29 BIDDERS APPEAR FOR SUMP LANDS

Bids on the 5400 acres of land in the Tulelake sump area were opened at 10 o'clock Thursday morning in the offices of the US bureau of reclamation, and names of the 10 high bidders will be sent to Denver, Colo., for confirmation.

Bids ranged from $11.65 to $9.99, officials stated, and the 29 bidders submitted 158 proposals. The land, in the Stronghold district, is under water and has been since 1938. Leasees will dike and drain the section and it is hoped the land will be cropped this year.

High bidders are as follows:

O. W. Boyd, Alturas, Calif., lot 10, $11.65 per acre; also lot 14, $11.27.

Laddie Rajnus, Malin, lot 17, $11.62½.

A. W. Macken, Klamath Falls, lot 20, $11.07; also lot 29, $11.07.

M. L. Sutton, Tulelake, lot 15, $11.07.

F. E. Mosebar, Tulelake, lot 16, $11.07.

Barney Mauch, Tulelake, lot 32, $10.02.

Stronghold Farms, lot 21, $11.23; also lot 22, $11.23.

Dan Geaney, Tulelake, lot 25, $11.20; also lot 35, $11.20.

French E. Johnson, Tulelake, lot 18, $10.06.

Modoc Farms, Tulelake, remaining 23 lots, $1.99.

Bids will total in the neighborhood of $55,000, it is understood.

ODT EMPHASIZES VEHICLE SIGN-UP

Owners of commercial motor vehicles in the west were reminded today that all "idle" trucks, buses and other vehicles—except taxicabs, rental cars, ambulances and hearses—must be reported to the office of defense transportation.

Reports should be made on ODT CWN-3, a simple, single sheet form of only eight questions which can be obtained from and should be returned to vehicle owners' local ODT district office.

Owners are required to list all commercial motor vehicles which were idle during the last 14 days of the month. The report should be filed within five days after the last day of the month covered by the form.

Commercial vehicle owners with no idle equipment are not required to submit a report.

Purpose of the monthly report is to enable the ODT to determine what proportion of the nation's commercial motor vehicles are actually in use, and also how many trucks, buses, etc., are being unused and might be available for essential war or civilian transportation work, the ODT said.

Chester Rowell Believed U. S. Wants Non-Isolation Peace

PORTLAND, Jan. 22 (AP) — Chester H. Rowell, associate editor of the San Francisco Chronicle, said today he believes that the American people are in favor of a peace that calls for international cooperation in military and political problems.

But, he said in an interview, considerable education will be necessary to make the public accept economic cooperation as well.

He condemned those who advocate waiting until the war is won before talking about peace.

"If we do that we won't win the peace and that means another war," Rowell said.

FASTER, PLEASE!

SPRINGFIELD, Mo. (AP) — Mrs. G. E. Campbell read in the paper that Fire Chief W. R. Price said citizens should not thaw out frozen pipes with blowtorches.

She hurried to the kitchen to tell her husband about it. Flames were already flashing up the wall.

OPA Releases Further Details on Rationing to Be Started in February

Further details on distribution of war book No. 2, and the "point system" of rationing it will govern, were announced today by OPA officials.

Highlights were:

1. The book, coupons of which first will be used in purchasing most processed canned and bottled foods and juices, will be distributed during February at school sites.

2. Retail sale of all foods to be rationed under this program will be halted for a period of one week, during which books will be distributed.

3. Actual rationing will begin immediately upon completion of the week's "freeze."

4. Every person, including infants, will be eligible and the baby's book can be used to purchase the same amount as an adult's.

5. Consumers will have to declare their supply of rationed foods as of the "freezing date" and coupons will be removed from the book for all excess supplies on hand.

6. The exact amount of rationed food to be considered "normal" will be announced later.

7. War book No. 2 will be used for rationing meats soon after its distribution. Likewise, it will be used for other commodities when shortages become acute.

Only One Blank

To get book No. 2, Mrs. Housewife must first fill out a consumers declaration form, on which she will record the total number of cans of rationed food she has on hand on the "freezing date." She will not be required to specify the various kinds of foods on hand—merely the total number of cans.

She will use only one blank, listing the names of all members of her family. After signing this form, she will present it to the registrar at her neighborhood schoolhouse, together with the war ration books No. 1 issued to all members of her family.

Declare Coffee

Declaration forms will be available in advance at war price and rationing boards and at most grocery stores. Consumers will be urged to complete these declaration forms at home to save time at registration sites.

Coffee also must be declared and stamps for all coffee over the allowed amount will be removed from war book No. 1 which will continue to serve as coffee-sugar book.

If any stamps are missing from books held in the name of children under 15, the same number of missing stamps will be taken from books held by adult members of the family.

Foods Listed

Housewives should remember that all home-preserved foods including vegetables and fruits are exempt from rationing. They may retain on hand any amount, and they need not report them in their declarations.

Processed food to be rationed and declared include commercially packed canned fruits, vegetables, fruit and vegetable juices, canned soup, chili sauce and catsup.

Those not scheduled for rationing, and which will not have to be declared include: jellies, jams, preserves, canned meat, fish, olives, relish, pickles, spaghetti, macaroni, noodles and frozen or dried foods.

The "point system" can best be explained, say experts, by taking an arbitrary figure of say, 48 points, for each person, per month.

This would mean that, if beans were given a 1-point value, each person would be able to buy 48 cans of beans each month. If, however, asparagus were given an 8-point value, each person would be able to purchase only 6 cans per month.

Value May Change

The stamps will have values of 1, 2, 5 and 8 points.

Scarce commodities will have a high point value to retard purchase of that particular item, whereas commodities available in abundance will have low point values, to encourage their purchase.

Should any commodity with a low point value suddenly become scarce its point-value will be increased.

These changes in point values, the government figures, will occur not more than once a month when purchasing-trends will be checked on a national basis.

SOLDIER KILLED IN BALLOON EXPLOSION

VALLEJO, Calif., Jan 22 (AP) One soldier was killed and five soldiers and 12 civilians were injured by the explosion of an army barrage balloon at its moorings here yesterday.

A wooden barracks on one side of the vacant lot where the balloon was moored burst into flames immediately after the explosion. On the other side 10 war workers' homes, constructed hastily to meet housing demands, collapsed and four others were damaged.

Army officials are investigating to determine the cause of the explosion.

The man killed was Richard S. Cail, of Eaton, O. The army listed the injured soldiers as: Sgt. Michael Milon, Carbondale, Fla., fractured skull; Harry L. McKenna, Elwood City, Pa., fractured skull, broken ankle, shock; Jesse F. Merryman, Grand Rapids, Mich.; J. Wallace Jr., Hazardville, Conn., injured chest and face, fractured heel; and Emile A. Maleski, Philadelphia, fractured ankle and shock.

None of the civilians was injured seriously.

Wickard Refuses Commitment on Wheat Ceiling

WASHINGTON, Jan. 22 (AP)—Secretary of Agriculture Claude Wickard refused to commit himself yesterday on possible ceilings on the price of wheat.

The secretary was told at a press conference that it had been reported in trade circles that the office of price administration was seeking his approval of such ceilings.

"I have heard of these proposals but know nothing about them," Wickard said.

Everything Seemed To Happen at Once To Cpl. (?) Painter

BOISE, Jan. 22 (AP)—Everything seemed to be happening at once to Corporal Blain M. Painter, 24, of Reading, Penn., who is stationed at Gowen Field.

At 10 a. m. yesterday he received notification that he had been promoted to corporal; pleased, he was telling friends about it, when he received word that he had been promoted to the rank of sergeant. The time was 11 a. m.

Sgt. Painter had finished sewing on chevrons when he received word from the second air force headquarters in Spokane that he had been advanced to warrant officer.

Warrant Officer Painter has been in the army a little over a year.

FLYER TELLS OBSTACLES TO BOMBING JAPAN

By WALTER B. CLAUSEN

HONOLULU, T. H., Jan. 22 (AP)—Captain Ralph A. Oftsie of Everett, Wash., aviation officer on the staff of Admiral Chester W. Nimitz, declared yesterday that the bombing of Japan remains on the list of future war missions.

"There are reasons, however, why it can hardly become a matter of regular routine," he told the Honolulu chamber of commerce.

Speed Flyer

"There is no royal road to Tokyo. Possibly some of you are disappointed at the progress being made. You may have felt that 'bomb Japan' should be first on the list of missions assigned, and, that properly carried out, such a course would result in early termination of the war."

Captain Oftsie is a distinguished speed flyer who participated in 1925 in the Schneider Cup races with Jimmy Doolittle, famed leader of the bombers of Tokyo who was then an army captain.

Forecasts Uncertain

Telling of the great obstacles to be overcome, including the great distances to be covered, Captain Oftsie pointed out the intricacies of the weather.

"Observation stations and adequate weather forecasts are few and far between," he said. "Atolls and adjacent waters are poorly and inaccurately charted. The carrier and its aircraft give us the one means of reaching back of the Japanese.

"As our new carriers come into service in increasing numbers, it may be expected that carrier-based aircraft will play an ever-increasing part in breaking enemy power at sea and in the air."

U of O Coat Hanger Drive Goes Over

EUGENE, Jan. 22 (AP)—Tripling the Lane county quota, the University of Oregon war board coat hanger drive brought in over 6000 hangers. They will be put at the disposal of the soldiers at Camp Adair.

Anyone having information concerning former students graduating or leaving Klamath Union high school with the class of 1939 or later and now in any of the armed services, is asked to contact the Klamath Krater with a postcard containing the information, or to phone 5287. The Krater is gathering such information preparatory to making a service flag with a star for each former student of the high school.

• • •

SHASTA VIEW — Kenton Knight of Cottage avenue has received a letter from his brother David, now in foreign service. He is well, the letter said. It is thought that he is on the North African front.

• • •

MERRILL—Word has been received here that Tommy Edmunson, former employe of Bert Johnson, is in training at Sheppard field, Tex., as an air corps mechanic. Edmunson worked on potato sorters in several south end communities.

• • •

TULELAKE—Word has been received here that Clyde Frishholz, former athletic coach in the high school, is in a naval training school at the University of Arizona. Frishholz, since leaving here, has been teaching in Martinez high school.

• • •

LANGELL VALLEY — Laurence Revell left Wednesday for his training station at Port Townsend, Wash., where he will enter the coast guard.

David House is now a private first class at the Holabird ordnance motor base, Baltimore, Mo., where he is attending a three-month school for airplane mechanics.

ARRIVAL OF RAFT OPENS LOG PROJECT

WASHINGTON, Jan. 22 (AP)—The safe arrival at Anacortes, Wash., of a raft containing 912,810 board feet of spruce logs has signalized the opening of a large government logging project in the Tongass national forest of Alaska, to obtain spruce needed for airplane production.

A government announcement said the 900-mile trip from Edna Bay in southeastern Alaska repeatedly was interrupted by gales, during which the consignment sought shelter in coves.

Supply Insufficient

The raft also contained 49,300 board feet of hemlock for experimental purposes. The United States forest service said 38 per cent of the spruce was of No. 1 grade.

The service said the project was launched to meet urgent needs of the aircraft industry for aircraft lumber, as production from Washington and Oregon had not been sufficient to supply the expanding war requirements of this and other countries.

The logging was contracted for with independent companies under the direction of an office set up in Seattle. The service also contracts for the towing of the logs to Puget Sound.

Dr. Tresider Elected President Of Stanford

PALO ALTO, Calif., Jan. 22 (AP)—Dr. Donald Bertrand Tresider, 48, who has been associated with Stanford university almost continuously in one capacity or another since 1915, will become president of the institution September 1.

Election of Dr. Tresider, a graduate of Stanford in 1919 and of Stanford Medical school in 1927, was announced last night by Judge M. C. Sloss, vice president of the board of trustees. The president-elect, a member of the board since 1939 and president since last May, succeeds Dr. Ray Lyman Wilbur, acting president. Dr. Wilbur will continue as chancellor to which position he was elected for a life tenure in June, 1941.

ELKS INITIATE 6 NEW CANDIDATES

Six candidates, including two members of the county court, were initiated into the Klamath Falls Elks lodge Thursday night.

The new Elks are County Judge U. E. Reeder, County Commissioner Fred L. Pope, William Kandra, Howard Andrews, Richard Kranenberg and Lester Lewis Kandra.

County Commissioner John Reber, a veteran member of the lodge, sponsored his two fellow-members of the county court.

EASY CURE

DENVER (AP)—The police ambulance rounded a corner very briskly indeed.

So briskly, in fact, that up came the paper clip that 8-year-old Emma Lou Dudymott, the passenger, had swallowed.
