## Bodies of Jap Women Found On Guadalcanal

GUADALCANAL, Feb. 19 (Delayed) (AP)—Bodies of three Japanese women, supposedly nurses, have been found in the jungle in western Guadalcanal, the first direct proof of the presence of Jap women during six months of fighting on the island, Col. George F. Ferry of Chicago said today.

Since the United States invasion rumors have been prevalent that the enemy was using women as snipers, nurses, pilots and even ordinary soldiers, but there had been no verification. It still is believed that Japanese women have never been here in large numbers.

The three whose bodies were found evidently died of malaria, not bullets.
