LOS ANGELES, Jan. 16 (AP)—Alleged prejudicial remarks by two women jurors were the basis of prosecution efforts today to obtain a mistrial in the case of Film Actor Errol Flynn, charged with three counts of statutory rape upon two teen-age girls.

The district attorney filed a mistrial motion, backed with affidavits of three women called in the original venire panel, that they heard the two jurors in question express opinions with relation to the actor.

Two Removed  
Hearing on the motion was set for next Monday. The actor's attorney, Jerry Giesler, said he would resist it strenuously.

Two of the women who made the affidavits had been removed from the jury box on peremptory challenges by the state. The third was a member of the panel from which the Flynn jury was drawn, but was not called in the actor's trial.

## Henley Slap Happy Stitchers

The third meeting of the Henley Slap Happy Stitchers was called to order by the president, Pat Masten, January 6, 1948. The secretary called the roll. Bonnie Sweeney was the only one absent. The secretary read the minutes of the last meeting. We discussed our work and then played games until 4 o'clock, when the meeting was adjourned. Mrs. Johnson had requested that we have our meeting at her house, so we did, and were served with hot chocolate and cookies.

The fourth meeting of the Slap Happy Stitchers was called to order by the president. The secretary called the roll, with all members present. The secretary then read the minutes of the preceding meeting. We discussed our work and found that not much had been done by anyone. The game committee then started some games, which we played until 4 o'clock. The meeting was adjourned.
