Meal Planning in Wartime

We're making readjustments everywhere these days. Even our menus come in for drastic changes now that so many of our taken-for-granted foods are being drafted for service on other fronts. Meals are likely to be a bit topsy-turvy with eggs, for example, going over to the dinner menu, and being replaced at breakfast with whole grain cereals. But even if foods have to be shifted around, our meals shouldn't... mustn't be lopsided or out of balance.

Nutrition's the Thing
The pace we set for ourselves on the home front makes it doubly important that we get our full quota of health and energy-giving vitamins, minerals, proteins and other food essentials. That's where a working knowledge of nutrition pays dividends. If you have more than a flavor acquaintance with foods... if you know what each contributes to the well being of the family, then it is a simple matter of nutritional calculation to know what replacements to make on the menu.

For instance, if you've used your quota of meat for the time, then you can build your menu around other protein-rich foods such as eggs, cheese, dried beans and peas, fish or fowl.

Avoid Monotony
As the variety of foods grows less, meals are likely to become a trifle on the tiresome side. Get out of the cooking rut by serving those day-in-and-day-out foods a little different each time.
