New Pine Creek

The ladies of the Home Economics club, under the leadership of Mrs. Lydia Bishop, are making plans to be completed this Thursday at their regular meeting, for the supper to be given in connection with the grange benefit dance, Saturday evening, January 30. Proceeds from the dance, which falls close to the president's birthday and will be a form of a celebration of it but not an authorized President's ball, will be used to buy war bonds. Eventually the bonds will be cashed or redeemed and the money will be used to build on the long hoped for kitchen which is planned to be erected on the north side of the present hall. There will be music and the dance is public. A large crowd is expected.

On February 13, the PTA will hold a Valentine's day dance to raise funds to complete payment of the cost of installing lights at the Kelly Creek schoolhouse. If more than enough cash is raised for this purpose, the rest will be applied to the expense of cleaning and refinishing the interiors of the school rooms, which are sadly in need of such improvements. It will be remembered that the last PTA dance was quite successful and t' e committees in charge are looking forward to another big success.

The East Side grange is showing some growth. Master Ray Bishop and other staunch grange leaders strongly feel the need of every member rallying to the active support of their community grange, especially in these times when greater responsibilities and problems are placed on farmers and farm organizations.

Mr. and Mrs. Lute Miller and Mrs. Betty Snider have recently transferred their membership from Davis Creek to the grange here. Mr. and Mrs. Marshal Ayres have been reinstated and are enjoying the social life that the grange provides. Lee Sanders received the obligation as a new member at the last meeting, held two weeks ago. Wellman Smith was balloted on at the last meeting night for reinstatement. He was a former member of the East Side and says he is glad to get back in again.

Farmers or individuals desiring to become grangers can do so by contacting Secretary Harvey Sanders or any member in good standing, securing an application blank and presenting if properly filled out at the meetings on the first and third Fridays of each month, officials reminded.

The Needle club met last Saturday afternoon at the home of Mrs. Joe Smith. Ten members and two guests, Mrs. Buna B. Faris and Mrs. A. H. Daugherty, were present at the meeting. The ladies plan to obtain some Red Cross sewing as their next project. The next meeting will be at the home of Mrs. Thelma Butler.

FIREMEN PLAN BALL FOR FEBRUARY 20

MERRILL—A "come as you are" or apron and overall dance will be given this year as the annual Fireman's ball, plans for the event to be held Saturday evening, February 20, being announced following a meeting of the firemen Monday night. The dance will be held in the community hall and no tickets will be sold either in advance or at the door, those guests arriving to enjoy the evening to drop a contribution into the hat.

Bob Barry was asked to officiate as chairman, his coworkers to include Alonzo Hodges, Tom Barry and Elmer Stukel. The dance for many years has been given on a date near Washington's birthday and in past years has been widely attended.

The firemen will be guests of the Merrill Legion post for the annual exchange of dinners, the firemen entertaining one year and the Legion the next. The dinner is slated for early March.

LOSS OF PLANE STILL MYSTERY

KETCHIKAN, Alaska, Jan. 28 (AP)—The final episodes in the career of one of the most colorful and respected pilots who ever plied the northern air lanes seems destined to remain shrouded in mystery, perhaps for months to come.

Abandonment of the search for the missing Morrison-Knudsen company plane, piloted by Harold Gillam and with six aboard, has been announced by American and Canadian air force officers.

The plane vanished after leaving Seattle January 5 on a flight to Alaska. An unceasing search has been maintained from the air along the wild British Columbia coast without discovery of any definite clue to the Lockheed Electa's fate.

Gillam was a veteran Alaska flier who managed for years to turn up safe and sound out of many tight predicaments.
