

HOUSE MULLS REDUCTION OF INCOME TAXES

(Continued from Page One)
for a 25 per cent reduction this year.

Meet Again
After yesterday's vote, the majority of the committee decided to make a 10 per cent cut apply this year, with an 11.62 cut to start next year. Debate on this and the minority report was to start at 10 a. m. today.

But when that hour arrived, the committee left the house chamber to meet again, the majority deciding to make the 11.62 cut start next year, and forgetting about the 10 per cent cut this year.

April 1 Deadline
The majority said that since 140,000 of the 185,000 income taxpayers last year paid an average tax of only \$11.50, it wouldn't be worth the trouble to refund them an average of \$1.18.

Refunds would be necessary under any program effective this year, because any income tax cut could not become effective until June. April 1 is the deadline for filing income tax returns.

The house refused to accept senate amendments to the house bill to provide for quarterly payments of income taxes, which now are paid only annually or semi-annually.

Banking Group Votes Costs Into Farm Prices

(Continued from Page One)
Honored against yesterday in the senate.

Barkey spoke in connection with the 78 to 2 senate approval of a bill to prohibit the deduction of government benefit payments in setting price ceilings on farm products. The house banking committee also endorsed a similar bill today.

MacArthur Clears Way for Assault On Salamaua

(Continued from Page One)
allied fliers scored four hits on an 8000-ton vessel, believed to be a seaplane tender, and saw bombs explode near three cargo ships.

Other planes attacked the town of Rabaul and the Vunakanau airfield and strafed enemy flying fields at Gasmata and Cape Gloucester, New Britain.

On the Burma front, RAF planes flying from India carried on their steady offensive against the Japanese, shooting up enemy river craft, railway trains and towns.

Fresh reports on the Japanese attempt to raid U. S. air bases yesterday in Assam, India, disclosed that American fighters positively or probably destroyed 29 planes and that only nine of the total 46 enemy aircraft were sighted heading back for home.

Pray Appeals for Wage Boosts for State Police

SALEM, Feb. 26 (P)—State Police Supt. Charles P. Pray appealed to the joint ways and means committee today for salary increases for his men.

Pray said he has lost 70 officers in the past year to the armed forces and to war industries. The original bill would have increased privates from \$160 to \$200 a month, and other officers would have been given similar increases. The ways and means committee trimmed the increases in half.

SEVEN BOMBERS MISSING AFTER DAYLIGHT RAID

(Continued from Page One)

tored bombers roared over northwest Germany, where they could find large U-boat building and industrial targets, only a few hours after the RAF night shift struck a smashing blow at Nuernberg in southern Germany where diesel motors and other submarine equipment are manufactured. Their attack came a little over 24 hours after other American bombers from the Mediterranean area had raided Naples at the southern end of the axis.

That the Americans were keeping the offensive going was indicated even before the official announcement when the German radio told of aerial forces striking from a high altitude this morning.

The preliminary official announcement said the American attack was heavy but did not mention specific targets.

RENT CONTROL HELD UNCONSTITUTIONAL

SOUTH BEND, Ind., Feb. 26 (P)—Judge Thomas W. Slick of the northern Indiana U. S. district court today held unconstitutional the delegation of rent control powers to the office of price administration.

In dismissing a tenant's suit against a South Bend landlord, Judge Slick said in his ruling that "congress never intended to delegate this omnipotent power (the right to arbitrarily fix rents at certain levels) to the administration of the OPA, and if it was so intended, the act, under such construction, is unconstitutional."

The decision was given in a suit filed against the landlord, Dick M. Johnson, by a tenant who alleged Johnson charged \$10 more a month than the rent allowed under the act.

First fort in Idaho was built by David Thompson. It was called Kallspeel house, on Lake Pend Oreille.
President Andrew Johnson was a tailor for seven years before he learned the alphabet.

warplanes as they retreated from the mountains onto the long flat roads of the plains.

Harold V. Boyle, Associated Press correspondent at the front, reported that during the height of the advance, American infantrymen did not even bother to take their Italian prisoners to the rear.

One group of Italians, he said, came over a hill with hands up and waving white handkerchiefs, whereupon "our boys disarmed them, threw their guns away and waved them on back to the rear."

Man Who Wasn't There Was Only Loser in Shooting

RATHDRUM, Ind., Feb. 26 (P)—The only loser in a pre-dawn shooting argument today was I. A. Wiginton of Spokane, who wasn't even present.

Night Marshal Bill Howell said he surprised two men attempting to force entrance into a store and they fled when he ordered them to "halt." He fired three shots, one of which blew a tire on the fugitives' car.

Intercepted by the sheriff's deputies from Coeur d'Alene as they bumped along on the flat tire, the men abandoned the car and took to the hills. Howell said the machine belonged to Wiginton and had been reported stolen last night in Spokane.

"(B) Liberator heavy bombers (Consolidated) attacked enemy positions at Kahlili and at Faisil in the Shortland Island area." Some authorities here considered it significant that no enemy resistance was reported.

Uniform Maximum Retail Prices On Meat Expected

OMAHA, Feb. 26 (P)—A. L. Erikson, head of the meat section of the food price division of OPA, today informed Harry Coffey, president of the Union Stockyards company at Omaha, that the OPA is about ready to release uniform maximum retail prices on meat. Livestock ceilings will not be invoked unless all other measures fail, Erikson added.

Coffee, in a telegram to Price Administrator Brown last week, urged that equitable and uniform retail price ceilings be established on meat in order to eliminate the black market.
