DEFENSE CALENDAR

The first of the 1943 series of civilian defense courses which was scheduled to be held Friday, January 29, will be postponed until Friday, February 5, according to Arnold Gralapp, head of the civilian defense training section.

Delay in beginning the courses is attributed to a new procedure which will include showing of movie films in conjunction with the lecture courses; the films have not yet arrived from Washington D. C., Gralapp said, but are expected soon. The courses will be held in the high school auditorium.

A standard first aid class will be offered to residents of Klamath Falls and surrounding communities beginning Tuesday, February 2, at Red Cross headquarters, 418 Main street. A. H. Mead will instruct.

Cheese Makes Alternate for Meat Dishes

Although our list of plentiful foods has been streamlined for 1943, the ingenuity and imagination of the American homemaker will furnish the pattern for meals high in flavor and nutrition. Menus will be simpler, variety of foods somewhat less, but no one need go hungry or be poorly nourished. Every homemaker should keep in mind the daily guide set up in the government's nutrition program and plan meals with the foods now available, points out demonstration agent, Winifred K. Gillen.

Cheese is being called to protein duty to alternate with meat in the main dish. Cheese, like meat, makes a good basis for stick-to-the-ribs dishes around which to build a meal.

An easy casserole dish is American cheese melted in white sauce and poured over hot cooked macaroni, spaghetti or noodles. The same cheese sauce is good with vegetables. Welsh rarebit is a mixture of grated cheese, white sauce and egg, served over toast or bread. Try hard-cooked eggs, cheese sauce, macaroni or spaghetti together in a baked dish with breadcrumbs over the top.

Here are two cheese recipes—one a cheese sauce that will make smoothly satisfying main dishes, and the other a cheese pudding that combines the protective foods—milk and eggs, and once tried will be a favorite with any family.

Cheese Pudding
1 cup dry enriched bread crumbs
2 tsp butter
1 tsp prepared mustard
2 eggs
1 cup milk
1 cup grated or finely cut cheese
1 tsp salt
1/4 tsp paprika
Scald milk and pour over the bread crumbs; let soak for a few minutes. Add egg yolks, cheese, melted butter and seasonings. Fold in stiffly beaten egg whites and pour into a well-buttered casserole. Set casserole in a pan of hot water and bake at 325 degrees for 45 minutes or until firm.

Cheese Sauce
1 1/2 tsp butter
1 1/2 tsp flour
1 1/2 cups milk
1 cup grated cheese
1/4 tsp salt
1/4 tsp mustard
1/8 tsp paprika
Make white sauce of butter, flour and milk; add cheese and stir over heat until cheese is melted. Add seasonings. Serves 4.

OPA CREATES 11 DISTRICT COAST OFFICES

Ed Ostendorf, whose name has been prominently mentioned in connection with the appointment of a manager for the new OPA district office here, was home Thursday from San Francisco. He stated he had nothing to say regarding the appointment.

It was generally believed here, however, that Ostendorf is in line for the job. The offices, headquarters for 11 counties of northern California and southern Oregon, will be located in the Balsiger building.

SAN FRANCISCO, Jan. 28 (AP)—As a step toward greater efficiency and more intimate contact with consumers and merchants, the office of price administration has created eleven district offices in California, Oregon, Washington, Nevada and Arizona.

The OPA now has six state offices, with two in California. Under the new set-up, effective February 15, district offices will be maintained in Seattle, Spokane, Portland and Klamath Falls.

Closer Home
Harry F. Camp, regional OPA administrator, said each office would be staffed with price control, rationing, legal and administrative personnel, invested with authority to execute the various OPA programs.

The eleven offices "will bring the OPA programs that much closer to the average citizen and merchant," Camp declared. "As the war progress and more sacrifices are called for, it is only just and practicable that the machinery governing these programs be brought just as closely as possible to the citizens by the civic leaders they know. Each district office will be able to process requests, petitions and problems of local concern without the necessity of submitting them to higher administrative levels, in many instances, great distances away."

Sailors Break Out Here--- With Old-Fashioned Measles

Three of Uncle Sam's fighting navy men have broken out with measles. The three were moved from troop trains, one last week, two yesterday afternoon, and admitted to the isolation hospital where Dr. Peter H. Rozendal diagnosed their ailment as good old-fashioned measles.

The sailors are Curtis D. Hamner, James W. Spencer and Marvin Bright, all rated as seaman second class. Dr. Rozendal said that there was a mild epidemic of measles in Klamath county and that parents should observe children carefully if they show signs of a dry cough, red eyes and sniffly nose.
