### They're Doing Their Part

"Tell us how we can help and we'll do it." That expresses the patriotic spirit of the average American—man or woman.

Pictured above is one group of loyal workers engaged in Red Cross activity. Union Pacific has formed many of these groups in the territory which it serves. And there are many similar organizations throughout the Nation.

The work of Red Cross groups who prepare bandages is carefully supervised. Each bandage must be made to exacting specifications; the slightest speck of foreign matter must be removed.

These women are not "playing at war." They are cheerfully giving their time to perform a vital and painstaking task. They are doing their part and doing it well.
