

# ZUCKERMAN TRIAL TO START FEB. 23

SACRAMENTO, Calif., Feb. 17 (AP)—The third district court of appeal Tuesday refused to grant a writ of prohibition which would have prevented the second murder trial of Maurice Zuckerman, Stockton, from starting February 23.

The petition was sought to allow the participation in the trial of Senator Bradford Crittenden of San Joaquin county as an associate counsel.

Attorney John Taaffe, representing Zuckerman, indicated he would appeal the courts decision to the state supreme court.

District Attorney R. N. Dunne of San Joaquin county argued that a continuation of the case until after the legislature adjourned would be tantamount to dismissal. "You would have to be blind as a bat if you didn't think Mr. Zuckerman had some motive in the employment of Senator Crittenden," he said.

Zuckerman, although tried on a murder charge, was convicted of manslaughter in connection with the death of Otto Dander, American Legion official of Stockton, during a night-club argument. The third district court recently granted a new trial on the ground the trial court had erred in giving certain instructions to the jury.

# SHEEP SHEARERS FACE DRAFT, TOO

WASHINGTON, Feb. 17 (AP)—Those hardy individuals who earn big pay a few months of the year shearing sheep out west can get occupational deferment from the draft only if they forego their normal inclination to wander off to the cities in between the big wool clips.

That was the size of the situation as seen by Representative Fisher (D-Tex.), after a conference with Lieut. Col. J. T. Coatsworth of the selective service.

Sheep shearers have a skill which few know and which makes them indispensable when the time comes for the clip, said Fisher. After making \$25 or more per day for a few months, they normally head out for the cities and do various odd jobs which are not classed as essential.

"The answer seemed to be yes as to their being drafted," said Fisher. "If otherwise subject to call, if they went into towns to do unessential jobs. The solution suggested by Colonel Coatsworth is that they be hired to do various odd jobs around the ranches in between shearing seasons."

# DAIRY MEN FLAY MILK PRICE TOP

WASHINGTON, Feb. 17 (AP)—Warning of a possible serious shortage of milk, dairymen from 6 northeastern, southern and far western states called upon the government Tuesday to rescind a recent order placing ceilings on the producer price of fluid milk.

They told agriculture and price control officials that the order did not provide dairymen with sufficient returns to meet advancing production costs. The order established a temporary 60 day ceiling at highest prices prevailing in January.

The protest against the order was laid before Austin C. Hoffman and Donald Anderson of the OPA dairy section and M. Clifford Townsend, director of the agriculture department's food production and administration.
