(Continued From Page One)

and ill-fated siege of Stalingrad 141 days ago.

**Yanks Get 34 Nazis**

Elsewhere in the global war, United Nations airmen delivered a series of tempestuous blows to the axis in attacks ranging from far-off Burma and New Guinea to North Africa.

Allied headquarters in North Africa reported that U. S. warplanes destroyed 34 Nazi aircraft in the air and on the ground yesterday in an attack on the Castel Benito airfield, 10 miles south of Tripoli.

**All Safe**  
A communique said American Flying Fortresses smashed 20 planes on the ground and shot down 14 others in a 75-mile running battle.

Not a single American plane was lost in inflicting this defeat on the axis, the communique said, although one plane limped home on two motors.

Simultaneously, American Lightnings flashed across the Tunisian border into Tripolitania in other attacks, raking a long line of axis transport vehicles with cannon and heavy machine-gun fire.

**Italian Report**  
An allied spokesman estimated that at least 50 axis trucks were destroyed, including five loaded with troops. Only one Lightning was lost in this attack.

In Tunisia, Italian headquarters declared that axis forces "during fighting which is still in progress" had destroyed 14 allied tanks, two armored cars and numerous vehicles. The scene of the action was not disclosed.

**Drive on Rostov**  
On the Russian front, indications that the red armies may have launched a major new offensive in the north were reflected in a report by German military quarters that heavy fighting had spread to the sector between Lake Ilmen and the Leningrad-Lake Ladoga region.

These quarters said Russian attacks outside Leningrad and south of Lake Ladoga had failed. In the Caucasus, soviet dispatches pictured the triumphant red armies as driving the axis invaders back toward Rostov along a 100-mile front, capturing six more cities and towns, and moving up for the assault on the Nazi-held rail hub at Salsk, 110 miles southeast of Rostov.

\$1800 to \$2160; justice of the peace, Linkville district, from \$2400 to \$2880.

Since salaries of elective officials are set by the legislature, it is necessary for a new bill to be introduced and passed in order to change them.

"I intend to urge the establishment of three classes of internment for the Japanese. The troublemakers would be strictly segregated and guarded, work camps would be established for those who wish to work and educational camps for others."

**Dual Citizenship**  
"There is no use permitting Japanese who are trying to incite trouble to mingle with the others. If the reports are true it is a serious situation and one that should be handled only by the military."

Wallgren said considerable thought was being given by members of congress to the question of disenfranchising American-born Japanese.

"The laws of Japan permit dual citizenship," Wallgren said. "We want no citizen in this country who owes allegiance to another country."

# AERIAL WAR ON NIPPONS HITS RISING SCALE

(Continued From Page One)

ly-jungled hill after a day-long advance.

**Raid Kills One**  
A navy communique today said small-scale American offensives against Japanese outposts on Guadalcanal were continuing "satisfactorily," with several enemy positions surrounded.

The navy said a lone Japanese plane dropped five bombs on American positions southwest of Henderson Field, on Guadalcanal, killing one man and wounding several others, in the first bombing there since December 14.

**Jap Toll High**  
US bombers continued their regular attacks on the new enemy air field at Munda, New Georgia island, the navy said, and returned without loss.

Other dispatches said American patrols, fighting a series of bitter actions in soggy jungles, had killed an average of 15 Japanese to each American lost.

**Question of Time**  
Maj. Gen. Millard F. Harmon, commanding general of US army forces in the South Pacific, told newsmen it was "just a question of time" before American troops won control of the key island.

"I don't worry about any offensive effort as far as the Japanese on Guadalcanal are concerned," Gen. Harmon said. "It is a matter of cleaning them out."

dered to GET the big US bombers at any cost and avoided the accompanying American fighter escort and tore into the bombers direct. Fourteen German fighters were shot down and ALL the American bombers came back.

Evidently the Germans haven't yet solved the problem presented by American bomber formation fighting.

**TODAY'S** dispatches shed no light on the mystery of Ghadames, where American bombers were reported yesterday as "delivering a heavy blow at Rommel's forces" 450 miles down in the desert south of Tripoli.

There is no direct news today from Rommel himself. You must have noted that the African dispatches for days have been hazy as to his exact whereabouts.

**GIRAUD** and De Gaulle are expected to meet soon, and a Fighting French spokesman in London says an early and complete agreement between the two leaders is expected to follow the meeting.

The Darlan assassination bobs into the news again today, and a spokesman for General Giraud says the investigation of the killing is "being prosecuted without consideration of the prominence of the persons involved or their political beliefs."

That brings in French politics, and by indirection gives us a somewhat clearer picture of what may have happened. The name of the Count of Paris, heading a French MONARCHIST group, is brought in. Restoration of the monarchy is one of the continuing elements in French politics.

De Gaulle is a monarchist.

## TECHNICALITIES 'OG KAISER CASE

(Continued From Page One)

in a position to know whether the excerpts were representative of the whole.

Morton heatedly proclaimed that such piecemeal introduction would shift the burden of proof to the Kaisers from the labor board and that he would no longer facilitate the hearing by stipulating to the authenticity of the records.

"If you want to delay this hearing in that manner it's your privilege," snapped Examiner Denham.

"We have no desire to retard the hearing," retorted Morton, saying, however, that the Kaisers wouldn't help the NLRB introduce evidence that "will be used against us."

Because of the slowness of the hearing, Denham ordered morning, afternoon and night sessions for Thursday, Friday and perhaps Saturday.

Observers, in view of this morning's developments, felt that the case—which affects all war industries where union agreements were signed without certification elections—might continue for weeks.

Yesterday Denham denied a Kaiser motion for dismissal based on a claim that workers in government-owned plants leased to contractors are federal employees and out of the jurisdiction of the NLRB.

## MOTION FILED

A motion for new judge in the case of E. J. Murray versus Wilson Wiley et al was filed in circuit court Wednesday. This is the so-called "Murray case" concerning a downtown building which was remanded by the supreme court for further action in circuit court. Circuit Judge A. D. Hay of Lakeview was previously assigned to the case, upon an affidavit of prejudice against former Judge E. B. Ashurst. Judge Hay has since been appointed to the supreme court. The new motion was accompanied by an affidavit of prejudice against Judge David R. Vandenberg.

**Expected Here**—Pvt. Whiteline and his wife, the former Dorothy O'Keefe, are expected here late in January from Pueblo army air base, Pueblo, Colo., where Whiteline has been stationed since the base was opened late last year. They will leave Pueblo January 23 for a 10-day furlough. Mrs. Whiteline has advised her parents, Mr. and Mrs. James O'Keefe.

**Arkansas Bill Would Prohibit Jap Ownership of Land**

**LITTLE ROCK, Ark., Jan 13 (P)**—A bill has been introduced in the Arkansas general assembly to prohibit any person of Japanese birth or ancestry from ever owning land in the state.

Senator B. Frank Williams, a planter from Osceola, Ark., introduced the measure in the senate yesterday, asserting that because "of the standards of living of the Japanese people, a white person cannot profitably compete with the Japanese either in agriculture or business."

Two relocation centers for Japanese moved from the west coast have been established in Arkansas.

were looking forward to electing her then.

Steiwer, after she conceded, called her the "grandest sport in the state of Oregon." And his supporters agreed.

To illustrate what the Lee supporters think of Steiwer, they preferred Steiwer over any of his own group.

Leaders of both houses expressed today their earnest hope that the number of bills would be kept to a minimum and that all legislators talk on the floor only when necessary. That would concur with Governor-elect Snell's desire for a short session.

Among measures prepared for introduction today were a proposed constitutional amendment to reduce the voting age from 21 to 18, by Rep. Vernon Bull of La Grande; a measure to provide for monthly payment of income, excise and intangibles taxes, by Sen. Lew Wallace of Portland; and a bill by Wallace, Steiwer and Sen. Irving Rand, Portland, to provide that any person may get a birth certificate from a circuit or probate judge, instead of only from the state board of health as now provided.

Rep. Giles French, Moro, introduced a measure to compel churches, private schools and charitable institutions to pay property taxes.

Other house measures introduced today would require motor vehicle drivers who haven't taken examinations in the past four years to be tested during the next two years; and provide for payment of damages from the state game license fund to owners of livestock killed by unidentified hunters.

**Friends Arrested**  
The new "personages" arrested, it was pointed out, are in addition to the 12 seized New Year's eve as instigators of a plot to kill Robert Murphy, President Roosevelt's personal minister in North Africa, General Giraud and others.

General Giraud, disclosing the arrest of the original 12, said that some of them were personal friends and some had assisted in the American occupation of North Africa.

that big federal taxes, which may be deducted in paying state income taxes, would have the effect of cutting Oregon's income tax by 15 to 30 per cent.

The single tax commissioner, he said, would provide more efficient administration, because he would be directly responsible to the governor. The present three-man tax commission, appointed by the board of control, is not responsible to anybody, he added.

**Milk Issue**  
After citing Oregon's leadership in contributing men and money to the war effort, Snell led the packed house chamber in a moment of silent tribute to Oregon's dead war heroes.

The milk control issue, which has caused much oratory in legislative halls for the past few sessions, was dropped into the legislative lap again when Snell recommended that the milk control board be abolished, and its duties be transferred to the state department of agriculture. The legislature has repeatedly defeated attempts to abolish milk control altogether.

Governor Snell recommended creation of a committee on post-war readjustment and development to "contribute to sound, practical, orderly and satisfactory solutions to important problems ahead."

**C. D. Recommendation**  
Members of this committee would be the chairmen of the house and senate ways and means committee, budget director, state director of agriculture, state forester, state director of geology and mineral industries, state highway engineer, a representative of the school of economics or business administration at the University of Oregon.
