

# CHILOQUIN TO PUSH U.S. WAR SAVINGS DRIVE

A local bond committee was set up in Chiloquin Friday, headed by Bill Morande, according to the county war savings committee.

Verne Owens and Myrtle C. Adams spent most of Friday in Chiloquin working on the new set-up.

Members of the Chiloquin committee, in addition to Mor-

ande, are Loy J. Parker, Lew Callison and Fred Markwardt.

**Campaign**  
Morande will work in a 10 per cent program for the mills and logging camps in the Chiloquin area, and Barker will take charge of the sale of bonds and stamps to students. Callison and Markwardt will stimulate bond sales in town.

A definite campaign is going to be started to get everyone in Chiloquin on the 10 per cent plan. Ed Priaulx of the Chiloquin Review is going to run a 10 per cent victory column, including the individuals names of all persons going on a 10 per cent war savings basis.

## BONUS FORMULA AWARDED WORKERS

By JOSEPH A. LOFTUS

WASHINGTON, Feb. 27 (AP)—The war labor board laid down a bonus formula Friday restoring the loss of regular earnings incurred by thousands of workers when the president abolished premium pay for weekends and holidays, as such.

Bonuses ranging from 5 to 13.8 per cent were awarded employees of the York Safe and Lock company, York, Pa., and the New Britain Machine company, New Britain, Conn. They were worked out by a joint committee of the WLB and the labor department and exactly compensate the workers for their lost premium pay, retroactive to October 1, the date the executive order became effective.

The board found that in both cases "the compensation previously received by these employees in the form of premium pay for work on Sunday constituted an integral part of the agreed wage for their particular jobs." This was demonstrated, the board said, by the execution of collective bargaining agreements covering wages at a time when so-called swing shifts were in effect.

### Work Stopped On Synthetic Rubber Plant in Texas

WASHINGTON, Feb. 27 (AP) Construction of facilities to produce butadiene, a synthetic rubber ingredient, in a converted petroleum refinery at Texas City, Tex., was ordered stopped Friday by the war production board.

The revocation of priority ratings previously granted to the Pan-American Refining corporation was ordered on recommendation of Petroleum Administrator Harold L. Ickes.

A number of conversion projects have been cancelled since it was discovered that the shortage of critical valves, pumps, motors and other critical parts was so severe that the program for "quick" butadiene could not possibly contribute much to the synthetic rubber program this year.

## NEW FOREST SERVICE FUNDS TURNED DOWN

WASHINGTON, Feb. 27 (AP) President Roosevelt has refused to establish a new forest products service with "a huge revolving fund," the White House announced last night.

"This and similar plans were shelved in an effort to obtain the same result more simply and economically," the statement said. WPB Chief Donald M. Nelson and Secretary of Agriculture Wickard, it was indicated, proposed the forest products service. The White House said it would have been a large organization with very extensive powers.

**Expeditors Will Help**  
Industry is turning out less lumber than is needed, the statement said, due principally to lack of manpower. Holding out no hope that more workers can be provided, the White House said WPB will send out field expeditors to tell producers the specific types of material needed for the war, aid in arranging contracts and assist in complicated procedures of procurement "which are disheartening to many small operators."

The expeditors also will help obtain timber for mills which have inadequate supplies of standing timber.

### Pay No Attention To Those Government Questionnaires

WASHINGTON, Feb. 27 (AP) The quietest was put on a lot of government questionnaires Friday.

Except in special cases, such as income tax returns, the public can ignore federal agency quizzes for information unless such requests show that they have been approved by the budget bureau, Director Harold D. Smith announced late yesterday. Other provisions of the budget director's order indicated a move to check—before issuance—whether questionnaires are practical or necessary and just how much of a burden they will place on the general public.

### Spud Growers to Get Fertilizer, Says McNary

WASHINGTON, Feb. 27 (AP)—Fertilizer is available for potatoes and all strategic war crops, Senator McNary says.

The agriculture department advises, he said, that the need for fertilizer will be determined on the basis of recommendations of the state agricultural college.
